A Six week Entrepreneurship and Skill Development Programme on **"Solar/Non-Conventional Energy Equipment Installation/Maintenance"** was organized by Entrepreneurship Development Cell of Sree Vidyanikethan Engineering College, sponsored by **"National Institute for Micro, Small and Medium Enterprises (NI-MSME) – Hyderabad"** from 17.02.2020 to 28.03.2020.

In the first week of the programme, students were taught with the help of few case studies related to Entrepreneurship, i.e., introduction, features of entrepreneurship, characteristics of entrepreneur, opportunities and challenges in entrepreneurship, etc.

During the second week few activities were given to the students to make them learn, how to coordinate with team members, solving the simple business problems, preparing the business plan. Students were participated with enthusiasm and enlightened with these tasks. The speakers also focused on the importance of Intellectual Property Rights and Design Thinking in the field of entrepreneurship.

After the orientation on entrepreneurship for two weeks, the speakers were given the basics of Non-Conventional Energy to the students. The topics covered during remaining weeks are: Basics of Renewable Energy Resources and Power Generation, Solar Energy, Sun Paths & Collector Orientation, Capturing methods of Solar Energy, Applications of Solar Energy for Generating Heat and Electricity, Electric Power Generation through PV and Solar Thermal Technologies, Elements of Solar Power Infrastructures.

Also experts were organized class room training sessions, design exercises (Off Grid level), practical demonstrations for installation and maintenance of the equipment.

A total of 30 students were trained in installation and maintenance of Solar/Non-Conventional Energy Equipment through this programme. Students gained utmost information through this programme and they gave very positive feedback about this skill development programme.
