Department of Electronics and Instrumentation Engineering

Action Taken Report on minutes/ resolutions of
12th BOS meeting

1. Course Structure for I B.Tech (I & II Semesters) of Electronics and Instrumentation Engineering under SVEC-20 Curriculum.

Resolution: The following suggestions were given by the members to prepare and implement the curriculum from the academic year 2019-20.

1. The External members have suggested to consider Digital Logic Design(DLD) as a course under program core rather than Engineering science .
2. Any other Engineering science course may be adopted in place of DLD. As DLD is a core course for EIE students, it needn't be offered in first year. Further, they suggested moving this course to second year.
3. DLD may be replaced with a course titled Basic Electrical and Electronics Engineering as in SVEC-19 regulations.
4. Dr. S. Mourougapragash, Associate Professor, Pondicherry Engineering College, suggested to introduce a course on Python programming in the curriculum to meet industrial needs, for the benefit of students regarding placements.
5. Dr. G. P. Ramesh suggested to frame course outcomes for each unit while framing the syllabus, so that, the faculty members will have an understanding to what level the course can be dealt with.

Action Taken:

As authorized, the Chairperson, BOS has adapted the following improvements suggested by External members on the course structure.

1. A course titled Basic Electrical and Electronics Engineering was adopted in place of Digital Logic Design(DLD) under Engineering sciences category.
2. While preparing the syllabus, the course outcomes were framed based on the knowledge areas almost for each unit separately.

2. Any other item

Meeting concluded with thanks to the Chair.
