ABOUT MietY

Ministry of Electronics and Information Technology is started with a vision of e-Development of India as the engine for transition of India into a developed nation and an empowered society by promoting

- e-Governance for empowering citizens
- The inclusive and sustainable growth of the Electronics, IT & ITeS industries
- Enhancing India's role in Internet Governance
- Adopting a multipronged approach that includes development of human resources
- R&D and innovation
- Enhancing efficiency through digital services and ensuring a secure cyber space.

ABOUT THE PROGRAM

Research and development in nanoscience and Present scenario of Research in engineering colleges ends up with publishing papers and experimenting it with funded projects. Most of the innovative ideas are not materialized due to lack of awareness on moving the research towards making a usable product, patenting it and commercializing them. This program "IPR Awareness Workshop", aims to create awareness among the Researchers to make a marketable product out of their research and innovation more specifically in the domain of Electronics and Information Technology.
