Sub: Appointment as Editor –in – Chief of i-manager's Journal on Cloud Computing

Dear Dr. L. Venkateswara Reddy,

Greetings!

We take pride in announcing your appointment as the Editor-in-Chief of i-manager's Journal on Cloud Computing. Your term of office will be from 2017 - 2019 for a period of three years.

As the Editor-in-Chief of the Journal, you would be responsible for the overall publishing process of the Journal, working in tandem with the Corresponding Editor and the Editorial Board. The primary responsibility of an Editor-in-chief will be to review all the finalized papers of a particular issue and to suggest/edit changes required to improve further the quality of the Journal.

We welcome new possibilities and academic contacts that your association might bring, and together we can face all challenges that confront the Journal and strive to increase the quality and impact of the Journal's content.

We wish you Good luck in this association!

Dear Mrs. V Jyothsna:

You are invited to serve on the technical program committee for ICCISN'2018 (2018 International Conference on Computer Intelligent Systems & Networking).

We seek novel paper submissions to be presented or posted (as a poster paper) in ICCISN' 2018 with topics broadly including, but not limited to : (for detailed list, <https://easychair.org/cfp/ICCISN2018>)

Track areas for articles include but are not limited to:

- Intelligent Systems and Applications
- Big data and Analysis
- Advanced Computing Architecture
- Information Centric Networking
- Internet of things and smart technologies and systems
- Multimedia and Social Computing
- Image Processing and Applications
- System Security and Privacy
- General track: Distributed systems, Networks and Innovative applications.
- Embedded Systems, System Integration and Verification
- E-Systems and Information Management.

Reviewing Process: Each submitted paper will be blindly reviewed by at least two members of an international technical program committee with appropriate expertise.

Please indicate at the URL below whether you can serve on the TPC:

The GATE 2017 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q) \frac{(M - M_q)}{(\bar{M}_t - M_q)}$$

where,

M is the marks obtained by the candidate in the paper, mentioned on this score card in GATE 2017

M_q is the qualifying marks for general category candidate in the paper

\bar{M}_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$, is the score assigned to M_q

$S_t = 900$, is the score assigned to \bar{M}_t

In the GATE 2017 score formula, M_q is usually 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2017 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship.

Admitting institutes may conduct further tests and interviews for final selection.

Supporting Your Editorial Experience

Dear Prof. Kamalapuram,

Your expert opinion is greatly valued for the review of the manuscript, "VANET-Cloud layer for predicting and disseminating vehicle traffic information," which has been submitted to the International Journal of Grid and High Performance Computing (IJGHPC).

IJGHPC has been selected for coverage in Thomson Reuter's products and services beginning with all content published in 2016, which means that IJGHPC will be indexed and abstracted in Thomson Reuter's Emerging Sources Citation Index (ESCI), in the Web of Science at the time of publication. Maintaining ISI standard quality is crucial for all accepted papers in IJGHPC. We hope to work together with our valuable editorial committees toward next level of excellence.

We understand your heavy workload and other commitments, and would be very grateful for your valuable contribution to the IJGHPC. Please use the following link to view the submitted manuscript:

Evaluation form: <http://www.igi-global.com/submit/submit-review-form/?id=13aa22c0-193e-4080-8140-5f4ee020c70>

Please submit your completed evaluation by no later than June 24, 2017.

Please kindly providing constructive comments you are doing a service to your colleagues even if the manuscript is not, in your opinion, publishable. However, if you do not have the time to referee the article, would you kindly advise us on a colleague or possible referee to send the article to?

Thank you for your kind support and for considering this request.

Yours sincerely,

Dear Mr. K BASEER,

You are kindly invited to review the manuscript IJSEKE-D-15-00057R1 entitled "Suggesting Alternative Scenarios using Use Case Specification Patterns for Requirement Completeness" which has been submitted to Int'l Journal of Software Engineering and Knowledge Engineering.

This is the abstract:

Completeness in software requirements specification is one of the key factors for successful software development. For specifying software requirements, scenario based approach is broadly used, composing of a basic flow regarding the successful use of the system, and alternative flows describing abnormal or less frequent interactions of the system. However, alternative flows tend to be frequently missed in many cases because of the relative lower significance rather than the basic flow, which eventually have an influence on achieving the completeness of software requirements. In order to address the issue, we propose an approach for automatically recommending alternative flows from a basic flow by extracting the essential use case patterns based on the occurrence patterns of the agents and measuring the verb similarity between the main verbs of each scenario. In order to validate our approach, we apply it into three industrial case studies, and show comprehensiveness of the suggested alternative flows and synergic effectiveness for inexperienced developers.

I believe that you would serve as an excellent reviewer of the manuscript, "Purifying Test Cases for Improving Fault Localization," which has been submitted to Indian Journal of Science and Technology. The submission's abstract is inserted below, and I hope that you will consider undertaking the important task for us.

Please log into the journal web site by 2016-07-28 to indicate whether you will undertake the review or not, as well as to access the submission and to record your review and recommendation.

The review itself is due 2016-08-04.

"Purifying Test Cases for Improving Fault Localization"

Abstract

Software fault localization is one of the most expensive, tedious and time consuming activities in program debugging. Therefore, there is a high demand for automatic fault localization that can guide programmers to the locations of faults, with minimal human intervention. This demand has led to proposal and development of various methods, each of which seeks to make the fault localization process more effective in its own unique and creative way. In this paper we use concept of test case purification for improving fault localization. The goal of test case purification is to separate existing test cases into small fractions called purified test cases, which consists of three major phases: test case identification, test case slicing, and rank refinement. purified test cases consist of only one assertion statement in each test case.

SIRS-2017 will be held in Manipal, Karnataka, India during Sept. 13-16, 2017. The venue of the Conference is Manipal University (<http://manipal.edu/mu/about-us.html>). Manipal is a suburb within the city of Udupi in Karnataka, India. Udupi is a popular pilgrimage centre and tourist spot. It is a land of ethereal beauty, sandwiched between the verdant mountains of the Western Ghats on the east and the vast, tranquil Arabian Sea on the west.

SIRS aims to bring together researchers from academia, industry and government and to provide an international forum for the sharing, exchange, presentation and discussion of original research results in both methodological issues and different application areas of signal processing and pattern recognition. The first and second editions were hosted by IITM-Kerala, India. The proceedings are available online in SpringerLink digital library (<http://www.springer.com/gp/book/9783319049595> ; <http://www.springer.com/gp/book/9783319286563>)

INVITATION

To,
Dr. Sasikumar Gurumoorthy, M.E, Ph.D.,
Professor, Program Coordinator BOS,
Department of Computer Science and System Engineering,
Sree Vidyanikethan Engineering College, (Autonomous)
Tirupati - 517102.

Date: 04.08.2017

Dear Dr. Sasikumar Gurumoorthy,

Greeting from IFERP -Institute for Engineering Research and Publication!

We cordially invite you to be our Keynote Speaker for the "**3rd International Conference on Recent Challenges in Engineering and Technology (ICRCET-17)**", which is about to be held at Annamacharya Institute of Technology & Sciences, Tirupati, Andhra Pradesh on 12th - 13th September 2017. It is being organized by IFERP-Institute for Engineering Research and Publication along with Annamacharya Institute of Technology & Sciences, Tirupati, Andhra Pradesh.

The main agenda of the conference will be research challenges in various fields of emerging trends in engineering, science and technologies, which hopefully is one of favored research topic on which you are working.

Therefore we request you kindly accept our invitation and give a keynote talk on "**Recent Challenges in Engineering and Technology**" to share your knowledge and experience to the students, academicians, as well as professionals attending the conference.

I would be honoured if you decide to take part in this conference. Please, do not hesitate to contact me if you have any questions. Looking forward to hearing back from you.

I would be pleased your availability to attend as our guest speaker on 12th September '17 for our ICRCET-17 Conference. We look forward to your presence and guidance.

For more details please visit: <http://icrcet.org/>. We are expecting a positive response at your earliest convenience.

Dear Dr.Sasikumar Gurumoorthy,

Greetings of the day !!!
Hope this reaches you in best of health and spirit.

On behalf of Organizing Committee of ICIOTSC-17, We cordially invite you to be our Guest of Honor / Keynote speaker for the "International Conference on Innovations In Internet Of Things For Smart Cities (ICIOTSC-17)", which is about to be held at Geethanjali Institute of Science and Technology, Nellore, Andhra Pradesh on 21st & 22nd, July 2017. It is being organized by IFERP-Institute for Engineering Research and Publication along with GIST, Nellore.

Conference Web Site : <http://iciotsc.com/>

The official opening ceremony will take place on 21st July at 10 o'clock at Geethanjali Institute of Science and Technology, Nellore. I would be grateful if you look part in this Conference and shared your expertise on the topic with our participants. Your knowledge would be an excellent addition to our program.

I would be honoured if you decide to take part in this conference. Please, do not hesitate to contact me if you have any questions. Looking forward to hearing back from you.

6 April 2017 at 15:42

Dear Sir/Ma'am,

Greetings from McGraw Hill Education (India)!

Allow me to introduce myself. I am Sachin Kumar, editor for Engineering books and I wish to connect with you regarding the review of a revised manuscript on **Kraus- Antennas and Wave Propagation**.

As you would have already heard – McGraw Hill is globally now a learning solutions provider as opposed to being a traditional textbook publisher. In view of the same, we are creating and revising the manuscripts that are "Learning Outcomes" oriented – i.e. the content is being designed and arranged to convey outcomes that takes the student closer to becoming a practicing engineer and will help our country achieve the ideals set forth by the Washington Accord.

We wish to have you review our script. We shall send across one/more chapter for which we will require the review within **7-10 days**.

In appreciation of your efforts, we will pay you a token honorarium amount.

We look forward to receive your consent along with your complete correspondence details (Name + Address + Pin code + Personal number + email address)

Thanks and Regards

Sachin Kumar

Dear Dr. Rama Prasad V. Vaddella,

Greetings! Trust this finds you well.

Thank you for accepting our proposal to join as one of our Editorial Member in i-manager's Journal on Image Processing.

You will be as an Editorial Board member as well as on the Review Panel. Your term of office would be for a period of one year (July 2017-June 2018), and 4 issues would fall into this period (Jan-Mar, Apr-Jun, Jul-Sep, Oct-Dec). The review would happen four times within this one year period with quarterly intervals, and the reviewer is expected to complete the review within a stipulated time frame, usually ranging between 2-3 weeks.

The compiled abstracts for each issue would be reviewed internally by our team of editors, and the full text of the selected papers would be forwarded to you for final review. The selection process of the received papers would be on the basis of your assessment as well as other editorial members. We follow double blind review process, and the reviewers can use this form to notify their suggestions and remarks over the class of papers, which would be communicated to the author by the corresponding editor (Please find attached a model of the review format).

The reviewers can receive prior information from the corresponding editor regarding the number of papers and their title in the list of articles format (Please find attached). The reviewers can choose the number of papers to review according to their field of interest.

We look forward towards your continuous support in all our future issues and kindly find attached the Official Letter and the Reviewer Guidelines.

Hope this association would bring more remarkable attributes!

Have a great day!

Warm regards,

52

Sub : Gentle Reminder - Requesting for Wiley Book chapter Review - regd- I am sure that you are quite held up in various academic activities. Being an expert, I know you can evaluate better and thus you are a reviewer to assess the chapters.

The evaluation form and the chapter are already sent to you. This is a gentle reminder from Wiley-Publication's book chapter to review the chapter and requesting your good self to send the review comments.

I kindly request you to send it across at the earliest, so as to finalise the book, as per given schedule. Thanks for your understanding. Thanks and regards, s.p.shantharaj

Respected Dr. N. Padmaja,

We feel pleased to inform you that your name has been chosen for the "*Best Citizens of India Award*" in recognition of your exceptional calibre and outstanding performance in your chosen area of activity.

We have chosen only a few outstanding persons, after strict scrutiny for this Award, out of a considerable number of entries, which we have hitherto received for our forthcoming volume "*Best citizens of India*". The selection of the Awardees in general, however, is based on the information gathered by us, through our extensive research, which we make to identify the progressive pattern of the dynamic men and women of India. We also use all the contacts at our disposal for the said purpose. This Award shall certainly raise your status in the society and shall give a boost to your image from all perspectives.

It is only in the fitness of things to mention in this connection, that we are also honouring a few most outstanding politicians and Cine Stars with the maiden series of the "*Best Citizens of India Award*", for their spectacular performance in their chosen areas of activity. The personalities include, *Shri M V Rajashekrana MLC (Former State Planning Minister), Dr Bhisham Narain Singh Ex Governor, Former CBI Director Joginder Singh G.V.G. Krishnamurthy Former Election Commissioner, Air Chief Marshal N.C. Suri Excelling Architect Feroz Kudianawala, Acknowledged Architect Hafiz Contractor, Lord Swaraj Paul NRI, Smt Sumitra Singh (Speaker Of Rajasthan) Dr Raghuvir S. Kudian (Speaker Of Haryana) and Dr. Naresh Trehan, Chief Cardiovascular Surgeon, Dr Deka (Dean AIIMS).*

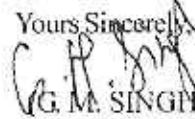

The Award shall be in the form of eye-catching wooden plaque, which can be displayed as a wall hanging and shall serve as a unique presentation of an Award, drawing jealous attention of the onlookers. It will be dispatched to you by Courier. Kindly ensure that your confirmation together with the Citation and Photograph must reach us latest by 10th Oct. 2016, which is the last date of dispatching the Awards.

You will appreciate that we shall be producing a book entitled "*The Honoured Best Citizens of India*", to commemorate this event of national significance. Each page will be dedicated to one of the Awardees. It shall have the citation, justifying your worthiness for this coveted Award. A copy of the citation under reference is enclosed herewith for your kind perusal and approval. Any suggestion to improve the Citation in any manner is certainly welcome.

This is to further inform you that the proposed book shall be priced Re. 4,000/- (Rupees Four Thousand only), as our considered value of the prestigious publication, which may be remitted to us in the form of a bank draft, drawn in favour of "*Best Citizen Publishing House*" as advance. You shall certainly relish the idea that the proposed volume shall be available in the major markets of India, shall be kept in certain libraries and shall also find its way to the private studerited entry in this Book by way of larger expansion of your recognition, fame and repute. Please Send back the enclosed citation (Typed It should not be hand Written) along with two passport size photograph.

With best regards,

**Notice of Acceptance and Schedule, 41st COSPAR Scientific Assembly, 30 July – 07 August
2016, Istanbul, Turkey**

Dear *Dr Prasanth*,

On behalf of the Council of the Committee on Space Research, I am pleased to inform you that your contribution to the 41st COSPAR Scientific Assembly entitled: "**Climatology of Gravity Wave Characteristics and Middle Atmosphere Thermal Structure Characteristics over Reunion Islands, France**" has been accepted and scheduled for an oral presentation in scientific event C0.2, Lecture Room Beyazit Hall on Thursday, August 04, 2016, 15:15-15:30 (15 min).

For the overall program and details of your scientific event, please consult the Assembly website at:
<https://www.cospar-assembly.org>.

Inclusion of your paper in the conference program carries with it the obligation for you, or for one of your co-authors as the case may be, to display and/or to present the paper at the times and in the mode indicated. You are kindly requested to inform us if you and your co-authors find at any time before the Assembly that it is not possible to attend by logging into the website indicated above and selecting the "withdraw abstract" button next to the relevant paper(s) in the MyPapers area. You should also send a message to cospar@cospar-assembly.org and inform the C0.2 event organizer well in advance of the session.

In June the organizers will send authors instructions for oral presentations. These instructions will be posted in due time on the web at: <https://www.cospar-assembly.org>. Please be sure to read these instructions very carefully in order to facilitate preparation of your presentation and to help ensure that each event runs smoothly during the Assembly.

Presenters are encouraged to submit their completed manuscripts to one of COSPAR's journals, *Advances in Space Research* or *Life Sciences in Space Research*. There are no deadlines for submission as *ASR* and *LSSR* are regular journals. The web sites with instructions for authors and for submissions are <http://ees.elsevier.com/asr> and <http://ees.elsevier.com/lssr>. Information is also available on the COSPAR web site and at the Istanbul Assembly.

Your COSPAR Assembly presentation number is **C0.2-0017-16**. This is the final number for your presentation. Papers submitted to *ASR* or *LSSR* will be assigned a journal number that will be different from the COSPAR presentation number.

Please feel free to volunteer as chairperson for one of the sub-sessions of your event where you are not a speaker if the web indicates this position is not yet filled by the Main Scientific Organizer. If you wish to volunteer, kindly inform the event organizers and ZARM (cospar@cospar-assembly.org) by 13 June 2016.

Candidate's Details

Bounds Candidate's Performance

Organizing Institute for GATE 2016 : Indian Institute of Science

The GATE 2016 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q) \frac{(M - M_q)}{(\bar{M}_t - M_q)}$$

where,

M is the marks obtained by the candidate in the paper, mentioned on this scorecard in GATE 2016

M_q is the qualifying marks for general category candidate in the paper

\bar{M}_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$, is the score assigned to M_q

$S_t = 900$, is the score assigned to \bar{M}_t

In the GATE 2016 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2016 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Dear Prof. Dr. N. Padmaja,

Greetings from Prof Dr.P.Prakasam.

Myself Dr.P.Prakasam, working as a Professor/Principal at United Institute of Technology, Anna University, India. As a technical contribution to the society, I have started a 100 % double blind review non-profitable journal in the area of Signal Processing and Wireless Networks.

Name of the Journal: **Journal of Signal Processing and Wireless Networks**

Website: www.jspwn.com

I have gone through your profile and I understand that you are expertise in the filed of Signal/Image Processing/Wireless Networks. Hence I invite you to be a part of JSPWN team as Editorial Board Member.

Hope you will accept my request and we will work as a team for the betterment of the society.

I am expecting positive reply.

Thank you

Dear Dr. Nimmagadda Padmaja

We would like to inform you that the sixth edition of International Conference on Advances in Computing, Communications and Informatics (ICACCI'17) (<http://icacci-conference.org/2017/>), will be held in Manipal, Karnataka, India during Sept. 13-16, 2017. Since its inauguration in 2012, ICACCI has developed into a reputable conference and is well attended by experts in all aspects related to computing and information from all over the world.

Manipal is a suburb within the city of Udupi in Karnataka, India. Udupi is a popular pilgrimage centre and tourist spot. It is a land of ethereal beauty, sandwiched between the verdant mountains of the Western Ghats on the east and the vast, tranquil Arabian Sea on the west. The venue of the Conference is Manipal University (<http://manipal.edu/mu/about-us.html>).

On behalf of Organizing Committee, we would like to invite you to serve as a reviewer for the conference. As a leading researcher in the field, your opinions and expertise are very valuable and important for a successful conference. We hope you will accept this invitation.

Please indicate at the URL below whether you can serve on the TPC:

<http://edas.info/Tyn.php?tpc=999121701>

Your EDAS user name is padmaja202@gmail.com

As a reviewer, you would be expected to review a maximum of 3 papers in your area of interest. The review period will be during the month of May 2017.

Thank you for your collaboration!

Best regards,

Chairs, ICACCI-2017, Manipal, India

Dear Dr M Naresh Babu,

The international workshop on "SMT Solvers based Cryptanalysis" organized by C R Rao Advanced Institute of Mathematics, Statistics and Computer Science jointly with Scientific Analysis Group (SAG), Defence Research and Development Organization (DRDO) held from 27th to 29th June, 2016 expresses its sincere appreciation for accepting our invitation and attending the workshop. Your expert lectures entitled "Cryptanalysis - SMT Tools for SIMON Cipher" and "Cryptanalysis - SMT Tools for SPECK cipher" delivered on 28th and 29th June 2016 respectively have been well received by the participants. They have expressed desire to interact with you and may be permitted to contact you by email. Your continued support and cooperation will be extremely helpful and useful to our institute in general and crypto group in particular.

With best regards,

Yours sincerely,

(T Appala Naidu)

Invitation to Attend the 50th Celebration of the Turing Award

CELEBRATION OF 50 YEARS
OF THE ACM TURING AWARD

JUNE 23 - 24, 2017
WESTIN ST. FRANCIS, SAN FRANCISCO

REGISTER FOR THE 50 YEARS OF THE
ACM TURING AWARD CELEBRATION

Dear ACM Member,

We would like to extend a special invitation to you to attend ACM's Celebration of 50 Years of the A.M. Turing Award.

Since its inauguration in 1966, the ACM A.M. Turing Award has recognized major contributions of lasting importance in computing. Through the years, it has become the most prestigious award in the field, often referred to as the "Nobel Prize of computing."

ACM will celebrate 50 years of the Turing Award and the visionaries who have received it with a conference on June 23 - 24, 2017 at the Westin St. Francis in San Francisco. ACM Turing laureates will join other award recipients and ACM experts in moderated panel discussions exploring how computing has evolved and where the field is headed. Panels include:

- Advances in Deep Neural Networks
- Restoring Personal Privacy without Compromising National Security
- Moore's Law is Really Dead: What's Next?
- Quantum Computing: Far Away? Around the Corner? Or Maybe Both at the Same Time?
- Challenges in Ethics and Computing
- Preserving our Past for the Future
- Augmented Reality: From Gaming to Cognitive Aids and Beyond

To reserve your seat at ACM's Celebration of 50 Years of the A.M. Turing Award, please register [here](#). Registration is free of charge, compliments of ACM. Space is limited, so register now.

We hope you can join us in San Francisco to look ahead to the future of technology and innovation, and to help inspire the next generation of computer scientists to invent and dream.

Best regards,

Subject: Manuscript IEIB-D-16-00379 for review

Date: Thu, 22 Dec 2016 12:32:40 IST

Dear Dr. Rama Prasad,

In view of your expertise I would be very grateful if you could review the following manuscript which has been submitted to Journal of The Institution of Engineers (India): Series B.

Manuscript Number: IEIB-D-16-00379

Title: An IWD Based Feature Selection Method for Intrusion Detection System

Abstract: Intrusion Detection System (IDS) is an essential cyber security tool which is used to detect abnormal activity on a network or a host. A general approach towards designing IDS models is to use classifiers as detection units. But a large feature space, including noisy, redundant and irrelevant features often lead to low detection and high misclassification rates by the classifier. To address this drawback, the process of selecting most relevant key features for classification is highly important. The objective of this work is to optimize the process of feature selection in a way that improves the accuracy of the classifier. This paper presents an IDS model wherein an Intelligent Water Drops (IWD) algorithm based feature selection method is proposed. This method uses the IWD algorithm, a nature inspired optimization algorithm for the feature subset selection along with Support Vector Machine (SVM) as a classifier for evaluation of the features selected. The experiments are conducted using KDD CUP'99 dataset and the performance is compared with earlier designs. The experimental results show that the proposed model performs better in terms of higher detection rate, low false alarm rate, and improved accuracy than the existing approaches.

Subject: Senior Member Grade Elevation Notification

Date: Thu, 02 Mar 2017 22:21:00 IST

Dear Rama Prasad Vaddella,

It is a great pleasure to congratulate you on your elevation to the grade of IEEE Senior member. IEEE Senior Membership is an honor bestowed only to those who have made significant contributions to the profession.

As an IEEE Senior member, you receive the following benefits:

- **Recognition:** The professional recognition of your peers for technical and professional excellence.
- **Leadership Eligibility:** Senior members are eligible to hold executive IEEE volunteer positions.
- **Ability to refer other candidates:** Senior members can serve as a reference for other applicants for Senior Membership.
- **Review panel:** Senior members are invited to be on the panel to review Senior member applications.
- **Letter of commendation:** A letter of commendation on the achievement of Senior member grade will be sent to your employer (upon your request). [Request a letter of commendation.](#)
- **Announcements:** Announcement of your elevation can be made in section/society and/or local newsletters, newspapers and notices.

In addition to your new benefits, the following rewards are sent to you via postal mail:

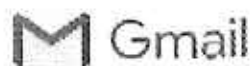

- **Complimentary Society Voucher:** You may use this voucher to join one **new** IEEE Society.*
- **Senior member plaque:** An engraved plaque you can proudly display to colleagues, clients and employers. The plaque, an attractive fine wood with bronze engraving, is sent approximately eight weeks after elevation.

Newly elevated Senior members are encouraged to find the next innovators of tomorrow and invite them to join IEEE. Those you invite to join will receive US\$25 off their first year of membership.

Congratulations on this significant milestone, and thank you for your contributions to the profession, and to IEEE.

Sincerely,

Joe Cruz

Dear avanija janagaraj

I hope this email finds you well! I am contacting you regarding the *International Journal of Information Technology and Web Engineering (IJITWE)* in the capacity that you were a contributing author who published with us before. Currently, and as the Journal embarks into its second decade, you are kindly invited to become a reviewer for the journal and assist us in maintaining the quality and high standard of this publication into the future. I am sure that you share with us the responsibility and put our hands together in a concerted effort for the continued success of the IJITWE as it did in the last 10 years.

Individuals appointed to the review board of IJITWE are performing an important and valuable job, assuring that the journal is being published with integrity and accuracy. Serving on a review board for a scholarly journal is a key step and significant contributing factor in your academic career progression. This responsibility increases visibility, as well as your knowledge of current and novel research in the field.

Given your expertise and your contributions to the field at large, I would like to invite you to apply. This publication is already attracting quite a bit of attention, as it contains very strong, progressive content and has been abstracted and indexed in a number of prestigious lists, including but not limited to: ACM Digital Library, Bacon's Media Directory, Cabell's Directories, Compendex (Elsevier Engineering Index), DBLP, Google Scholar, INSPEC, SCOPUS, etc.

Additional details about this journal, including its current call for papers, can be found on its website here: <http://www.wjoi-global.com/journal/international-journal-information-technology-web/1093>. Accepted applicants will be appointed to the board as ad-hoc reviewers on a trial basis. Upon completion of 2-3 manuscript evaluations, ad-hoc reviewers will have the opportunity to be considered for appointment as a full member of the Editorial Review Board.

If you are interested in becoming a reviewer for the *International Journal of Information Technology and Web Engineering (IJITWE)*, please submit your application here: <http://www.wjoi-global.com/journals/become-a-reviewer/>. Applicants will be reviewed on a first-come-first-served basis.

Dear Participant,

Warm Greetings from AP State Skill Development Corporation (APSSDC)

We thank you for your active participation during the 3-day ToT by APSSDC - NASSCOM on Module 3 of "Cyber Security and Data Analytics" held during 14th December - 18th December, 2016 at Jawaharlal Nehru Technological University, Kakinada. This program is being delivered to students at 31 colleges across AP as a three module intervention, over 3 independent semesters.

We hope that you found the workshop informative. Our primary goal was to increase your understanding of Associate Analytics & Security Analyst QP and to introduce and provide resources that will support your classroom instruction. The aim is to address two key requirements, of closing the industry-academia skill gap, and of creating a talent pool that can reasonably weather future externalities in the IT industry.

Going forward, from this semester, we will be introducing Student Assessments, Webinars, Guest lectures and Trainer Interaction activities in the above subject's in-order to enhance the exposure of both the students and the faculty community. We will keep you updated on this.

We once again acknowledge your participation in the ToT Program and wish you the best for the upcoming semester.

Dear All,

The NASSCOM Cyber Security and Data Analytics workshop provided an opportunity for a diverse group of faculty members across 31 colleges and over 10 NASSCOM Certified trainers to interact and share knowledge on the program, its delivery and outcome expectations. The primary goal was to increase the understanding of Associate Analytics & Security Analyst QP and to introduce and provide resources that will support classroom and Practical instruction which will help in preparing students to be more employable workforce in the industry after completion of the program.

The workshop began with quick refresher and assessment of Module-1 for the faculty. This practice ensured that all the faculty members were on the same level of understanding before Module 2 training is initiated. The workshop witnessed increased collaboration and the faculty leveraged this opportunity by providing recommendations for improving current practices.

Thank you for investing your time/faculty's time for the ToT programme and as a proof of their participation we are sending in Attendance sheet of both the courses. Individual Faculty participation acknowledgement letters will be dispatched shortly.

Dear Professor,

Greetings from G. L. Bajaj!

With your support and guidance, MedCom-2014 is getting exhilarating response from all across the world. Just to share the information, we have Apollo ATNF as our Knowledge Partner and IEEE EMB Bangalore chapter as Technical Sponsor in addition to IEEE UP Section and ICEIT.

The extended versions of selected papers will be invited for publication in an International Journal of IGI-Global (no-publication fee).

TPC members are requested to convey the conference tracks from the below given list so as to update the easychair link for review of papers. You may mention more than one tracks.

CONFERENCE TRACKS and Special Sessions

COMMUNICATION SYSTEMS AND NETWORKS

- MEDICAL IMAGING AND BIO-SIGNAL PROCESSING
- SIGNAL PROCESSING FOR COMMUNICATION SYSTEMS
- M-HEALTH / E-HEALTH
- SYSTEM, SERVICES AND APPLICATIONS
- HEALTHCARE APPS FOR HANDHELD DEVICES
- BIOMETRIC BASED SECURITY

MULTIMEDIA COMMUNICATION AND SIGNAL PROCESSING (MCSP-2014)

Yo We, further, request for you to share the enclosed conference flyer to your contacts and research associates and recommend the event for high quality paper submission.

2009JD012535 (Editor - Steve Ghan): Request to Review from Journal of Geophysical Research - Atmospheres

Dear Dr. P:

Would you be willing and available to review "Seasonal and Diurnal variation of convective available potential energy (CAPE) using COSMIC/FORMOSAT observations over the tropics" by Narendra alur and Jan Nee, submitted for possible publication in the Journal of Geophysical Research - Atmospheres?

The abstract is:

The global pattern of convective available potential energy (CAPE) at seasonal and diurnal time scales is discussed using one year of COSMIC/ FORMOSAT-3 satellite observations. The calculation of CAPE using temperature and humidity measurements of COSMIC is described. The estimated CAPE is grouped into 5X5 grid and further classified into four seasons namely winter, spring, summer and autumn. The CAPE magnitudes in general have high values over land as compared to oceanic region, which confirmed the consistency of CAPE calculations. The systematic migration of CAPE from Northern hemisphere to Southern hemisphere is observed during Northern hemisphere summer to winter coinciding with the movement of inter tropical convergence zone. Once the seasonal pattern is established, using the composite diurnal patterns of CAPE with 2 hrs resolution is obtained by combing all the observations in one season. Diurnal variation of CAPE has shown domination of semidiurnal variations at some latitudes (12 hrs) and diurnal variation (24 hrs) at some other latitudes. The mean removed CAPE is then subjected to Fourier analysis to extract the diurnal variation amplitudes. During the observational period, larger CAPE magnitudes are observed in the Indian Ocean during most of the seasons comparable in magnitude to that of the land regions. As the CAPE and precipitation patterns have correlation, the present study demonstrated the capability of COSMIC/ FORMOSAT-3 to study the diurnal patterns of CAPE, which will have implications in interpreting the tropical diurnal precipitation patterns.

Please decline the invitation if you think that you are unable to provide an objective review. If you agree to review this manuscript, I would ask for your comments within 30 days from your acceptance.

Dear Mr. KHV Prasad

Considering your research in this area, I would greatly appreciate your willingness to provide a review of the referenced Regular Paper for the IEEE Transactions on Image Processing. The abstract and the list of authors are included below.

By contacting experts like yourself, we hope to obtain detailed and well substantiated reviews that will help us identify high quality contributions. Our journal has implemented new standards for a timely review cycle. If you agree to do the review, we request that you return the review report electronically within 6 weeks through the website <https://mc.manuscriptcentral.com/tip-ieee>.

Please respond to this email as quickly as possible using the automated response links available below. As you know, peer review is essential to maintain the quality of the journal. If you are not available to review at this time, I would appreciate the recommendation of a capable colleague.

Thank you in advance for your help and prompt response.
