

A One-Day Webinar on "Data Visualization using Power BI"

The Department of Master of Computer Applications organized a webinar on "**Data Visualization using Power BI**" on 12th June 2020. The target group was MCA students.

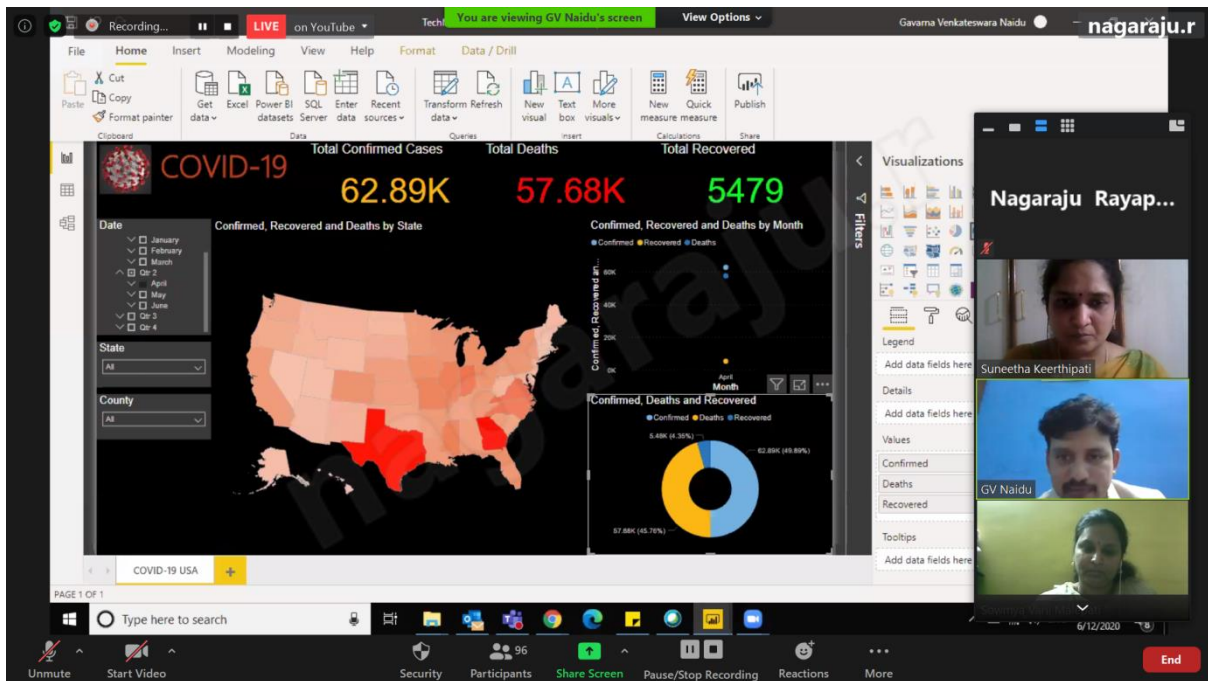

The Resource Person was **Mr. G. Venkateswara Naidu**, Project Manager IT, COE, Solution architect & Data Analytics in Tech Mahindra, Bengaluru. The resource person discussed about the importance of data visualization, how to visualize the data effectively and different types of data visualization charts like area charts, line charts, Funnel charts, Combo charts, KPIs and Maps using Power BI; market competitors in data visualization, why to use Power BI and visualization of data using power BI.

Mr. G. Venkateswara Naidu, delivering a talk on "Data Visualization using Power BI"

The resource person explained desktop and cloud-based interfaces of Power BI, the capabilities provided by Power BI in data warehousing, data discovery and interactive dashboards; the ability to load custom visualizations, easy accessibility across the entire organization. He had shown how to create reports, actionable dashboards by reducing the confusions in deciding the right type for the data.

More than 100 students participated in this webinar, gained knowledge on various data visualization charts and came to know how to build applications with Power BI. During the session, the students posed various questions and got their doubts clarified by the resource person.
