“Outreach Activity” March 3-10, 2017

COMPUTER ENGINEERS TECHNICAL ASSOCIATION (CETA)

outreach activity during 3rd to 10th March, 2017 in and around Tirupati. Outreach Program is organized at the following schools:

1. Zilla parishad High school, Kotala.
2. M.G.M High school, Tirupati.
3. Nagarapalaka patasala , Tirupati.
4. Pandita Jawaharlal Nehru Municipal High School, Tirupati

The Outreach program committee explained to the students about **“Computer Applications in Real Life”** in Z.P.High School, kotala. The committee discussed about **“Career Development”** for 9th & 10th class students in M.G.M High school, Tirupati. The committee explained about **“Skill Enhancement and Career Growth”** to students of Nagarapalaka Patasala and Pandita Jawaharlal Nehru Municipal High School, Tirupati.

Activity Outcomes:

1. Students gained knowledge on using computer applications.
2. Students obtained exposure to their Career development.
3. Students will be able to identify their skills, interests and values as they relate to exploring career options.

Awareness Campaign on Financial Literacy Program

at NaravariPalli, KandulaVariPalli, A. Rangampet, Narasingapuram

9th January to 11th January 2017

Under the auspices of Sree Vidyanikethan and the cooperation of APSSDC, an “Awareness Programme on Financial Literacy Program” was organized between 09 – 11 January, 2017 at Naravaripalli, Kandulavari palli, A. Rangampeta and Narasingapuram.

The programme coordinator Mr. P. Srinivas Reddi, along with ten members of faculty from Sree Vidyanikethan Engineering College, five representatives from APSSDC and 60 students belonging to Information Technology, Computer Science & Engineering and Computer Science & systems Engineering, participated in the campaign. They campaigned door-to-door and explained to the villagers the usage of mobile phones for safe and easy cashless transaction.

Android apps of various banks were installed in the smart phones of the villagers and guidance was provided concerning their usage. Internet-based cashless transaction for merchandise was explicated to the shop owners in A.Rangampet.

Dr. M. Mohan Babu, Chairman, Mr. Vishnu Manchu, CEO, Prof. T. Gopal Rao, Special Officer, Mr. Ravi Sekhar, Director Finance, Dr. I. Sudarsan Kumar, COO, Dr. D. V. S. Bhangavanulu, Director, Dr. P.C. Krishnamachary, Heads of Departments, and members of faculty, Mr. Uma Maheswara Rao, SAO, and Mr. Tulasi Naidu, CAO appreciated the participants for their timely gesture.

The participants of the campaign along with Sree Vidyanikethan Engineering College management.

At the Naravarapalli camp: Village Sarpanch, government officials and participants.

Volunteers explaining cashless transaction to an elderly person at Kandulavaripalli.

A Shop owner learning internet-based transaction for his business.

The members of DWCRA being enlightened about cashless transaction at Narsingapuram.

Volunteers installing android apps in villagers' smart phones.

Women Empowerment Cell

An Invited Talk on “Road Safety, Security –Contemporary Issues regarding Women”

27th November, 2017

An invited talk was organized by WOMEN EMPOWERMENT CELL on the “**Road Safety, Security –Contemporary Issues regarding Women**” by **SMT.K.SUKUMARI,, DEPUTY SUPERINTENDENT OF POLICE-TRAFFIC, TIRUPATI** on 27th November 2017.

Being a AP State Seva Pathakam awardee for outstanding work done in Crime against women, Ms.Sukumari was more than a appropriate choice to act as a speaker on this topic.

Road Safety and Security of youth, especially girls have been a pressing issue for decades now. However, technological advancements have led to endangering scenarios challenging the safety of one and all, this point was emphasized to the students of B.Tech I year, across various disciplines, simultaneous Smt. Sukumari provided useful information to cope with these challenges.

Ms.Sukumari discussed in detail about “**DEFENSIVE DRIVING**” as it is need of the hour to keep ourselves safe and secure.

She engaged the students with her friendly interaction regarding respecting fellow-beings, especially women. She addressed girl child to be as “**KSHEYTRA DAYINI**” deserving the best in society and hence laid emphasis to protect her modesty.

A total number of four hundred and thirty students participated and benefitted out of the motivational insights provided by Smt.Sukumari.

A. Rangampet, Near Tirupati - 517 102 (A.P), INDIA

Ph: +(91) 877-2236711-14 Fax: 0877-2236717

www.vidyanikethan.edu

The main aim of this lecture is creating awareness on gender equality and women empowerment for creating awareness for the students regarding opportunities across the globe. Dr. S. Farook, professor of EEE department addressed the gathering. IT-enabled services sector in India provides direct employment to three million people and indirect employment to 10 million, many of them being the young women. Technology and internet connectivity have opened up other options for women as well. In a country where far less than 10 percent of the jobs are in the formal sector, women's chances of having a shot at 'regular jobs' is very poor, so technology that enables them to start and sustain businesses without huge investments is a boon. The Indian government has set up an online marketplace that enables small female entrepreneurs to connect directly with consumers.

He explained that even automation has benefits for women. Automation may also make some jobs physically less onerous for women. A garment factory in Addis Ababa, Ethiopia, apparently hires more young women today. The lack of basic education in the early stage of economic development makes rural girls less prepared for going out to cities to take industrial jobs, compared to the rural boys who are more likely to get some education in most developing countries. The increase of female students in colleges, naturally results in more and more female professionals in financial and high-tech industries. Finally he concluded that many public and private sector organizations recognize these advantages and are working to bolster women's participation in the economy.

SEMINAR REPORT on
“FEMINISM IN CONTEMPORARY INDIA: ISSUES & CHALLENGES”
(12th December 2016)

A one day seminar on “**FEMINISM IN CONTEMPORARY INDIA: ISSUES & CHALLENGES**” was organized by Department of Electronics and Communication Engineering, Sree Vidyanikethan Engineering College, A. Rangampet. The programme was organized on December 12, 2016 under Women Cell. About 60 members of SVEC are actively participated and gained useful information from all the sessions.

The program was inaugurated by **Dr. P. C. Krishnamachary**, Principal, Director **Dr. D. V. S. Bhagavanulu** and **Dr.P.V.Ramana**, HOD of ECE.

Theme of Seminar:

The Seminar will focus on objective of “Feminism in Contemporary India Issues and Challenges”.

There is a need to create awareness about Gender Equality Laws and Policies. This awareness will be strengthening the position of the women in the society thus the seminar topic pose a lot of challenging area to be covered during technical sessions under difference themes such as:

Sub Themes:

- Crime against women and its impact on them.
- Role of gender biased laws; Domestic Violence Act.
- Women Education and Media.
- Cry still unheard; the Menace of Female Foeticide in India.
- The role of education in removing gender inequality.
- Status of women in India.
- Caste base social exclusion and discrimination.
- Discrimination and policies in India.

Women's Protection Cell

An Expert Talk on

“Glass Ceiling”

(22-07-2016)

An expert talk was conducted by Womens Protection Cell on 22nd July 2016 on “Glass Ceiling” for faculty and students of B.Tech and M.Tech at Dasari Auditorium; by Ms.A.Sumera, Assistant Professor, and Department of BS&H.

Glass Ceiling is an unacknowledged barrier to advancement in a profession, especially affecting women and members of minorities. Ms.Sumera explained about the likely reasons that effect a women's career development, specifically glass ceiling.

Increasingly women are bumping into a glass ceiling, which is subtle and transparent, yet so strong that it prevents movement up the corporate hierarchy. This point was vivaciously driven home by Ms.Sumera.

Almost 400 students and faculty members got benefited out of the inputs provided by the expert.

Department of Electronics & Communication Engineering

SEMINAR REPORT on
"The Persistence of Discrimination, Harassment and
Inequality for Women"
(28th January 2016)

A one day seminar on "The Persistence of Discrimination, Harassment and Inequality for Women" was organized by Department of Electronics and Communication Engineering, Sree Vidyanikethan Engineering College, A. Rangampet. The programme was organized on January 28, 2016 under Women Cell. About 54 faculty members and 70 students of SVEC are actively participated and gained useful information from all the sessions.

The program was inaugurated by **Dr. P. C. Krishnamachary**, Principal, Director **Dr. D. V. S. Bhagavanulu** and **Dr.P.V.Ramana**, HOD of ECE.

The following points were discussed:

The work of the equality bodies is gathered and analysed under five different headings:

- Mainstreaming led initiatives: focus on issues of equal pay, work-life balance and policy-making.
- Litigation led initiatives: focus on issues of pregnancy-related discrimination, harassment on the ground of gender and sexual harassment, and goods and services. Litigation led work included a focus on under-reporting of discrimination.
- Communication led initiatives: focus on addressing gender stereotypes.
- Activities in relation to men: focus on litigation, the role of men in gender equality, breaking stereotypes, and equality in the sphere of caring work.
- Activities in relation to trans people: focus on litigation, research and legal recognition of trans people. Proposals for the new Strategy are set out based on this analysis of the work of equality bodies and on earlier

Equity initiatives in relation to violence against women, the Gender Goods and Services Directive, work-life balance, equal pay, discrimination against trans people, and harassment on the ground of gender and sexual harassment.

Ph: +(91) 877-2236711-14 Fax: 0877-2236717

www.vidyanikethan.edu

A one day seminar on “**Women Entrepreneurship the Emerging Economic Workforce Turning Challenges in to Opportunities**” was organized by Department of Electronics and Communication Engineering, Sree Vidyanikethan Engineering College, A. Rangampet. The programme was organized on February 20, 2017. About 70 members of SVEC are actively participated and gained useful information from all the sessions.

The women Entrepreneurship Programme was inaugurated by **Dr. P. C. Krishnamachary**, Principal and **Dr.P.V.Ramana**, HOD of ECE & Convener of the Programme, at 10.00 A.M

The objective of this seminar is how to overcome the emerging economic workforce challenges in to opportunities for women. India is one fastest emerging economies and importance of entrepreneurship is realized across the spectrum. Women entrepreneurs are defined as those who use their knowledge and resources to develop or create new business opportunities, who are actively involved in managing their businesses, and have been in operation for longer than a year

Women owned businesses are highly increasing in the economies of almost all countries. The hidden entrepreneurial potentials of women have gradually been changing with the growing sensitivity to the role and economic status in the society. Skill, knowledge and adaptability in business are the main reasons for women to

emerge into business ventures. The challenges and opportunities provided to the women of digital era are growing rapidly that the job seekers are turning into job creators. They are flourishing as designers, interior decorators, exporters, publishers, garment manufacturers and still exploring new avenues of economic participation. In India, although women constitute the majority of the total population, the entrepreneurial world is still a male dominated one. Women in advanced nations are recognized and are more prominent in the business world.

The Seminar mainly focuses on
Motivational factors for women entrepreneurs.

- Market oriented risks.
- Knowledge in business administration
- Awareness about the financial assistance
- Socio cultural barriers.
- Identifying the available resources.
- Decision making and problem solving.
- ECO friendly Technology
- Analyze the conversion process of challenges into opportunities

 - All Volunteers of SVEC have taken pledge on the inaugural day of swachh bharath for the academic year 2014-15.
 - Our Volunteers have cleaned areas like class rooms, laboratories and few areas inside the college premises.

Extension Activity on Low Cost Housing Technology

The Department of Civil Engineering of Sree Vidyanikethan Engineering College has conducted an extension activity to create awareness on Low Cost Housing Technology for villagers of Bhandharla Palli, Chandragiri Mandal on 05-12-2015.

Dr. P. Ramesh, Head, Department of Civil Engineering, SVEC was convener, Mr. V. Mahesh was the coordinator, other faculty and students of Civil Engineering Department were the organizers of this programme. During the program session, awareness has been given to the villagers on various issues related to **locally available and energy efficient building materials for construction of low cost houses.**

The following are the objectives of the programme:

- To create the awareness on the locally available building materials
- To encourage the students and faculty members in doing the service to the society
- To encourage villagers to utilize locally available and energy efficient building materials for low cost housing construction

OUTREACH PROGRAMME

The Department of Civil Engineering of Sree Vidyanikethan Engineering College has conducted an Outreach Programme to create awareness on Management of Sustainable Water Resources for villagers of Nagaiahgari Palli, Chandragiri Mandal in commemoration with 152nd birth anniversary of BHARAT RATNA SIR MOKSHAGUNDAM VISVESVARAYA and 45th Engineers' Day Celebrations under TEQIP-II on 15-09-2012.

Prof. Dr. P. Ramana Reddy, Dean (PG Courses and Research) was the chief guest of the occasion, Prof. O. Eswara Reddy, Head, Department of Civil Engineering, SVEC was convener, Dr. M.V. Subba Reddy and Mr. D. Srinivasa Murthy were the coordinators, other faculty and students of Civil Engineering Department were the organizers of this programme. During the programme session, problems on conservation and management of water resources were raised by the villagers and were guided with solutions by the faculty of civil engineering department.

The following are the objectives of the programme:

- To create the awareness on the actual situation of the water resources
- To instill in the student, faculty the deeper sense of service
- To encourage action at the individual, local and community levels to address issues related to water resources

Outpace Hustle:-

The outpace hustle activity was conducted by SVEC in the year 2014-15. The number of students participated in this activity were 30 and the name of the teacher participated in this activity was Mr.G.Ravindra Murthy.

Gender Awareness-Equality Issues Workshop Report (16 September, 2014)

A one day workshop on “**Gender Awareness-Equality Issues**” was organized by Department of Electronics and Communication Engineering, Sree Vidyanikethan Engineering College, A. Rangampet. The programme was organized on September 16, 2014. About 100 students and 30 faculty members of SVEC have actively participated and gained useful information. The Programme was inaugurated by **Dr. P. C. Krishnamachary**, Principal and **Prof. P.V Ramana**, HOD of ECE & Convener of the Programme, at 10.15 A.M.

The workshop focused on Gender Awareness and equality issues in our society. In our society today, communities are made up of people with a wide range of ideas and orientations, even about issues as fundamental as gender. Anyone engaging in his/her community may be challenged by ideas and orientations that they have not considered. Among these ideas, differing ideas about gender can be very challenging, especially if a person hasn't thought about the issues of growing up male or female and how gender expectations affect day-to-day working relationships. This workshop invites students to think and dialogue on what gender is and on their own attitudes toward it.

Mr. P.V Ramana, Professor and Head of ECE, SVEC delivering a lecture on
“Gender Awareness-Equality Issues”

Audience during the Workshop "Gender Awareness-Equality Issues"

The workshop enabled the Participants to explore the nature of gender, developing a deeper sense of its nature, role, and manifestations in society. The workshop ended with discussions and exchange of opinions by 4.30 P.M and formal vote of thanks.

Invited talk on “**Effect of Globalization and technical changes in gender equity**”

on 16-03-2016 from 10.30 a.m to 1.00 p.m in Auditorium

The main aim of this lecture is creating awareness on globalization and technology that are helping to close the gender gap in employment and opportunities across the globe. Prof. M.S.Sujatha professor of EEE department addresses the gathering. Urbanization generally offers women the option to pursue a wider range of opportunities than is available in rural areas. In addition, women can sometimes get away from the traditions that constrain life choices, such as early marriage, by going to the city for work. In India, technology and urbanization are lifting women up. She was emphasizing that, technology also allows for remote working, which expands women’s options. In India with no organized day care and with increasing nuclear families, this enables a lot more educated white-collar women to participate in the workplace and not be forced to drop out on account of child-rearing. Turning inward and trying to stem globalization may turn back the clock on female advancement.

The incentives for businesses to support gender equality are strong. Companies with greater gender equality in their workforce and top management can reap many benefits. Among other things, gender-diverse teams are correlated with higher financial returns and higher innovation potential and outcomes. Finally she concluded that the gender gaps are not created by technologies or economic development itself, but like barriers in the education or legal systems, or in policies, norms, and ideologies.

Expert Lecture on "**Gender equity in physical activities**

on 15-04-2015 from 10.30 a.m to 1.00 p.m in Auditorium

The main aim of this talk is to create awareness on gender equity in physical activities. Mr.N.M.G.Kumar, Associate professor of EEE department addressed the gathering. He stated that gender Equity is the process of allocating resources, programs and decision-making fairly to both males and females. This requires ensuring that everyone has access to a full range of opportunities to achieve the social, psychological and physical benefits that come from participating and leading in sport and physical activity. Gender equity requires that girls and women be provided with a full range of activity and program choices that meet their needs, interests and experiences. In the sport and physical activity system, the use of gender equity is to be considered. **Equality** focuses on creating the same starting line for everyone. **Equity** has the goal of providing everyone with the full range of opportunities and benefits – the same finish line. Organizations have much to gain by committing themselves to achieving gender equity. Attracting more girls and women to sport and physical activity enhances the revenue base and increases the market segment to which the sport appeals.

Fully representing the population base and tapping the resources of every member results in a larger, stronger and more effective organization. Changing the image of women in sport attracts public interest In turn; more members are attracted to the organization. Finally he concluded that Sport and physical activity can provide opportunities for girls to understand and respect their bodies which in turn help them to deal with health issues.

Expert Lecture on "**Institutional innovations for gender equity**
on 26-03-2014 from 10.30 a.m to 1.00 in Auditorium

The main aim of this talk is to create awareness on gender equity in physical activities. Mr.M.Manohar, Associate professor of EEE department addressed the gathering. He stated that gender equity also requires an examination of organizational practices and policies that may hinder the participation of girls and women. Taking the lead in promoting girls and women brings prestige and support to the organization. Skilled women provide the organization with an important talent pool of administrators, coaches and officials. Working together, women and men can learn to build equal partnerships. He concluded by saying that there are various innovative ideas such as Hiring and recruitment practices – to ensure women have leadership roles, and involved in decision-making, and are available as role models for other girls and women, Resource allocation – to determine how budgets are allocated across programs, Facility bookings – to ensure that both females and males have access to prime time slots and prime facilities, Participation rates – to evaluate current programs and services to identify potential barriers, activity programming – to assess the types of activities offered for males and females.

Guest Lecture on "Gender equity versus gender equality"
on 25-04-2013 from 10.30 a.m to 1.00 p.m in Auditorium

The main aim of this report is to create awareness on gender equity vs gender equality. Dr.P.Ramana Reddy, professor of EEE department addressed the gathering to provide exposure to the students.

In this context, he explained about gender mainstreaming which is a key strategy to reduce inequalities between women and men. Gender mainstreaming is the process of assessing the implications for women and men of any planned action including legislation, policies, and programs in any area and at all levels. Gender refers to the social differences and relations between men and women which are learned, vary widely among societies and cultures, and change over time.

In order to ensure sustainable development, it has become imperative to recognize the importance of the two sexes (male and female) as complementary biological entities and moreover, to respect full equity and equality of each of the two genders, i.e., of the social roles that men and women assume in their lives. Gender equality means that the different behavior, aspirations and needs of women and men are considered, valued and favored equally. Finally he concluded with a saying that, the Gender rights must become an integral part of basic human and cultural rights
