Department of Computer Science and Engineering

M.Tech (CNIS) (SVEC-10)

PROGRAM EDUCATIONAL OBJECTIVES

1. To impart advanced knowledge in Computer Networks, Information Security, and Advanced Networking Technologies

2. To develop analytical, design and problem solving skills related to

3. Computer Networks and Security

4. To apply advanced concepts and skills of computer Networking,

5. Security, and Protocols for design of secure Computer Networks.

6. To inculcate professional and ethical values, leadership qualities,

7. for specialized engineering practice.
