

Department of Electronics and Communication Engineering

Association of Communication Majors and Enthusiasts
(ACME)

(ECE Student Technical Association)

Annual Report :: 2019-20

The student technical association of Department of ECE, ACME (Association of Communication Majors and Enthusiasts) holds the responsibility in inculcating values and skills among the students by conducting various technical and non technical events. This year, an overall of 15 events were conducted in three phases. A total of 977 students were participated and 62 students bagged prizes.

All the three phases helped to inculcate Communications skills and Team Leadership Skills among the students. In turn it helped organizers in improving their organizing skills. These events are conducted every year as a regular practice.

This year, an Add-on Course on “Software Implementation of Lightweight Block Ciphers” was conducted. The Program was conducted to impart patience listening skills among the students. This also helped students to know and understand the significance and scope of research in the field of Network security.

ACME helps students to strengthen their mental as well as physical capabilities. Keeping this motto in View, ACME Cricket cup for boys and Kho-Kho tournament for girls were conducted. These events gained a good response from students.

Another important body to inculcate the attitude of helping the helpless under social initiative is Young Caliber. As a part of this yearly many students of ECE are donating blood to the patients in government hospitals who are in urgency for the blood. This year also, 10 of our students had donated blood. Even, Few utensils and Rice bags were donated to an orphanage – Mathrusya where the abandoned kids are taken care.
