DEPARTMENT OF COMPUTER SCIENCE AND SYSTEMS ENGINEERING

PROGRAM SPECIFIC OUTCOMES

On successful completion of the Program, the graduates of B.Tech(CSSE) program will be able to:

PSO1: Use modern tools and platforms, design and apply novel algorithms, develop System and Application software in diverse domains through programming skills

PSO1: Simulate and Model, program and test smart and intelligent systems using the concepts of Systems Engineering

PSO3: Design and deploy systems through networking, apply skills to secure and manage complex networks by using emerging technologies.
