Seminar Guests with Dr.M.S.Sujatha, HOD, Department of EEE,Mr.A.Munisankar, Asst.Professor,IEEE chapter coordinator, Mr.D.Sreenivasulu Reddy, Asst.Professor program organizer.

Mr. K.Sharuk, Program Director, Security Analyst in AppQLabs Business Solutions Pvt.ltd. Hyderabad started welcome address, and explained the basics of Ethical Hacking.

The world we live in today seems to be very dynamic, Nothing on this planet left untouched from the epidemic of digitalization and it has changed everything about the things that we do in our daily life such as banking, shopping, travel, leisure etc. Advancements in technology has left a room for high vulnerabilities which opens a door for dark willed hackers to theft and make ease for cyber -attacks. To counter this issue we need highly trained, skilled and possess some good values unlike dark willed hackers designated as ethical hackers. This workshop is a small step towards building awareness about cyber threats and providing the rough draft about how to detect and prevent various security threats. to the students.

During the address **Mr.K.Sharuk** highlighted the importance of Ethical Hacking, advantages, limitations of it.

Mr. K.Sharuk, Program Director, Security Analyst delivering interacting to the students
