

• **Technical Talks organized by Research Advisory Committee:**

Sl.No.	Faculty Name	Research Topic	Date of presentation
2019-20			
1	Dr.G.S.Mahesh	Energy Management with Bidirectional converter in DC Micro. Grids.	22.11.2019
2	Dr.D.Suresh babu	Big data Analytics in Power System	07.09.2019
3	Mr. B. Hemanth kumar reddy	Pulse Width Modulation Technique For MLIs	30.8.2019
2018-19			
4	Dr. I. Kumara Swamy	Enhancement of voltage stability with large distributed generation	18.04.2019
5	Dr. G.Hari krishnan	Electricity in human body	13.03.2019
6	Mr. U. Kamal kumar	IOT applications to power systems	18.01.2019
7	Dr.NMG.Kumar	Smart meter, Cyber challenges and issues	07.01.2019
8	Mr. GS. Arun kumar	A hybrid multi-level inverter with reduce number of switching devices and SITO DC.DC converter for solar PV energy systems	07.12.2018
9	Dr. K. tarakanath	Experimental investigations of model based controllers foe energy storage systems	15.11.2018
10	Mr.CH. Kumar reddy	Investigations of various hybrid active filters in improvement of power quality under high harmonic polluted loading conditions	19.07.2018
2017-18			
11	Dr. S. Krishnam Raju	Research Scopes for Electrical Engineering	16.08.2017
2016-17			
12	Mr. D. Suresh Babu	Performance Index based Contingency Ranking under Line Outage condition incorporating IPFC	04 04.2016
13	Mr. U. Kamal Kumar	Intelligent Technique based Fault Analysis and Location in a	12.04.2016

		Distribution System
