

DEPARTMENT ELECTRICAL AND ELECTRONICS ENGINEERING

**An Expert Lecture on “Testing and Commissioning of EHV Power Transformers”
under
IEEE student chapter
on
28th February, 2019**

IEEE Student Chapter of SVEC has organized an Expert Lecture on “Testing and Commissioning of EHV Power Transformers” on 28th February, 2019. The objective of this expert lecture is to make the students and faculty familiarize with the Testing and Maintenance of power transformers and practical exposure on connection of power transformers.

HoD, Welcoming the Resource person

An Expert Lecture session in Dasari Auditorium

Er. T. Udhaya Kumar, Asst. Divisional Engineer/EHT - Protection/APTRANSCO, has discussed about the introduction about the Power Transformers and its constructional details available in Substations. He also explained about the various Testing procedures to be followed for erecting a new Power Transformer in a substation. He stressed on the practical commissioning work of power transformers in the substation field. The event was scheduled on 28th February, 2019 in Dasari Auditorium from 10:30AM to 01:00PM about 240 students of II B.Tech – EEE have been benefited from the event.
