DEPARTMENT OF CIVIL ENGINEERING

**Six Day Workshops one on "Revit Architecture" during 23rd – 28th Dec, 2019
And another on "ETABS" during 29th Dec 2019 to 3rd Jan 2020**

The Department of Civil Engineering of Sree Vidyanikethan Engineering College has organized two Six Day Workshops one on "**Revit Architecture**" and another on "**ETABS**" in association with **Andhra Pradesh State Skill Development Corporation (APSSDC)** during **23rd – 28th December 2019** and **29th December 2019 to 3rd January 2020** respectively, at Civil Engineering CADD lab. The main objective of the workshop is to implement a structured and pragmatic solution to skill & up-skill the students of III B.Tech II Semester Civil Engineering Students of Sree Vidyanikethan Engineering College in Revit Architecture and ETABS softwares and to increase employability, promoting entrepreneurship in sync with Industrial growth. Six trainers **Ms. K. Swaroopa, Ms. B. Vani Priyanka, Ms. P.Saimahalakshmi, Ms. P. Iavanya, Ms. T. Rohini** and **Ms. M. Pravallika** who are professionally eminent in software were deputed by APSSDC for the two six day workshops.

The target is to skill registered **127 students of III B.Tech Civil Engineering** by meeting skilled human power demands of Industries and shape them as a skilled-workforce. **Dr. O. Eswara Reddy, Professor and Head**, Dept. of Civil Engineering and Convenor of workshop, **Mr. M. P. Charan Sai, Assistant Professor**, Department of Civil Engineering and Coordinator of the event graced the six day workshop. During the training sessions, trainers shared their rich knowledge and skills in the field of Revit Architecture and ETABS software with all the participants emphasizing on enhancing the skill-set of students. Trainers handled lot of practice sessions in various subdivisions of software and trained the students. In addition, trainers interacted with the students during both training and practice sessions clarifying different queries of students.

On the whole, both the workshops were proved successful and they were very informative. These workshops are the way of enriching our students with the latest developments in civil engineering by an eminent trainers within and beyond curriculum. The students will be

enriched with knowledge in latest version of Revit Architecture and ETABS software. Further, students will have an expose to various industrial software demands such that they can enhance their skills to meet such industrial requirements and get better placements.

The photographs of the session of the program are as follows.
