

10th April 2020

Intellectual Association of Civil Engineers (IACE)

Annual Report: 2019-20

Intellectual Association of Civil Engineers (IACE) was started in the year 2011, a platform where the students are given opportunity to test their knowledge, skills and creativity through various co-curricular and extra-curricular activities. IACE aims at improving the interpersonal skills of students such as the ability to present themselves, their ideas, creativity, leadership, ability to work in a group with sportsmanship and being assertive. Various events were conducted under IACE in the academic year 2019-20 and many students actively participated with great zeal and enthusiasm. All the events were successfully completed without any disturbance and it was made possible by the contribution of the students, faculty members of the department and support of the management.

The list of activities conducted by IACE during 2019-20 is as follows:

Sl. No.	Name of the Event	Date of Event	No. of Participants
1	Dumb Charades	30-08-2019	55
2	Technical Marketing	24-09-2019	17
3	Just a Minute	28-12-2019	35
4	Thematic Apperception Test	04-03-2020	52
5	Town Planning	06-03-2020	24

The event 'Dumb Charades' was conducted as an ice breaker session and it helped in enabling the students express their ideas through body language. In the event 'Technical Marketing' students were formed into groups and were given random products on which they need to market in the form of advertisement. The event was helpful in improving the attitude of the student to work in teams and improve their creativity skills. The event 'Just a Minute' helped in improving the students' communication skills, their ability to think off the feat, idea generation, prioritization, sequencing of ideas and their capacity to connect with the panel. In the event 'Thematic Apperception Test', pictures with ambiguous scenes were screened to the students. Students were analyzed based on how the students interpret the images and bring their perception on the images and thus the event was useful in improving the analyzing skill of the students. In the event 'Town

Planning', students were allowed to plan the structure of a town which includes the mandatory infrastructures, basic amenities and recreational facilities. Students actively participated in the event expressed their design skills and communication skills. Overall, IACE helped in making the students to expand their comfort zone and explore the connecting dots of excellence to become professionally ready for the outside world.

The photographs of various events conducted by IACE are as follows:
