AICTE Sponsored International Conference on

# **"Smart Computing and Control of Systems**"

17<sup>th</sup> – 19<sup>th</sup> October, 2019

Organized by **Department of Electrical and Electronics Engineering** Sree Vidyanikethan Engineering College, Tirupati

# **College Profile:**

Sree Vidyanikethan Engineering College, Tirupati was established in 1996 by Sree Vidyanikethan Educational Trust under the stewardship of Dr. M. Mohan Babu, renowned film artiste, Padmashri Awardee and former Member of Parliament (Rajya Sabha). The college is approved by AICTE, New Delhi and affiliated to Jawaharlal Nehru Technological University, Anantapuramu, Andhra Pradesh, India. The college is conferred 'Autonomy' by UGC, New Delhi. The college also bestowed with the title 'Colleges with potential for Excellence' by UGC, New Delhi under XII Plan period UGC-CPE scheme. The college was accredited with "A" grade by NAAC. The college received PLATINUM category in AICTE-CII Survey 2018. In NIRF Ranking-2019 Sree Vidyanikethan stands in 167th position among all Engineering Colleges at national level and topped among all private engineering colleges in Andhra Pradesh. The college offers B.Tech. Program in 8 disciplines, M.Tech. Program in 8 specializations, Ph.D programs in 3 disciplines and MCA. Out of the programs offered, 6 B.Tech and 4 M.Tech. programs were accredited by National Board of Accreditation (NBA, New Delhi). The college was selected for participation in TEQIP-II under Sub Component1.1: Strengthening Institution to improve learning outcomes and employability of graduates with a grant of Rs.4 Crores. As one of the best performing Institutions under TEQIP-II, an additional fund of Rs. 2 Crores was sanctioned. The college has MoUs with 30 Industries/Institutions that includes IITH Hyderabad, IITM Chennai, CII Hyderabad, ISB Hyderabad etc.

# Location:

The college is located 15 km from the temple town of Tirupati on Tirupati- Madanapalle National Highway 205. https://goo.gl/maps/SxeqCCprSUMpkTME7

# About the Department of EEE:

The Department of EEE was established in the year 1996 offering B.Tech. (EEE) with a modest intake of 60. The intake at present is 240 besides an additional 20% under lateral entry scheme. The Department is offering Two M.Tech.programs"Electrical Power Systems (EPS)" started in the year 2004 with an intake of 18 and is increased to 36 from the year 2014 and "Power Electronics and Drives (PED)" started in 2017 with an intake of 18. Both the B.Tech. (EEE) and M.Tech. (EPS) programs were accredited by NBA. The department also offers Ph.D. under its Research Center recognized by the affiliating University JNTUA, Anantapuramu. The Department has well qualified faculty which includes 13 Ph.D. degree holders.

The Department houses well equipped laboratories and a Research Center "Center for Energy".

## Vision:

To become the Nation's premiere Centre of excellence in electrical engineering through teaching, training, research and innovation to create competent engineering professionals with values and ethics.

# **Mission:**

- Department of Electrical Engineering strives to create human resources in Electrical Engineering to contribute to the nation development and improve the quality of life.
- Imparting Knowledge through implementing modern curriculum, academic flexibility and learner centric teaching methods in Electrical Engineering.
- Inspiring students for aptitude to research and innovation by exposing them to industry and societal needs to create solutions for contemporary problems.
- Honing technical and soft skills for enhanced learning outcomes and employability of students with diverse background through comprehensive training methodologies.
- Inculcate values and ethics among students for a holistic engineering professional practice.

# About the Conference:

This conference aims to provide an exceptional interdisciplinary platform for academicians, researchers, industry participants, practitioners and budding engineers to disseminate the most recent innovations, trends, concerns along with the present-day challenges and the solving approaches for implementation in the domain of Smart Computing and Control of Systems.

Original technical papers are invited in the areas, but not limited to:

- Power System Operation and Control
- Power System Deregulation
- HVDC & FACTS
- Smart Grid Technology
- Power Electronics and Industrial Drives
- Renewable Energy Sources
- Electric Vehicles
- Control System and Automation
- Instrumentation
- Signal and Image Processing
- Antennas and Communication Networks
- Embedded Systems
- VLSI Circuits and Systems
- Big Data Analytics
- Cyber Security System
- Cloud & Mobile Computing
- Ubiquitous Computing
- Machine Learning
- Swarm and Evolutionary Algorithms
- Internet of Everything
- Human Machine Interface Security

# **Guidelines for Authors:**

- Authors are requested to submit their full paper in word document.
- Manuscript should be submitted in the prescribed format only.

# A THREE DAY AICTE SPONSORED INTERNATIONAL CONFERENCE ON "SMART COMPUTING AND CONTROL OF SYSTEMS (ICSCCS-2019)"

The conference was held from 17<sup>th</sup> to 19<sup>th</sup> October 2019. It brought together a wide range of researchers, academicians, and research scholars working on the subject title.

It served as the multi-disciplinary platform for exchanging innovative ideas and thoughts on the Smart Computing & Control of Systems and their applications to the society. This scientific meeting had 5 International & 5 National Keynote sessions and in the scheduled sessions 82 Research papers were presented.

### Session 1: Inauguration and Keynote address by Dr. R. Nagaraja, MD PRDC, Bangalore.

President of International Conference, Mr. Vishnu Manchu, Revered CEO, SVET; Chief Guest, Dr. R. Nagaraja, Founder and MD, PRDC (Power Research and Development Consultants Pvt. Ltd.), Bengaluru; Guests of Honor, Prof. L. Venugopal Reddy, Advisor cum Director, SVET & Dr. Lazar Mathew, Research Advisor, SVET; Convener, Prof. M. S. Sujatha, HoD, Dept. of EEE inaugurated the conference.

# Session 3: Invited Talk-6: "Power Quality Case Studies" - Mr. M. Srinivas, Chief Technical Officer, Harmonizer, Bangalore.

Mr. M. Srinivas presented the Power Quality issues raised from various industries and possible solutions to address the concerned issues. Mr. Srinivas addressed the seriousness of low power factor and also spoke on various penalties levied on the industry for not maintaining the desired power factor.

Mr. M. Srinivas delivering a talk on "Power Quality Case Studies"

# Session 4: Invited Talk-7: "Horse power to Horsepower" - Dr. V. Ganesan, Emeritus Professor, IIT Madras, Chennai.

Dr. V. Ganesan, Research advisor, Dept. of Mechanical Engineering, SVEC delivered a talk on "Horse power to Horsepower". He explained the process of mobility from 1970's to till date and urged the importance of converting the present mechanical vehicles to Electric vehicles.

Dr. V. Ganeshan delivering a talk on "Horse power to Horsepower"

### Session 1: Invited Talk-8: "Power Control Techniques for Non-Contact Heating Systems" - Dr. D. Vijay Bhaskar, IIT Dhanbad

Dr. D. Vijay Bhaskar explored the importance of "Power Control Techniques for Non-Contact Heating Systems", and explained a variety of advanced techniques which are being used for heating purposes in various industries.

Dr. D. Vijay Bhaskar delivering a talk on "Power Control Techniques for Non-Contact Heating Systems"

# Session 2: Invited Talk-9: "Artificial Intelligence Techniques and its Applications" - Dr. P. Viswanath, IIIT Sri City

Dr. P. Viswanath gave a lecture on "Artificial Intelligent Techniques and its Applications to Power Systems". He explained about fuzzy logic and neural network based artificial intelligent systems applied to power systems.

Dr. P. Viswanath delivering a talk on "Artificial Intelligence Techniques and its Applications"

### Siee Salilaul Nayar, Tirupau - Si

### **Technical Sessions: Paper Presentations**

In the technical sessions, authors presented their research contributions in four parallel sessions.

Technical Session-VI: Chaired by Dr. D. Vijay Bhaskar, IIT Dhanbad and co-chaired by Dr. T. Nagaswara Prasad, Professor, EEE, SVEC and Dr. S. Suresh Babu, Associate Professor of EEE, SVEC.

Technical Session-VII: Chaired by Dr. P. Viswanath, IIIT, Sri city and co-chaired by Dr. J. Avanija, Associate Professor, ECE, SVEC.

Technical Session-VIII: Chaired by Dr. M. Humera Khanam, SVU, Tirupati and co-chaired by Dr. M. S. Sujatha, Professor, EEE, SVEC.

Technical Session-IX: Chaired by Dr. I. Kullayamma, Assistant Professor, SVU, Tirupati and cochaired by Dr. V. R. Anitha, Professor, ECE, SVEC.

7 Research Papers were presented through Skype.

# Session 4: Invited Talk-10: "Smart Grid and Micro Grid Technologies and its applications" - Dr. S. Albert Alexander, Kongu Engineering College, Erode, Chennai.

Dr. S. Albert Alexander presented his research topic "Smart Grid and Micro Grid Technologies and its applications". He explained the need for Smart Grid in the present scenario and research avenues in Smart Grid and Micro Grid.

# **One week FDP on**

# SVEC "Scientific Computing Through MATLAB"

Department of Electrical and Electronics Engineering & Department of Electronics and Instrumentation Engineering organized a One week FDP on **"Scientific Computing Through MATLAB**" under IEEE Student Branch and ISTE Student Chapter from 2<sup>nd</sup> to 6<sup>th</sup> December 2019.

The main objective of the workshop is to Introduce Machine Learning, Deep Learning, Computer Vision, Audio Signal Processing toolbox, DSP Toolbox, Live script in MATLAB, Embedded Coder, MATLAB Coder, SIMULINK Coder, and Fixed-Point Designer in MATLAB. Recourse person also explained about audio processing systems and algorithms with real-time applications.

A total of 60 faculty members were benefited by attending this workshop.

The Outcomes of the program:

- 1. Read and write images using MATLAB.
- 2. Pre-process image data and analyze them for extracting image features.
- 3. Utilize image features and information for different applications such as classification.
- 4. Apply machine learning and deep learning concepts to solve problems in different domains.
- 5. Acquired knowledge on how to use Audio Signal Processing toolbox, DSP Toolbox and different coders in MATLAB.
- 6. Beneficiaries can able design simple real-time audio systems using basic algorithms.

# A Faculty Development Program on "Research Paper & Project Proposal Writing"

Under IEEE Student Branch (15<sup>th</sup> to 16<sup>th</sup> May 2020)

#### ABOUT FDP:

The Two day FDP on Research Paper and Project Proposal Writing is well structured, focused and result oriented. Research paper/proposal writing and publishing are complex and perennial processes. The Research paper/proposal has to meet the requirements of publishing or granting authority. The FDP focuses on different aspects of writing effective research papers and project proposals. The modules in the FDP are designed to guide researchers across disciplines to enhance their skills in planning, writing, and getting their research articles published in reputed journals and also getting funding from the agencies.

#### SCHEDULE:

Date & Time	Торіс								
15.05.2020 10:00 AM to 11:30 AM	The Art of Writing a Sci- entific Article and its' Nu- ances-Part 1								
15.05.2020 2:00 PM to 3:30PM	The Art of Writing a Sci- entific Article and its' Nu- ances-Part 2								
16.05.2020 10:00 AM to 11:30 AM	Foundations of Research Proposals Writing and Identifying Sources of Funding								
16.05.2020     Sharing Experience:       2:00 PM to 3:30 PM     Writing a Winning Grant Proposal, Tips, and Other Metrics

#### SPEAKER: DR.C.BHARATIRAJA

#### Dr.C.Bharatiraja

- He completed his 1<sup>st</sup> Postdoctoral Fellowship through National Research Foundation Funding at Centre for Energy and Electric Power, Faculty of Engineering and the Built Environment, Tshwane University of Technology, South Africa in 2016.
- He was the award recipient of DST, Indo-U.SBhaskara Advanced Solar Energy in 2017 and through he completed his 2<sup>nd</sup> Postdoctoral Fellowship at Department of Electrical and Computer Engineering, North-eastern University, USA.
- He is a Visiting Researcher at University of South Africa. He is also an Award recipient of Young Scientists Fellowship, Tamil Nadu State Council for Science and Technology in 2018.
- He successfully executed six funding projects awarded by various government and private agencies. Currently he is working with two DST funded Projects worth Rs. 67 Lakhs.
- He singed MoU with WallVisionBV, Netherland Company to Develop of Zigzag Solar for Indian operations.
- He is a senior Member IEEE, IEI, and IET.
- He has authored more than 80 papers, which are published in international journal including various IEEE transactions.

He is currently working as an Associate Professor at Department of Electrical and Electronics Engineering, SRM Institute of Science and Technology, Kattankulathur Campus, Chennai, India.

#### **Research Paper and Project Proposal Writing** Under IEEE Student Branch (15.05.2020 & 16.05.2020)

#### **REPORT**

A Faculty Development Program on "Research Paper & Project Proposal Writing" Under IEEE Student Branch was conducted during 15<sup>th</sup> and 16<sup>th</sup> May 2020. This FDP was organized by the Department of Electrical and Electronics Engineering, Sree Vidyanikethan Engineering College Tirupati

The key note Speaker of the program is **Dr.C.Bharatiraja** from SRM University Chennai. I dedicate my gratitude towards the speaker for his excellent series of online lectures on Research Paper & Project Proposal Writing in this pandemic crisis period. More than 1000 members have attended from almost all the states of India.

The FDP focused on different aspects of writing effective research papers and project proposals. The modules in the FDP are designed to guide researchers across disciplines to enhance the skills in planning, writing, and getting the research articles published in reputed journals and also, process for getting funds from the agencies.

In the first and second sessions, the speaker discussed Art of Writing a Scientific Article and its' Nuances. In the third session he explained on foundations of Research Proposals Writing and Identifying Sources of Funding. In the last session, he shared his experiences: Writing a Winning Grant Proposal, Tips, and Other Metrics.

The speaker gave wonderful lecture and received huge response from the audience. All the sessions were very informative and impressive.

Speaker of the program Dr.C.Bharatiraja addressing the gathering

#### Introduction:

The Python program is a scripting language that can be used for development, coding websites and applications, processing images, scientific data, and more. The program can be found in action on the Google search engine, NASA, Disney, Pinterest, and more. It was built for ease of use and speed and is less complicated than Ruby and other similar object-oriented programming languages. Because it is open-sourced, the program has enjoyed popularity among developers and programmers, and it continues to be the base program for most websites in operation on the internet today.

#### **Course Objectives:**

The course is designed to provide Basic knowledge of Python. Python programming is intended for software engineers, system analysts, program managers and user support personnel who wish to learn the Python programming language.

Outcome: Problem-solving and programming capability

#### Hardware Requirements:

- i3 or above Processor is required
- 4 GB or above RAM is recommended
- Good Internet Connectivity
- OS-Windows 10 is Preferable

## Day wise Schedule:

Day	Contents			
	Welcome address by Dr. M. S. Sujatha, HOD-EEE			
Day-1 (29.06.20)	Vote of thanks by Dr G Hari Krishnan, Associate Professor			
(29.00.20)	Python Introduction, Literate Programming, Jupyter Notebook Environment, Markdown format for documentation and Python basics.			
Day-2 (30.06.20)	Keywords in Python,Operators in Python, Conditional Statements, Iterations, Jump Statements(Break,Continue with examples), continue(with example) and Functions			
Day-3 (01.07.20)	Arguements in Functions, Strings and String Functions, String Slicing			
Day-4 (02.07.20)	Python Data Structures Lists List Methods and Tuples			
Day-5 (03.07.20)	Tuple Methods, Dictionaries and Dictionary Methods			
Day-6 (04.07.20)	Sets,Set Methods, Packages and Modules, Regular Expression and File Handling			
Day-7 (06.07.20)	List Comprehension, Iterators, Generators and Functional Programming:			
Day-8 (07.07.20)	Maps,Filters,Lambda, Object-Oriented Programming			
Day-9 (08.07.20)	Classes, Objects, Constructors, inheritence, Python Packages and modules using oon's			
Day-10 (09.07.20)	Python Libraries for Data Science, NumPy,Nd arrays, Advantages of NumPy			
Day-11 (10.07.20)	Pandas, Data Structures in Pandas, Pandas Series and Data Frames			
	Data Visualisation using Matplotlib library			
Day-12	Online Assignment			
(10.07.20)	Valedictory speech by Dr. M. S. Sujatha, HOD-EEE			
	Vote of thanks by Dr G Hari Krishnan, Associate Professor

#### "Vehicle Safety - Webinar" Under ISTE Student Branch On 29-06-2020

#### <u>REPORT</u>

A Webinar on "**Vehicle Safety**" was organized under ISTE student chapter by Department of Electrical and Electronics Engineering, Sree Vidyanikethan Engineering College for the faculty and students of Electrical and Electronics Engineering.

The Speaker of the session was **Mr. Kaushik Narayanan**, Senior Software Engineering, Robert Bosch Engineering and Business Solutions Pvt. Ltd, Germany. I dedicate my gratitude towards the speaker for creating such a platform in this COVID pandemic period.

The webinar by Mr. C. Kaushik Narayanan had created awareness on "vehicular safety" which is an essential thing every student should be conscious about. The session was informative and had created awareness on modern safety techniques. The speaker's projection of new technologies in automobiles made the session much interesting and attracted the participants' attention. It's a crucial thing for every person to know about the vehicular safety to prevent themselves from accidents and rash driving. An introduction towards the modern safety measures like ABS (Anti braking system) and ESP (Electronic stability program) in the advanced cars like Benz, Toyota etc., was also shared this in session. Getting aware of such technologies is very essential to the young generation to sustain the safety measures. It was great opportunity to get aware of modern vehicular safety methods, which prevents the life threat for the participants. One hundred and eighty eight members of Faculty and Students got immensely benefited from his session.

The speakers gave wonderful lecture and received huge response from the audience. It was a great initiative towards the next generation for getting aware about the modern safety trends adopted in the vehicles. Overall, the session was very interesting, informative and impressive.

#### **COLLEGE PROFILE:**

Sree Vidyanikethan Engineering College (Autonomous) was established in the year 1996 by Sree Vidyanikethan Educational Trust under the stewardship of Dr. M. Mohan Babu, renowned Film Artiste and Former Member of Parliament (Rajya Sabha). The College was established in the backward region of Rayalaseema to serve the cause of technical education with an initial intake of 180. The intake has been increased exponentially to 2112 in 2019-20. The College now offers 8 B.Tech programs; 8 M.Tech programs; MCA Program; and 3 Doctoral Programs. AICTE has also accorded permission for 2<sup>nd</sup> Shift Polytechnic from the academic year 2009-10 and presently 5 Diploma courses are being offered. Today, Sree Vidyanikethan Engineering College is one of the largest, most admired and sought after institutions in Andhra Pradesh. The College is approved by AICTE and affiliated to JNTUA, Ananthapuramu. The College has been accorded Autonomous Status by the UGC, New Delhi in 2010-11 which was extended for six years (from 2016-17 to 2021-22). The College is known for its quality initiatives which are amply reflected in accreditations by National Board of Accreditation (NBA) for UG & PG programs, National Assessment and Accreditation Council (NAAC) with 'A' Grade as one of the best performing institutions in India. The College has successfully implemented TEQIP-II under Sub -component 1.1: Strengthening Institutions to improve Learning Outcomes and Employability of Graduates, funded by the Ministry of HRD, Govt. of India. The College has been accorded "UGC-Colleges with Potential for Excellence" status under CPE Scheme by UGC, New Delhi. It also has been accorded 'PLATINUM' category by CII-AICTE Survey; and was conferred with 'A' Grade by Department of Higher Education, Andhra Pradesh. The college participated in National Institution Ranking Frame Work (NIRF), 2019 and awarded the rank of 167. SIEMENS and APSSDC has established 6 State-of-the art laboratories.

# **College Profile:**

Sree Vidyanikethan Engineering College, Tirupati was established in 1996 by Sree Vidyanikethan Educational Trust under the stewardship of Dr. M. Mohan Babu, renowned film artiste, Padmashri Awardee and former Member of Parliament (Rajya Sabha), approved by AICTE, New Delhi and affiliated to Jawaharlal Nehru Technological University, Anantapuramu. The college conferred 'Autonomy' by UGC, New Delhi. 6 UG and 4 PG Programs are accredited by National Board of Accreditation (NBA, New Delhi). Awarded 'Colleges with potential for Excellence' by UGC, New Delhi under XII Plan period UGC-CPE scheme. The college is accredited with "A" grade by NAAC. The college offers B.Tech Program in 8 disciplines, M. Tech Program in 7 specializations and MCA, and, Ph.D programs in 3 disciplines. The college was selected for participation in TEQIP-II under Sub Component1.1: Strengthening Institution to improve learning outcomes and employability of graduates with a grant of Rs.4 Crores. An additional fund of Rs. 2 crores obtained as one of the best performing Institution. MoUs with 20 Industries/Institutions including IIT-Hyd, IITM-QEEE, CII-Hyd & ISB-Hyd.

# Location:

The college is located 15 km from the temple town of Tirupati on Tirupati- Madanapalle National Highway 205. https://goo.gl/maps/SxeqCCprSUMpkTME7

# **Places to Visit nearby:**

Tirupati is a pilgrim's paradise. Tucked near the southern end of Andhra Pradesh, the ancient city of Tirupati is a treasure trove of historical and religious architectures. Essentially a place of religious significance, the best places to visit in Tirupati offer treats galore for tourists with a keen interest in ancient Hindu temples and other places of worship. First up is the Tirumala Temple, which is a Tirupati temple that you would not want to miss. There are others as well. The list of Tirupati temple that you definitely want to cover during your trip would include Govindaraja Swami Temple, Tiruchanur, Srinivasa Mangapuram, Srikalahasti and Kanipakam. Tourists who are looking to visit the most sacred places in this old city shouldn't miss Srivari Mettu, Sri Padmavathi Ammavari Temple, Iskon, and Sri Kapileswaraswami Temple.

# Vision:

To become the Nation's premiere Centre of excellence in electrical engineering through teaching, training, research and innovation to create competent engineering professionals with values and ethics.

# About NMDC @ SVEC

MEMS Design Centre was inaugurated at Sree Vidyanikethan Engineering College, Tirupati on 30th March 2012 by Dr. V. Ramgopal Rao, IIT Bombay and Dr. S. Mohan, IISc Bangalore for the benefit of users from this region. Later the centre has been renamed as a National MEMS design Centre equipping with site licenses of software's programs such as COVENTOR MEMS+, Intellisuite and COMSOL (as a Class kit of 30 licenses) under National Program on Micro and Smart Systems (NPMASS). Centre motivates the research activity in the field of MEMS by proper utilization of the facilities provided by NPMASS from design to fabrication of prototype MEMS products and specific field applications.

MEMS are miniature devices that enable the operation of complex systems. They exist today in many environments, especially automotive, medical, consumer, industrial and aerospace. Their potential for future tunneling into a broad range of applications is real, supported by strong progressive activities at many companies and institutions. The technology consists of a large portfolio of design and fabrication processes, many borrowed from the integrated circuit industry. The development of MEMS is inherently interdisciplinary, necessitating an understanding of the fabrication methods and the end application.

# Author Guidelines:

- · Authors are requested to submit their full paper in word document.
- Manuscript should be limited to 6 pages in IEEE format.
- · All contributions must be original, should not have been published elsewhere or accepted for publication under review.
- Submitted manuscripts will be peer reviewed by external experts based on originality and significance.
- Registrations include Registration Kit, Working Lunch & Coupon for special colorful evening program.

# About the Conference

International Conference on MEMS, Nano and Smart Systems is a dedicated programme to bring together a significant number of diverse scholarly events for presentation within the conference program.

This International Conference on MEMS, Nano and Smart Systems aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of MEMS, Nano and Smart Systems. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of MEMS, Nano and Smart Systems. The emphasis is on current and future challenges in research and development in both academia and industry.

The conference will consist of plenary/invited talks by eminent researchers in the field.

Original technical papers are invited in the areas, but not limited to:

- Damping and Isolation
- Micro-fluidic Systems
- Devices

# INTERNATIONAL CONFERENCE ON APPLICATIONS OF MEMS, NANO AND SMART MATERIALS (ICMNSM - 2019)

MEMS is an interdisciplinary field engaged by almost all areas of science, engineering and technology. As a well-established field of academic research, MEMS is quickly becoming a mature technology with a wide array of marketable applications. MEMS attempt to exploit and expand the fabrication techniques developed for the IC industry to add micromechanical elements to the electrical circuits. These mechanical elements are imperative for the ICs for perception and control of the physical world. Micromechanical devices and systems are inherently smaller, lighter, with faster response, and in some cases more precise than their macroscopic counterparts.

The term MEMS is now expanded to include optical, magnetic, thermal, chemical and biological elements. MEMS can also integrate radiating energy micro-devices such as antennas. In a nutshell, using micromachining techniques, MEMS integrate some or all of these microstructures, depending on the desired functions, in order to convert physical stimuli, events, and parameters to electrical, mechanical and/or optical signals and vice versa. Various combinations of the mentioned electrical and mechanical components have been used as sensors for pressure, temperature, velocity, mass flow, display optical system and chemical composition, and also as singular components for complex systems such as the system-on-a-chip, robots, micro-heat-engines and micro-heat pumps.

International Conference on MEMS, Nano and Smart Materials (ICMNSM-2019) is a dedicated programme to bring together a significant number of diverse scholarly events for presentation within the conference program.

As the leading meeting in the field, the MEMS Conference attracts world Research leads in MEMS by offering a top quality technical program of the current state-of-the-art papers combined with networking opportunities. The MEMS Conference has evolved into a premier annual event in the MEMS area by replicating the rapid growth of the MEMS field and the commitment and success of its research community.

This Conference reflects from the rapid proliferation of the commitment and success of the Microsystems research community. It provides ample opportunity for interaction between attendees, presenters and exhibitors

# **Keynote Address**

Special Guest Dr.T.Lazer Mathew delivering Key Note Address

Special Guests Dr.T.Lazer Mathew presented his keynote address. He started with the basic introduction to MEMS and Nano technology. He emphasised the significance of nanotechnology by describing its size, distribution and father of the technology. "The miniaturization support of the technology converted Desktop computation to an implantable devices", he stressed. "Nanotechnology is playing an important role in Current technologies in medical devices", he added. In India, the technology has been in use in auyur vedic medicine since a long back. He explained the ongoing research in DRDO regarding the projects and the products developed, the operation of micro needle that had been converted Project as product. He highlighted the quote, "Mind to Market" and encouraged the young researchers to convert the idea to useful product.

Felicitation to Key Note Speaker Dr.T.Lazar Mathew

As a token of honour, Advisor of the conference, Dr. P. V. Ramana, Professor & HEAD of ECE, and Conference Chair, Dr. V. R. Anitha, Professor of ECE, felicitated the Special Guest.

Presentation by Chief Guest Dr. Vitawat Sittakul, Thailand

Vitawat Sittakul in his presentation took 5G for IOT as the title. Mobile communication has changed the way of life and helps the digital economy base – he started. He then explained why 5G and why 5G needs to be paid ten times as that of 4G. The utilization of 5G in Wide area coverage, its Hotspot high capacity, and application in Virtual reality, Machine to machine

communication and smart Grid are few points that he briefed. The address ended with felicitation of the chief guest as honour.

Felicitation to Chief Guest Dr. Vitawat Sittakul from Thailand

Cultural program – Performance of Ms.Divya

The International Conference has a custom of highlighting the culture of the hosting country. In this way, ICMNSM-2019 has staged the talents of young minds of Sree Vidyanikethan family.

SREE /IDYANIKETHAN

(AUTONOMOUS)

Sree Sainath Nagar, Tirupati - 517102

Mr.Abhinanadan Bhunia, Project Leader Facebook, USA

Lecture By Facebook resource person, Mr. Abhinanadan Bhunia explored two potential 2020 projects. One is sign language prediction and noise cancellation. The talk started with what is massive MIMO product overview. The effect of restructuring antenna array with 5° for better efficiency had been stressed.

Dr.P.Bhanu Prasad, Advisor MD Ingenierie, France during his Invited Talk

Dr.P.Bhanu Prasad during his Invited Talk Inspired the audience with his speech on virual reality and augumented reality. His projection of devices as products added one more feather to the crown of ICMNSM-2019. He introduced his fellow colleagues from France as real time examples.

Ms.Komala Raveendran, CEO & Founder, Crew Aarkay Solutions & Services (p) Ltd.

Ms.Komala Raveendran motivated the researchers with her life experience and explained the way how the Digital India and Digital health Care related with Augumented Reality. The session ended with falicitation to all the resource persons.

(AUTONOMOUS)

Sree Sainath Nagar, Tirupati - 517102

Felicitation to resource persons from France

Dr.T.N.V.K.V.Prasad, A.N.G.Ranga Agricultural University during his speech about Agri Nanotechnology

Dr.T.N.V.K.V.Prasad gave an introduction to the need for nanotechnology in agriculture. He explained the significance of the surface to volume ratio of nano materials that could be significantly used in agriculture to increase the yield.

He shared his research experience in the biological synthesis of Silver nano articles using Oak leaves. He added two cases, i) Applications of Nano scale Zinc Oxide to groundnut Case ii) Phloem transport of nanoscale CaO in groundnut through solution culture method.

Prof.O.M.Hussain, S V University, explaining the role of Nano technology in the field of Energy storage.

Under the title of "Nano structured carbonanceous transition metal oxide composites for high performance energy storage devices", Prof.O.M.Hussain delivered his research talk The details regarding supercapacitors, Binder TiO<sub>2</sub>, growth of CNTs & SiO<sub>2</sub> as nano rods are some of the doubts of the audience that he cleared. Prof.O.M.Hussain has been falicitated by the program organizers.

Invited Talk by Dr.J.B.V.Reddy, DST, New Delhi

SREE VIDYANIKETHAN ENGINEERING COLLEGE (AUTONOMOUS) AN Sree Sainath Nagar, Tirupati - 517102

Interaction of Dr.J.B.V.Reddy, with the participant

Dr.J.B.V.Reddy, has given an overview of basic funding details, project formulation. He advised to add end users and to have tie up with any inductries for the projects. He insisted to add the objectives in bullet form, to apply the projects for three years, to get quotations before adding the details and credentials of the investigators(s). He claimed to make 10 slides for 10 minutes for presentation. "The project may include priliminary simulation or modelling work published in journal or Conferences", he said. The speaker has been falicitated by the Principal-SVEC, Principal- SVDC, Vice-Principal-SVEC, HOD-ECE and Convener of the Conference.

Felicitation to Dr.J.B.V.Reddy, DST-SERB

Dr.V.Sudhakar, Scientist, DRDO, Bangalore during his speech about MEMS in Avionics

Dr.V.Sudhakar during his speech about MEMS in Avionics shared his knowledge on Aerospace platforms, Systems and sensors, the importance of oil quality, 3D MEMS sensors systems. He explained the heat gained by the air flow in the air craft, loss of aircraft and various sensors involved with their significances.

Prof. Nayak, Visiting Professor, CenSe, IISc Bangalore with his presentation about MEMS sensors

Dr,M.N.Nayak in his address started with MEMS sensors for aerospace and other applications. He narrated the challenges with the design of sensors for aerospace systems. He included the cautions and steps to undertake while testing, Qualification and Field trials on MEMS Pressure Transducers. He added the research issue involved in the area and invited all the inspiring researchers for utilizing the facility at IISC, Bangalore.

**Technical Presentations** 

# Valedictory

During Valediction of ICMNSM-2019, Prof.Nayak insisted the audience about the importance and significance of conducting such program. These types of event provide good contact with concern experts supporting for interaction. The researchers are advised to plan for designing the products.

Dr.V.Sudhakar in his valedictory speech, he insisted the interdisciplinery project and have interaction with other contributors. "The young researchers have to take away the technology from such event", he added. The fuction eneded with gratitude and National Anthem.

ADVANCES IN PRACTICAL RF ANTENNA DESIGN

## (25<sup>th</sup> – 30<sup>th</sup> November, 2019)

Organized by

E & ICT Academy, National Institute of Technology, Warangal

at

Sree Vidyanikethan Engineering College, Tirupati

(Sponsored by Ministry of Electronics and Information Technology (MeitY), GOI)

## **Preamble:**

"Electronics & ICT Academy" was set up at NIT Warangal with financial assistance from MeitY, Govt. of India (GoI). The jurisdiction of this academy is Telangana, Andhra Pradesh, Andaman and Nicobar Islands, Goa, Pondicherry and Karnataka states/UTs. This academy role. is to offer faculty development programmes in standardized courses and emerging areas of Electronics, Information Communication Technologies, Curriculum development for Industry, Training & Consultancy services for Industry; CEP for working professionals, Advice and support for technical incubation and entrepreneurial activities.

As part of this initiative, a Faculty Development Programme (FDP) on "Advances in Practical RF Antenna Design" is being conducted at Sree Vidyanikethan Engineering College, Tirupati for the Faculty members of engineering colleges, industries and research laboratories.

The proposed faculty development programme (FDP) is devoted to the fundamental theory, recent developments and research outcomes addressing the related theoretical and practical aspects in the usage of advanced tools and techniques for the Design of Practical RF antennas. FDP provides an exposure to new areas of research and development being carried out in universities abroad and rest of the world. FDP enhances the research competence of faculty in the areas of RF antennas by providing exposure to practical problems and solutions, through case studies and live projects.

## **Major Course Contents:**

- Radiation Mechanisms
- Antenna Fundamentals
- Antenna Parameters and Measurements
- HF, VHF, Wideband and Multiband Antennas Design
- Dual and Circularly Polarized Antenna Design
- Antenna Array Design
- Ultrawide band antennas
- Antenna Miniaturization Computational Electromagnetics (CEM)
- Antenna for Defense and Missile Applications
- Modelling and Simulation of Antennas

## **Faculty Conducting this Programme:**

The programme will be conducted by the faculty members from NIT Warangal. Academicians from **IITs/NITs/IIITs** in concerned field are invited to deliver lectures in the programme. Speakers from industries are also expecting to deliver lectures.

## **Eligibility:**

The programme is open to the faculty, Research Scholars of engineering colleges and other allied disciplines in India. Industry personnel working in the concerned/allied discipline can also attend.

## **Organized at:**

The programme will be coordinated and conducted by Department of ECE, Sree Vidyanikethan Engineering College, Tirupati, Andhrapradesh.

#### **Accommodation:**

No TA/DA will be paid to the participants. Accommodation is arranged for outstation participants on PAYMENT Basis, Working Lunch, Tea & Snacks would be provided during the training at SVEC campus.

## **Registration Fee Particulars:**

- Faculty/Research Scholars : Rs. 2,500/- Only
  - Industry participants : Rs. 7,500/- Only

Participants need to pay the Registration fee either in the form of Demand Draft (DD) or Online Transfer using the following details

DD Details	Online Transfer Details
Demand Draft infavor of "Electronics & ICT Academy NITW, NIT Warangal" payable at any bank in Warangal	Account Name: Electronics & ICT Academy NITW Account No.: 62423775910 Name : State Bank of India Branch: REC Warangal IFSC: SBIN0020149

## How to Apply:

A filled in form of application in the prescribed format duly signed and sponsored by appropriate authorities (along with DD/Online Transfer Receipt) should reach the coordinator by speed post. It is also mandatory to send scanned application form & DD/ Online Transfer receipt through email to <u>anithavr@ieee.org</u> as selection will be intimated only through mail.

#### **Selection Criteria:**

Selection will be done based on *first-cum-first-serve basis* and the confirmed candidates will be notified immediately. The maximum number of participants will be **50** (fifty). Additionally 10 participants from industry are allowed to participate. The list of selected participants will be sent to their personal *e-mail* IDs. In case a candidate is not selected, the demand draft will be sent back. A test will be conducted at the end of the course. Candidates will be issued satisfactory certificate on successful completion of the course. Reservations are followed for selecting candidates as per GOI norms.

## **Important Dates:**

Last date for submission of application: 12<sup>th</sup> November, 2019

Selection-list intimation/display before: 15<sup>th</sup> November, 2019

## Duration of Program: 25<sup>th</sup> to 30<sup>th</sup> November, 2019

## **About NIT Warangal:**

National Institute of Technology (formerly Regional Engineering College), Warangal is the first among 17 RECs setup as joint venture of the Government of India and the state government. Over the years the college has established itself as a premier Institution imparting technical education of a very high standard leading to the B.Tech degrees in various branches of engineering, M.Tech &Ph.D programs in various specializations.

## **About SVEC, Tirupati:**

Sree Vidyanikethan Engineering College, Tirupati was established in 1996 by Sree Vidyanikethan Educational Trust under the stewardship of Dr. M. Mohan Babu, renowned film artiste, Padmashri Awardee and former Member of Parliament (Rajya Sabha), approved by AICTE, New Delhi and affiliated to Jawaharlal Nehru Technological University, Anantapuramu. The college conferred 'Autonomy' by UGC, New Delhi. 6 UG and 4 PG Programs are accredited by National Board of Accreditation (NBA, New Delhi). Awarded 'Colleges with potential for Excellence' by UGC, New Delhi under XII Plan period UGC-cheme. The college is accredited with "A" grade by NAAC. The college offers B.Tech Program in 8 disciplines, M. Tech Program in 7 specializations and MCA, and Ph.D programs in 3 disciplines. The college was selected for participation in TEQIP-II under Sub Component1.1: Strengthening Institution to improve learning outcomes and employability of graduates with a grant of Rs.4 Crores. An additional fund of Rs. 2 crores obtained as one of the best performing Institution. MoUs with 20 Industries/Institutions.

SREE VIDYANIKETHAN ENGINEERING COLLEGE (AUTONOMOUS) Sree Sainath Nagar, Tirupati - 517102

Department: ECE | Date: 25<sup>th</sup> – 30<sup>th</sup> November, 2019

# ELECTRONICS & ICT ACADEMY ONE WEEK FACULTY DEVELOPMENT PROGRAM ON "ADVANCES IN PRACTICAL RF ANTENNA DESIGN"

"Electronics & ICT Academy" was set up at NIT Warangal with financial assistance from MeitY, Govt. of India (GoI). The jurisdiction of this academy is Telangana, Andhra Pradesh, Andaman and Nicobar Islands, Goa, Pondicherry and Karnataka states/UTs. This academy role is to offer faculty development programs in standardized courses and emerging areas of Electronics, Information Communication Technologies, Curriculum development for Industry, Training & Consultancy services for Industry; CEP for working professionals, Advice and support for technical incubation and entrepreneurial activities.

The proposed faculty development program (FDP) is devoted to the fundamental theory, recent developments and research outcomes addressing the related theoretical and practical aspects in the usage of advanced tools and techniques for the Design of Practical RF antennas.

## Day 1:

The day started with inauguration by Prof.J.Srihari Rao, Chief Guest, Dr.T.Lazar Mathew, Special Guest, Dr.P.C.Krishnamachary, Principal, SVEC, Dr.D.Vakula, Coordinator, E&ICT, Dr.I.Sudarsan Kumar, Director (Quality & Development), Dr.P.V.Ramana, Head, Department of ECE, SVEC, Dr.V.R.Anitha, Coordinator of the program, Department of ECE, SVEC were grace the occasion on 25<sup>th</sup> November 2019 at 10:00 AM.

Sree Sainath Nagar, Tirupati - 517102

Prof.J.Srihari Rao, Retired Professor, Department of Electronics and Communication Engineering, NIT Warangal discussed about the fundamentals of Antennas, Antenna parameters which are useful to analyze the designed antennas after fabrication. Professor elaborated about basics of antenna and its parameters in the afternoon session.

Prof.J.Srihari Rao, Retired Professor, Department of Electronics and Communication Engineering, NIT Warangal

Dr.D.Vakula, Associate Professor, Electronics and Communication Engineering, NIT Warangal, elaborated about the basic parameters of antennas after Inauguration.

Dr.D.Vakula, Associate Professor, Electronics and Communication Engineering, NIT Warangal

Sree Sainath Nagar, Tirupati - 517102

## Day 2 & Day 3:

Dr.V.Srinivasa Rao, Scientist – F, RCI, Hyderabad, explained the importance of Patch Antenna by comparing with basic antennas and how this antenna is having more advantages when compared with other types of antennas. Discussed about feeding techniques for different types of antennas and how it excites the antenna on 26<sup>th</sup> November 2019, Afternoon. Scientist also stressed on HF, and VHF antennas for broadband applications, and emphasized on dual and circularly polarized antennas on 27<sup>th</sup> November 2019, Afternoon session.

Dr.V.Srinivasa Rao, Scientist – F, RCI, Hyderabad

Mr.Sumit Pillai, Application Engineer, Silicon Microsystems, Altair, Bangalore provided the hands on experience by taking real time examples on Patch Antenna with probe feeding on 26<sup>th</sup> November 2019, Morning Session and Dipole & Horn Antenna on 27<sup>th</sup> November 2019 Morning Session by using FEKO simulation software.

Mr.Sumit Pillai, Application Engineer, Silicon Microsystems, Altair, Bangalore

Sree Sainath Nagar, Tirupati - 517102

# Day 4:

Mr.Sasi Kumar, Application Engineer, Entuple Technologies, Bangalore, provided Hands on training on High Frequency Simulation Software (HFSS) by taking different types of antennas on 28<sup>th</sup> November 2019.

Mr.Sasi Kumar, Application Engineer, Entuple Technologies, Bangalore

## Day 5

Dr.A.Prakasa Rao, Associate Professor, Department of Electronics and Communication Engineering, NIT Warangal, delivered a lecture on Optimization techniques for antennas and elaborated about Antennas beam forming on 29<sup>th</sup> November 2019 during morning session.

Dr.A.Prakasa Rao, Associate Professor, Department of Electronics and Communication Engineering, NIT Warangal

SREE VIDYANIKETHAN ENGINEERING COLLEGE (AUTONOMOUS) Sroo Sainath Nagar, Tirunati - 517102

Sree Sainath Nagar, Tirupati - 517102

Dr.Ch.Anil Kumar, Scientist, RCI, Hyderabad, discussed about Radomes and antenna measurements with his practical experience. Scientist shared practically different types of radome with their characteristics.

Dr.Ch.Anil Kumar, Scientist, RCI, Hyderabad

# Day 6

Prof.N.V.S.N.Sarma, Director, IIIT Trichy, delivered Antenna miniaturization techniques for various applications and how these miniaturized antennas are applicable particularly wideband, multiband, and UWB antennas on 30<sup>th</sup> November 2019 during morning session.

Prof.N.V.S.N.Sarma, Director, IIIT Trichy

Sree Sainath Nagar, Tirupati - 517102

Dr.M.Chakravarthy, Scientist - SG, DLRL, Hyderabad, discussed about practical problems while designing the antennas and during measurement. Scientist also specified the different antennas for defence systems on the same day during afternoon session.

Dr.M.Chakravarthy, Scientist – SG, DLRL, Hyderabad

Valedictory was organized immediately after the session which was graced by Dr.M.Chakravarthy, Chief Guest, Prof.N.V.S.N.Sarma, and Representative for E&ICT Coordinator, Dr.D.V.S.Bhagavanulu, Director, SVEC, Dr.P.V.Ramana, Head, Department of ECE, SVEC, Dr.V.R.Anitha, Program Coordinator for the program, Department of ECE, SVEC. Finally the program was concluded with thanks and National Anthem.

Valedictory of the Program Graced By Dignitaries

Sree Sainath Nagar, Tirupati - 517102

The participants of the program gained an exposure to new areas of research and development being carried out in universities abroad and rest of the world. It also enhances the research competence of faculty in the areas of RF antenna by providing exposure to practical problems and solutions, through case studies and live projects.

## **Objectives:**

To upgrade the knowledge of academicians, researchers and industry professionals in Pattern recognition, Video coding and Estimation theory.
To enhance designing skills in providing hearing aid devices and speech recognition systems.

•To enable the faculty members to introspect and learn research techniques that can help to meet the challenges of industry in the areas of Image and biomedical signal Processing.

The areas of Image and biomedical signal Processing.
To provide an opportunity to interact with experts from academia and industry people in the fields of speech and video processing.

•To give insights to update the Curriculum in the domains of signal, Image and video Processing.

## **Resource persons:**

The resource persons constitutes of Academicians from premier institutions like IITs, IIITs, NITs, experts from Industry and scientists from National Laboratories.

## Eligibility Criteria :

- Faculty from AICTE affiliated institutions
- Research scholars / students
- Industry Professionals

## **Registration Fees:**

The registration is free for all the participants from AICTE approved institutions. The number of participants is limited to 40 and the selection is based on first come - first serve basis

## Accommodation details:

Accommodation will be provided to the outstation participants subject to the availability. The reimbursement of travel expenses will be made as per AICTE guidelines.

## **College Profile**

Sree Vidyanikethan Engineering College (Autonomous) was established in 1996 by Sree Vidyanikethan Educational Trust under the stewardship of Dr. M. Mohan Babu, renowned Film Artiste and Former Member of Parliament (Rajya Sabha). The College was established in the backward region of Rayalaseema to serve the cause of technical education with an initial intake of 180. The intake has been increased exponentially to 2112 in 2019-20. The College now offers 8 B.Tech programs; 8 M.Tech programs; MCA Program; and 3 Doctoral Programs. AICTE has also accorded permission for 2nd Shiff Polytechnic from the academic year 2009-10 and presently 5 Diploma courses are being offered. Today, Sree Vidyanikethan Engineering College is one of the largest, most admired and sought after institutions in Andhra Pradesh. The College is approved by AICTE and affiliated to JNTUA, Ananthapuramu. The College has been accorded Autonomous Status by the UGC, New Delhi in 2010-11 which was extended for six years (from 2016-17 to 2021-22).

The College is known for its quality initiatives which are amply reflected in accreditations by National Board of Accreditation (NBA) for UG & PG programs, National Assessment and Accreditation Council (NAAC) with 'A' Grade as one of the best performing instituitions in India. The College has successfully implemented TEQIP-II under Sub-component 1.1: Strengthening Institutions to improve Learning Outcomes and Employability of Graduates, funded by the Ministry of HRD, Govt. of India. The College has been accorded "UGC-Colleges with Potential for Excellence" status under CPE Scheme by UGC, New Delhi. It also has been accorded 'PLATINUM' category by CII-AICTE Survey; and was conferred with 'A' Grade by Department of Higher Education, Andhra Pradesh. The college participated in National Institution Ranking Frame Work (NIRF), 2019 and awarded the rank of 167. SIEMENS and APSSDC has established 6 State-of-the art laboratories.

## **Courses Offered:**

The college offers B. Tech Programs in ECE, CSE, IT, EEE, EIE, CSSE, Civil, MECH. The college also offers M. Tech. in DECS, VLSI, CMS, CS, CNIS, SE, EPS, PED & MCA along with PhD programs in ECE, EEE & CS.

## **About Tirupati:**

Tirupati city is famous for Sri Venkateswara Swamy temple located about 15 kilometers North West of Tirupati in Tirumala hills at an elevation of 853 meters (2,799 ft). It is one of the most important pilgrimage centres in the World and the temple draws millions of pilgrims across the world. Also, the city is a major economic and educational hub in the southern region of the state.

## **About the Program**

Research and development in signal and image processing encompasses practice of algorithms and hardware implementation to convert signals such as speech, audio, images, video, telemetry, electrocardiograms, sensor data, or seismic data which are produced by artificial or natural means into a form useful for transmission, display, storage, interpretation, classification, segmentation, or diagnosis.

Current research in digital signal and Image processing includes robust and low complexity filter design, signal reconstruction, filter bank theory, wavelets and evaluation of performance metrics.

This program focuses on developing algorithms in Image, video and Biomedical signal Processing which includes Image-restoration, compression, quality evaluation; Video- compression, analysis, processing and medical imaging. It also aims at learning various tools necessary to acquire and process accurate information in the above mentioned fields.

## About the Department

The department of ECE was started in 1996, from the inception of the College. The Department has a team of highly motivated and dedicated faculty to the cause of academics and striving to do the best in the interest of the students.

The Department of Electronics and Communication Engineering offers an Undergraduate program in Electronics and Communication Engineering, three Postgraduate programs in DECS, VLSI, CMS specializations and Ph.D program. The Department has been recognized as research centre by JNTUA, Anantapuramu. The Department has full time Ph.D Scholars and JRFs. In addition, the department has Research Laboratories like National MEMS Design Centre, Antenna Research Lab and Nanoelectronics Lab. The Department is undertaking research projects from DST, AICTE, ISRO, INUP etc,.

## **Centre for Communication and Signal processing**

The Centre for Communication and Signal Processing promotes research culture and engage projects in domain independently or in collaboration with researchers and academic scholars. The Centre intends to connect the faculty members with the leading research experts in the fields of Communication & Signal Processing to enhance the research capacity, foster a research culture, and promote research activities. The faculty members under this cluster are working in the areas of antennas, wireless communications, machine learning, signal, image and video processing.

## AICTE Sponsored One Week Short Term Training Program on

"CHALLENGES AND RESEARCH AVENUES IN SIGNAL AND IMAGE PROCESSING"

Signal and Image processing is the heart of modern world. It is behind the scenes technology that helps us to share information and communicate effectively.Signal and image processing deals with developing techniques and algorithms for filtering, denoising, segmentation, compression, reconstruction and restoration to process and extract information acquired from images, videos and signals like audio, speech and biomedical.

A total of 65 Faculty members from Sree Vidyanikethan Engineering College and other Engineering colleges have participated in this Short Term Training Program. **Dr. D. Leela Rani**, Dr. TVS Gowtham Prasad, and Mr. T. Ravikumar Naidu have organized the Program under the guidance of **Dr. P. V. Ramana**, Professor and Head, Department of Electronics and Communication Engineering.

**Dr. K. Raghunath**, Scientist/Engineer–SG, NARL, Gadanki, Chittoor (Dist.), A.P. was the Chief Guest of Inaugural Function on 11.11.19. **Prof. L. Venugopal Reddy**, Advisor cum Director was Guest of Honor and **Dr. P. C. Krishnamachary**, Principal presided the function. After Inaugural Function, Dr. K. Raghunath delivered a lecture on "Signal processing challenges in atmospheric remote sensing."

A Hands-on-session was followed by **Sri. J. Prem Kumar**, Product manager, Capricot Technologies Private Limited, Hyderabad on Tracking and Motion Estimation, Deep Learning, Image Category Classification and Image Retrieval, LIDAR and Point Cloud Processing, HDL Code Generation and Computer Vision Toolbox for the complete day.

**Dr. Rama Krishna Sai S Gorthi**, Associate Professor and **Dr. Subrahmanyam Gorthi**, Assistant Professor, from the department of Electrical Engineering, IIT Tirupati, have emphasized on Trends in Image Processing, Computer Vision, Machine Learning and deep learning in medical imaging on 12.11.19.

**Mr. K. V. Sreedhar**, Associate Professor, from National Institute of Technology, Warangal has enlightened the participants with research perspectives in Image Enhancement, Image segmentation and Image compression on 13.11.19.

On 14.11.19, **Dr. M. Surendar**, Assistant Professor from National Institute of Technology, Puducherry and **Dr. Mallikarjuna** Professor from RGMCET have highlighted signal processing issues in wireless MIMO systems and transformation techniques in signal and image processing.

**Dr. Anil Kumar Vuppala,** Assistant Professor, IIIT Hyderabad, elaborated applications and current challenges in Speech processing on 15.11.19. He also has explained the procedures involved in his completed and on-going projects.

Distinguished lecture by **Prof. V.V. Ramgopal Rao**, Director, IIT Delhi; Shanti Swarup Bhatnagar Awardee and recipient of Infosys Prize for Engineering and Computer Science on "Innovation in Academic Institutions – a need for Multi Disciplinary Research approach" was arranged on 15.11.19, Afternoon.

# **College Profile:**

Sree Vidyanikethan Engineering College (Autonomous) was established in 1996 by Sree Vidyanikethan Educational Trust under the stewardship of Dr. M. Mohan Babu, renowned Film Artiste and Former Member of Parliament (Rajya Sabha). The College was established in the backward region of Rayalaseema to serve the cause of technical education with an initial intake of 180. The intake has increased exponentially to 2112 in 2019-20. The College now offers 8 B.Tech programs; 8 M.Tech programs; MCA Program; and 3 Doctoral Programs. AICTE has also accorded permission for 2nd Shift Polytechnic from the academic year 2009-10 and presently 5 Diploma courses are being offered. Today, Sree Vidyanikethan Engineering College is one of the largest, most admired and sought after institutions in Andhra Pradesh. The College is approved by AICTE and affiliated to JNTUA, Ananthapuramu. The College has been accorded Autonomous Status by the UGC, New Delhi in 2010-11 which was extended for six years (from 2016-17 to 2021-22).

The College is known for its quality initiatives which are amply reflected in accreditations by National Board of Accreditation (NBA) for UG & PG programs, National Assessment and Accreditation Council (NAAC) with 'A' Grade and many multinational organizations such as TCS, WIPRO & IBM. The College has successfully implemented TEQIP-II under Sub-component 1.1: Strengthening Institutions to improve Learning Outcomes and Employability of Graduates, funded by the Ministry of HRD, Govt. of India. The College has been accorded "UGC-Colleges with Potential for Excellence" status under CPE Scheme by UGC, New Delhi. It also has been accorded 'GOLD' category by CII-AICTE Survey; and was conferred with 'A' Grade by Department of Higher Education, Andhra Pradesh. The college participated in National Institution Ranking Frame Work (NIRF), 2019 and awarded the rank of 167. SIEMENS established 6 State-of-the art t-SDI laboratories.

# **Courses Offered:**

The college offers B. Tech Programs in ECE, CSE, IT, EEE, EIE, CSSE, Civil, MECH. The college also offers M. Tech. in DECS, VLSI, CMS, CS, CNIS, SE, EPS, PED & MCA along with PhDs in ECE, EEE & CS.

# About Tirupati:

Tirupati city is famous for Sri Venkateswara Swamy temple located about 15 kilometers North West of Tirupati in Tirumala hills at an elevation of 853 meters (2,799 ft). It is one of the most important pilgrimage centres in the World and the temple draws millions of pilgrims across the world. Also, the city is a major economic and educational hub in the southern region of the state.

# About the Department:

The department of ECE started in 1996, from the inception of the College. The Department has a team of highly motivated and dedicated faculty to the cause of academics and striving to do the best in the interest of the students.

The Department of Electronics and Communication Engineering offers an Undergraduate program in Electronics and Communication Engineering and three Postgraduate programs in DECS, VLSI and CMS specializations. The Department has been recognized as research centre by JNTUA, Anantapuramu. The Department has full time Ph.D Scholars and JRFs. In addition department has established Research Laboratories like National MEMS Design Centre, Antenna Research Lab and Nanoelectronics Lab. The Department is undertaking research projects from DST, AICTE, ISRO, INUP, Govt of A.P. & etc,.

# Centre for VLSI and Embedded systems:

The VLSI and Embedded Systems based design are gaining momentum in all application greas. As a result, there exists an exclusive center on 2018 for design and development of solutions for the society based problems. Research Centre creates a platform to conduct extensive research in the area of VLSI and Embedded Systems. The Research Centre exposes the faculties, researchers, and students to the latest Research works and technologies by involving them in projects and collaborates with industries. At present there are 15 active Faculty members working in the area of Low Power CMOS VLSI Design, Circuit and device modeling in VLSI Applications, Network on Chip, Energy harvesting Applications, Wearable devices, Sensors in Medical and Environmental Applications, Error Mitigation in High Density Memories, Remote Sensing, IOT Application, etc.,

# **About the Program:**

Research and development in VLSI system have been growing in the public and private sectors in both developed and developing countries. The continuous increase of integration densities in CMOS technology has driven the rapid growth of VLSI circuit for today's high-tech electronics industries from consumer products to telecommunications and computers. As CMOS technologies are scaled down into the nanometer range IC design and testing have become a real challenge to ensure the functionality and quality of the product.

In the light of these developments, Sree Vidyanikethan Engineering College, Tirupati in collaboration with AICTE is organizing a STTP on Recent trends and Research challenges in NANO CMOS VLSI circuits using industry standard EDA tools as a forum on new and emerging applications of handheld and portable devices.

# **Objectives:**

- Upgrade the knowledge of academicians and practioners in teaching /research/industry in the field of VLSI design.
- Strengthen the research activities in the field of Nano scale VLSI among the faculty and researchers by providing hands on experience on the usage of various industrial standard EDA tools.
- Analyze and apply the experience on the various methodologies and techniques in Nano scale VLSI
- Provide forum to exchange views, ideas and innovations with eminent experts in the field of Nano Scale VLSI design.
- Helps to identify the thrust areas and develop new applications.

### **Experts:**

Resource persons from Mentor Graphics -Core EL Technologies, Bangalore, TCAD-Cadre Design Systems, Ghaziabad and Academicians from reputed institutions.

# **Eligibility Criteria**:

- Faculty from AICTE affiliated institutions
- Research scholars / students
- Industry Professionals

# Accommodation details:

Accommodation will be provided to the outstation participants subject to the availability. The reimbursement of travel expenses will be made as per AICTE guidelines. TA will be provided to the outstation participants in the shortest route on submission of the necessary documents.

# Report on One week AICTE Sponsored Short Term Training Programme on Recent Trends and Research Challenges on Nano CMOS VLSI Circuits by Industry Standard EDA Tools (26- 31 August, 2019)

Research and development in VLSI system have been growing in the public and private sectors in both developed and developing countries. The continuous increase of integration densities in CMOS technology has driven the rapid growth of VLSI circuit for today's high-tech electronics industries from consumer products to telecommunications and computers. As CMOS technologies are scaled down into the nanometer range IC design and testing have become a real challenge to ensure the functionality and quality of the product.

In the glow of these developments, Sree Vidyanikethan Engineering College, Tirupati in collaboration with All India Council of Technical Education (AICTE), has organized a Short Term Training Programme (STTP) on **Recent Trends and Research Challenges on NANO CMOS VLSI circuits by Industry Standard EDA Tools** as a forum on new and emerging applications in handheld and portable devices.

The intention of the Short Term Training Programme is to make the faculty and Research scholars understanding the analysis of Nano CMOS logic design process and optimization techniques, also equipped to capture the research challenges posed by Nano CMOS chip design industry

The STTP on Nano CMOS VLSI design and Industry Standard Tools proved their efficiency to

- Design and analyze entire semiconductor chip
- Modern semiconductor chip can have billions of components so EDA tools are essential for their design
- Enhance the designing and programming skills in Nano CMOS VLSI
- Deliver the research contribution towards the societal needs
- Reduce the device dimension by applying different Nano materials in CMOS design
- Explore fundamentals of new device structure and new material availability in the technology transformation.

This STTP is to bring together leading scientists, Industrialist, Key Stakeholders and Experts, in order to promote the presentation of research and industry results and the discussion of experiences.

## **Objective of Short Term Training Programme**

The Short Term Training Programme has been considered to envelop the following objectives

- To upgrade the knowledge of academicians and practioners who are involved in teaching /research/industry in the field of Nano CMOS VLSI circuits.
- To strengthen the VLSI activities among the faculty and researchers by giving hands on experience on the usage of various industrial standard EDA tools.
- To emphasize the pedagogy of learning by analyze and apply the experience on the various methodologies and techniques in Nano VLSI domain.
- To Orient the teaching and research community to solve the critical research issues in the Nano CMOS domain
- To provide forum to exchange views, ideas and innovations with eminent experts in the field of Nano CMOS VLSI design.
- To helps to identify the thrust areas and developing new applications and enhance the curriculum development of quality teaching.

### DAY 1 (26.08.2019)

#### Inauguration

The Programme was inaugurated by Mr. Nagendra Bandi, Sr. Application Engineer, CoreEL Technologies, Bangalore, Dr. D. V. S. Bhagavanulu, Director SVEC, Dr. I. Sudharsan Kumar, Director (Q & D), SVET, Dr. P. V. Ramana, Professor & Head, Department of ECE, SVEC and Dr. N. Vithyalakshmi, Associate Professor, Department of ECE, SVEC.

Lighting the Lamp by Dr. D. V. S. Bhagavanulu, Director SVEC and Dr. P. V. Ramana, Professor & Head, Department of ECE

Dr. P. V. Ramana, Professor & Head of ECE department addressing the participants

Welcome address by Co-ordinator Dr. N. Vithyalakshmi, Associate Professor, Department of ECE

Chief Guest Mr. Nagendra Bandi, Sr. Application Engineer, CoreEL Technologies, Bangalore addressing the participants

#### Session 1: Full custom design flow- Schematic entry Using Mentor Graphics Tool

The speaker highlighted the importance of EDA solutions for VLSI design methodology and the capabilities of Mentor Graphics HEP2 tools as well learn the flow of the Full Custom IC design cycle. He explained very clearly how to create various components like inverter, NAND gate, XOR gate, Full adder, Latch, SRAM register cell and PLL, differential amplifier and running of DRC, LVS and Parasitic Extraction on the various designs. Finally he demonstrated how the circuit is verified by doing various simulations using ELDO. In the process, participants can learn to use EZviewer, waveform window options, waveform calculator, etc...

Resource person explaining the EDA solution for VLSI design methodology

#### Session 2: Hands on Training using Mentor Graphics Tool

The session was provided to have hands on experience of schematic entry for full custom design using the technology library GDK 130nm (Generic13). The participants practiced to build the schematic of design by instantiating various components. Once the schematic is done then they learned how to generate the symbol for the particular design like basic gates and universal gates, SRAM register cell and PLL, differential amplifier.

#### **Creating a Schematic:**

In this section participants can familiar with placing primitive analog and digital devices for any design also can learn how to

- Place primitives on the schematic
- Select and manipulate devices
- Customizing hotkeys for placing devices
- Route devices
- Edit device parameter values
- Name instances
- Check and save the schematic
- Create upper hierarchical symbols
- Create test bench
- Simulate using Eldo
- View results

Participants clarifying their doubts with Resource person

# DAY 2 (27.08.2019)

### Session 3: Layout entry using Mentor Graphics Tool

The Resource person demonstrated the Pyxis Layout Editor basics by concentrating on designing an "Inverter" through automatic layout generation. Then he explained to completing the other layouts, generating GDSII file. After that, by taking GDSII file as reference he taught us to run DRC, LVS checks on the layout, Extract parasitic and back-annotate them to the simulation environment.

Resource Person explaining Layout Editor Basics with example

# Session 4: Hands on Training using Mentor Graphics Tool

The participants had hands on experience of layout based entry for full custom design using Pyxis and Calibre Tool. The participants practiced for basic gates and universal gates using layer information.

Procedure to draw the Layout for the circuit using Pyxis Layout.

- Create new Layout window
- Create and setup SDL window
- Add the layout of Transistors
- Select the Iroute and interconnect Tools
- Connect the I/O ports , VDD, Ground
- Run the physical verification (DRC, LVS, PEX) using Calibre tool.
- Run the post layout simulation by adding the .dspf file generated in PEX.
- Observe the post layout results

## DAY 3 (28.08.2019)

#### Session 5: Semicustom design flow on 7 series FPGA (ZYNQ 7000-Zed Board)

The session started with introduction advanced FPGAs and their capabilities. The Vivado Tool was introduced and counter was designed using Zed board of Zynq -7000 family. Participants can also use Mark Debug feature and also the available Integrated Logic Analyzer (ILA) core (in IP Catalog) to debug the hardware.

Resource person demonstrating advanced FPGA and Vivado Tool

### Session 6: Hands on Training using Vivado Tool

The participants had familiarity in the process of using Vivado IDE to create a simple HDL design targeting the ZedBoard. Also able to simulate, synthesize, and implement the design with default settings. Finally, users can generate the bitstream and download it in to the hardware to verify the design functionality by using ILA (Integrated logic Analyzer, virtual Input output, etc.,) by interfacing Zed board with Vivado Tool.

#### **General Flow of Tool**

- Step 1: Create a Vivado Project using IDE
- Step 2: Simulate the Design using Vivado Simulator
- Step 3: Synthesize the Design and Mark Debug

- Step 4: Implement and Generate Bitstream
- **Step 5:** Perform the Timing Simulation

Step 6: Verify Functionality in Hardware

#### After completing this Tool, participants can be able to:

- Create a Vivado project sourcing HDL model(s) and targeting a specific FPGA device located on the ZedBoard
- Use the provided Xilinx Design Constraint (XDC) file to constrain the pin locations
- Simulate the design using the Vivado simulator
- Synthesize and implement the design
- Generate the bitstream
- Configure the FPGA using the generated bitstream and verify the functionality

Resource person supporting the participants to debug errors

### DAY 4 (29.08.2019)

# Session 7: Schematic design entry for 2D CMOS using TCAD Tool

The Resource person introduced Visual TCAD Tool and various Nano meter scales in which the tools support. Also the trainer demonstrated how to use the tool for Device Modeling, Simulation and Characterization of the Device (transistors and diodes) are done using different methods. Analytical method is used for modeling which consists of closed form equations obtained using spice. Experimental method is required for characterization. Numerical methods which are based on the concept of 2D/3D meshing can be adopted for conducting simulation studies which requires Technology CAD.

Resource person demonstrating Visual TCAD Tool to the participants

### Session 8: Hands on Training using TCAD Tool

The participants developed PN diode, PMOS, NMOS and CMOS devices also visualized various characteristics of the device like band gap diagram, potential variation, electron and hole density etc., by using TCAD Tool

## Various steps followed for device simulation are

- Define X,Y, and Z mesh
- Define regions and corresponding materials
- Define doping Profile
- Apply models
- Apply bias
- Export the output file

Resource person giving hands on Training to the Participants

#### DAY 5 (30.08.2019)

## Session 9: Layout entry using TCAD K-Layout Tool

The resource person introduced K-Layout Tool editor and explained the various option that are useful to develop layout at Nano scale. He demonstrated the design of NMOS Layout

Resource person explain K-Layout Tool to the participants

### Session 10: Hands on Training using K-Layout Tool

The participants experienced PMOS, NMOS and CMOS devices using K-Layout Tool and visualized the 3D structure for developed devices

Participants are practicing the Tool with example

### DAY 6 (31.08.2019)

# Session 11: Schematic design entry for 3D CMOS, FinFET and CNTFET Using TCAD Tool

The trainer specified alternative ways of developing devices using TCAD Tool. (i.e) By using schematic, Layout and scripting language based coding. The design of FinFET and CNTFET was demonstrated at 20nm Technology.

Resource person explaining the 3D models

### Session 12: Hands on Training using TCAD Tool

The participants proficient in Trigate FET and CNTFET designs and the corresponding circuit development using TCAD and K-Layout Tools.

Participants practicing the Tool

### **Valedictory Function**

The Valedictory function was held on 31-08-2019 at 4.00 PM with Chief guest and Guests of honour Mr. Nitish Kumar Application Engineer, Cadre design systems, Ghaziabad, Dr. P. V. Ramana, Professor & Head, Department of ECE, SVEC, Dr. V. R. Anitha, Professor, Department of ECE, Dr. N. Padmaja, Professor, Department of ECE and Dr. N. Vithyalakshmi, Associate Professor, Department of ECE, SVEC and certificates were distributed to the participants, finally the programme was concluded by vote of thanks

	<u>Report</u>
Program Details:	4-Day Workshop on," Embedded System design with MSP430 using Open Source Tools for IOT Applications" During 19-22 Aug. 2019
Resource Person Detail	<ul> <li>S. Balaji, Embedded Application Engineer,</li> <li>Edgate Technologies, Bengaluru</li> </ul>
	2. Mr. T. Krishna Chaitanya, Embedded Systems Engineer, Edgate Technologies, Bengaluru
Venue:	ECAD Lab Room no.202 B
Participants:	Faculty from ECE, EEE & EIE Departments handling Embedded Systems Theory and Lab courses for SVEC16 Regulations

20 In-house Faculty members handling Embedded Systems theory and lab courses have attended the workshop from Electrical Departments of Sree Vidyanikethan Engineering College, Tirupati. The Program was organized by ECE & EEE Departments in union.

#### <u>19 Aug. 2019:</u>

The session started at 10 AM with discussion on Architectures of MSP430 Family of microcontrollers, Pinout, Launch pad Schematics. Hands-on Training using MK-II Educational booster pack with MSP430F5529 Launch pad was demonstrated and exercised by participants using Energia library. Assembly Programming using MSP430 Courseware was demonstrated and practiced using CCS and Energia after the lunch break.

#### 20 Aug. 2019:

Participants practiced Interfacing 10K Potentiometer as sensor with Launch pad to program and control on-chip ADC along with PWM generator to control the speed of DC Motor in the morning Session. The second session continued with demonstration of SPI (3-Wire & 4-Wire) network of Master and Slave Launch pads. E-mail transfer using WI-FI booster pack with CCS was demonstrated and practiced by the participants.

#### <u>21 Aug. 2019:</u>

IoT related experiments to demonstrate dynamic IP address generation for the launch pad, Server-Client deployment using TCP, Application layer Protocols like HTTP webserver, MQTT were demonstrated and practiced using open source MQTT dashboard from android play store by the participants. During the second Session TIVA programming to read Sensors available on sensor hub were demonstrated and practiced.

#### 22 Aug. 2019:

Stepper, Servo Motors were interfaced to launch pads and controlled using Energia Macro functions. Dual Stepper motors were interfaced using ULN2003 Driver booster with launch pads. Sharp LCD was programmed to use as output peripheral. The Second session was on using Blynk open source Application from play store to control launch pad using android application.

The sessions were concluded by the resource person showcasing few ideas for carrying out student projects in embedded domain and various contests TI would be organizing for students across India.

Resource Person Mr. T S Balaji detailing out the Launch Pad details to the Participants and tool availability for programming the launch pads.

Resource Person Mr. T Krishna Chaitanya demonstrating usage of open source tools to the Participants

Usage of on-Chip ADC programming is being demonstrated by the Resource Person.

Department of Electronics and Communication Engineering (Centre for VLSI & Embedded Systems) Sree Vidyanikethan Engineering College (Autonomous)

#### **College Profile:**

Sree Vidyanikethan Engineering College (Autonomous) was established in 1996 by Sree Vidyanikethan Educational Trust under the stewardship of Dr. M. Mohan Babu, renowned Film Artiste and Former Member of Parliament (Rajya Sabha). The College was established in the backward region of Rayala a to serve the cause of technical education with an initial intake of 180. The intake has increased exponentially to 2112 in 2019-20. The College now offers 8 B.Tech programs; 8 M.Tech programs; MCA Program; and 3 Doctoral Programs. AICTE has also accorded permission for 2nd Shift Polytechnic from the academic year 2009-10 and presently 5 Diplama courses are being offered. Today, Sree Vidyanikethan Engineering College is one of the largest, most admired and sought after institutions in Andhra Pradesh. The College is approved by AICTE and affiliated to JNTUA, Ananthapuramu. The College has been accorded Autonomous Status by the UGC, New Delhi in 2010-11 which was extended for six years (from 2016-17 to 2021-22)

The College is known for its quality initiatives which are an ply reflected in accreditations by National Board of Accreditation (NBA) for UG & PG programs, National Assessment and Accreditation Council (NAAC) with 'A' Grade and ultinational organizations such as TCS, WIPRO & IBM. The College has successfully implemented TEQIP-II under Sub-component 1.1: Strengthening Institutions to improve Learning Outcomes and Employability of Graduates, funded by the Ministry of HRD, Govt. of India. The College has been accorded "UGC-Calleges with Potential for Excellence" status under CPE Scheme by UGC, New Delhi. It also has been accorded 'GOLD' category by CII-AICTE Survey; and was conferred with 'A' Grade by Department of Higher Education, Andhra Prodesh. The college participated in National Institution Ranking Frame Work (NIRF), 2019 and owarded the rank of 167. SIEMENS established 6 of the art t-SDI laboratories

#### **Courses Offered:**

The college offers B. Tech Programs in ECE, CSE, IT, EEE, EIE, CSSE, Civil, MECH. The college also offers M. Tech. in DECS, VLSI, CMS, CS, CNIS, SE, EPS, PED & MCA along with PhDs in ECE, EEE & CS.

#### **About Tirupati:**

Tirupati city is famous for Sri Venkateswara Swamy temple dedicated to Lord Venkateswara, located about 15 kilometers North West of Tirupati in Tirumala hills at an elevation of 853 meters (2,799 ft). It is one of the most important pilgrimage centres in the World and the temple draws millions of pilgrims and is the busiest pilgrimage centre in the world. Also, the city is a major economic and educational hub in the southern region of the state.

#### Location:

Sree Vidyanikethan Engineering College (Autono-mous) is located 15 km from the temple town of Tirupati on Tirupati- Madanapalle National

#### About the Department:

The core strength of any College/University lies in the quality of its faculty. The Department of Electronics & Communication Engineering has a team of highly motivated and dedicated faculty to the cause of academics and striving to do the best in the interest of the College and its students. The Department of Electronics and Communication Engineering offers an

Undergraduate program in Electronics and Communication Engineering and three Postgraduate programs in DECS, VLSI and CMS specializations. The Department has been recognized as research centre by JNTUA, Anantapuramu. The Department has full time Ph.D Scholars and JRFs. In addition department has established Research Laboratories like National MENS Design Centre, Antenna Research Lab and Nanoelectronics Lab. The Department is undertaking research projects from DST, AICTE, ISRO, INUP, Govt of A.P. & etc.,

#### About the Program:

Research and development in Biomedical and VLSI technologies have been growing in the public and private sectors in both developed and developing countries. It is becoming clear that in order to achieve the expected goals promised by Biomedical and VLSI technologies, the world community must ensure that direct, forthright global governance of these technologies is addressed.

In the light of these developments, Sree Vidyanikethan Engineering Callego, Tirupati is organizing a National level workshop on "VLSI Architectures for Biomedical Image Processing Applications" with the support of COUNCIL OF SCIENTIFIC AND INDUSTRIAL RESEARCH.

#### **Objectives:**

- To identify the emerging VLSI technology and Bio medical application providing broad equitable social benefits
- To promote the researchers lawards developing the knowledge and ability in addressing the health care needs using VLSI and medical image processing and to solve the latest research issues and happenings relevant to Biamedical image rocessing through VLSI Architectures
- To promote research collaboration and partnerships among VLSI and Bio medical professionals for providing the solutions through VLSI technologies in **Bio medical Engineering**

Sponsored TWO DAY NATIONAL WORKSHOP

ON

"VLSI Architectures for Biomedical Image Processing Applications"

The Department of Electronics and Communication Engineering of Sree Vidyanikethan Engineering College has organized a Two-Day national Workshop titled "VLSI Architectures for Biomedical image Processing Applications" during 08-09 August 2019, which is sponsored by council of Scientific and Industrial Research (CSIR).

Objectives of this workshop is

- To identify those emerging VLSI technology and Bio medical applications which are considered as having the greatest potential in providing broad equitable social benefits
- To promote the researchers towards developing the knowledge and ability in addressing the health care needs using VLSI and medical image processing and to solve the latest research issues and happenings relevant to bio-medical image processing through VLSI Architectures.
- To promote research collaboration and partnerships among VLSI and Bio medical professionals for proving the solutions for Bio medical issues through VLSI technologies.

A total of 40 delegates including PG scholars, research scholars and faculty from various institutions have participated in the Workshop. Dr.P.Nagarajan, Associate Professor organized this workshop as convener and Dr.N.Ashok kumar, Associate professor, Dr.N.Vithya Lakshmi , Associate professor and Ms.K.Neelima, Assistant Professor as coordinators under the guidance of Dr. P. V. Ramana, Professor and Head, Department of Electronics and Communication Engineering.

The resource persons constitutes of scientists, Experts, senior faculty members and eminent guest speakers from different R&D organizations, Premier Academic institutions of Engineering and Sciences. The feedback on participants understanding and learning, resource person's knowledge, knowledge sharing and organization of the workshop is extraordinary and encouraging to organize many workshops of this kind.

Overall, the event has proved successful. The program schedule and photographs of workshop are as follows.

### REPORT

A Staff Development Programme on "PLC & HMI" is conducted in Department of EIE during 26-08-2019 to 27-08-2019.

The resource persons are Mr. G. Hemanth Kumar & Mr. C. Somasundar Reddy, Assistant Professor, Dept. of EIE, Sree Vidyanikethan Engineering College.

The following topics were covered.

- 1. Introduction to PLC
- 2. PLC Ladder programming using gates
- PLC Timers and counters
- 4. Applications of Timers and Counters
- 5. Hands on Programming
- 6. Introduction to HMI
- Applications of HMI

The Outcomes of the program:

- 1. Simulate data interactions through a software simulations.
- 2. Visualize the PLC & HMI in both logical and physical modes.
- 3. Apply skills through practice, using lab activities.
- 4. Develop critical thinking and problem-solving skills in Real time applications.

A Total of 25 Technicians from various departments have attended, benefitted from the STP and are expected to perform well in PLC.

### **College Profile**

- The College was established in 1996 by Sree Vidyanikethan Educational Trust under the stewardship of Dr. M. Mohan Babu, renowned Film Artiste and Former Member of Parliament (Rajya Sabha).
- Approved by AICTE, New Delhi and permanently affiliated to Jawaharlal Nehru Technological University, Anantapuramu.
- The College conferred 'Autonomy' by UGC, New Delhi
- 6 UG and 4 PG programs are accredited by National Board of Accreditation (NBA, New Delhi)
- Awarded 'Colleges with potential for Excellence' by UGC, New Delhi under XII plan period UGC-CPE Scheme.
- The college is Accredited with "A" grade by NAAC.
- Offers B. Tech program in 08 disciplines, M. Tech program in 08 specializations and MCA & MBA.
- Extensive computing facility with 2000+ computers
- Centrally Air-Conditioned Auditorium, e-class rooms and Seminar Halls
- Selected for participation in TEQIP-II under sub component 1.1: Strengthening institute to improve learning outcomes and employability of graduates with a grant of Rs. 4 Crore. An additional fund of Rs. 2 Crore obtained as one of the best performing institution.
- MoUs with 20 Industries/Institutions including IIT-Hyd., IITM-QEEE, CII-Hyd. & ISB-Hyd.
- Vibrant placements for both UG & PG

### **Courses Offered**

The college offers B. Tech Programs in CSE (240), IT (120), EEE (240), ECE(240), EIE (120), CSSE (120), Civil (120), Mech. (180). The college also offers MCA (120) and M. Tech. in CS, CNIS, SE, EPS, DECS, VLSI & CMS.

### **About Tirupati**

Tirupati is famous for Sri Venkateswara Swamy temple dedicated to Lord Venkateswara, located about 15 kilometres North West of Tirupati in Tirumala hills at an elevation of 853 metres (2,799 ft). It is one of the most important pilgrimage centers in the World and the temple draws millions of pilgrims and is the busiest pilgrimage centre in the world.

### **About EIE Department**

The department of EIE is established in the year 1997 with a modest intake of 30. The intake was increased to 60 in the year 1998 and 120 in the year 2008. The department got accredited in the year 2007 and reaccredited in the year 2013. The department has well qualified and experienced faculty. The Department is equipped with excellent infrastructure and state-of-the-art equipment to explore the technological challenges in the areas of Instrumentation and Control systems. The Department actively involves in various research areas which include Soft computing, Nonlinear Control systems, Robotics and MEMS.

### About the workshop

The Laboratory Virtual Instrument Engineering Workbench (LabVIEW) is a development environment designed by National Instruments that creates graphic-based programs called virtual instruments (VIs) that simulate actual laboratory instruments.

The National Instruments Educational Laboratory Virtual Instrumentation Suite (NI ELVIS) is a LabVIEW and computer based design and prototyping environment. NI ELVIS consists of a custom-designed bench top workstation, a prototyping board, a multifunction data acquisition device, and LabVIEW based virtual instruments. This combination provides an integrated, modular instrumentation platform that has comparable functionality to the DMM, Oscilloscope, Function Generator, and Power Supply found on the laboratory workbench project model developing skills. The workshop is aimed to create awareness on Lab view, multisim and ELVIS which enhances the project models developing skills.

### Topics to be covered

- Use LabVIEW to create applications.
- Understand front panels, block diagrams, and icons and connector panes.
- Use built-in LabVIEW functions.
- Create and save programs in LabVIEW so you can use them as subroutines.
- Create applications that use plug-in DAQ devices
- Programming theory of LabVIEW
- Every built-in LabVIEW function or object
- Analog-to-digital (A/D) theory
- Programming theory of ELVIS

A hands on Training in "Labview, Multisim, ELVIS & myRio" is conducted in Department of EIE during 12<sup>th</sup> Sep 2019 to 13<sup>th</sup> Sep 2019.

The resource person was Mr. Prakash K, Applications Engineer, Optithought, Chennai.

The following topics were covered.

- Introduction to LABVIEW
- Introduction to Multisim
- Simulation of circuits and observing characteristics and responses by using tools in Multisim.
- Basics of ELVIS II+
- Interfacing of ELVIS II+
- Basics of myRio
- Interfacing myRio
- Networking of myRios

A Total of 10 faculty have attended, benefitted from the add-on course and are expected to handle ECAD Lab, LDIC lab using Multisim, Industrial Instrumentation Lab, Process Control Lab using myRio and ELVIS and guide students in projects and consultancy work.

### About the Programme:

**Objective:** LaTeX is a typesetting system which is used to create typographically sophisticated documents and to produce a customized PDF document. LaTeX provides a platform to create a document with customized citation styles, bibliography list, placements of the graphs and tables. LaTeX is essential for researchers to write the research papers for publications in scientific journals. The hands-on lab sessions will be conducted on both software. This training is useful for academic and research community.

### Course Contents:

Day 1: Introduction to LaTeX, creation of tables and graphs, sectioning and listing in LaTeX, math equations and matrix in LaTeX. Day 2: Manual embedding the references, creating bibliography automatically using BibTex, Basic syntax of beamer, basic formatting and frame formatting.

## SVEC "Scientific Computing Through MATLAB"

Department of Electrical and Electronics Engineering & Department of Electronics and Instrumentation Engineering organized a One week FDP on **"Scientific Computing Through MATLAB**" under IEEE Student Branch and ISTE Student Chapter from 2<sup>nd</sup> to 6<sup>th</sup> December 2019.

The main objective of the workshop is to Introduce Machine Learning, Deep Learning, Computer Vision, Audio Signal Processing toolbox, DSP Toolbox, Live script in MATLAB, Embedded Coder, MATLAB Coder, SIMULINK Coder, and Fixed-Point Designer in MATLAB. Recourse person also explained about audio processing systems and algorithms with real-time applications.

A total of 60 faculty members were benefited by attending this workshop.

The Outcomes of the program:

- 1. Read and write images using MATLAB.
- 2. Pre-process image data and analyze them for extracting image features.
- 3. Utilize image features and information for different applications such as classification.
- 4. Apply machine learning and deep learning concepts to solve problems in different domains.
- 5. Acquired knowledge on how to use Audio Signal Processing toolbox, DSP Toolbox and different coders in MATLAB.
- 6. Beneficiaries can able design simple real-time audio systems using basic algorithms.

AICTE Sponsored International Conference on

### **"Smart Computing and Control of Systems**"

17th - 19th October, 2019

Organized by Department of Electrical and Electronics Engineering Sree Vidyanikethan Engineering College, Tirupati

#### **College Profile:**

Sree Vidyanikethan Engineering College, Tirupati was established in 1996 by Sree Vidyanikethan Educational Trust under the stewardship of Dr. M. Mohan Babu, renowned film artiste, Padmashri Awardee and former Member of Parliament (Rajya Sabha). The college is approved by AICTE, New Delhi and affiliated to Jawaharlal Nehru Technological University, Anantapuramu, Andhra Prodesh, India. The college is conferred 'Autonomy' by UGC, New Delhi. The college also bestowed with the title 'Colleges with potential for Excellence' by UGC, New Delhi under XII Plan period UGC-CPE scheme. The college was accredited with "A" grade by NAAC. The college received PLATINUM category in AICTE-CII Survey 2018. In NIRF Ranking-2019 Sree Vidyanikethan stands in 167th position among all Engineering Colleges at national level and topped among all private engineering colleges in Andhra Pradesh. The college offers B.Tech. Program in 8 disciplines, M.Tech. Program in 8 specializations, Ph.D programs in 3 disciplines and MCA. Out of the programs offered, 6 B.Tech and 4 M.Tech. programs were accredited by National Board of Accreditation (NBA, New Delhi). The college was selected for participation in TEQIP-II under Sub Component1.1: Strengthening Institution to improve learning outcomes and employability of graduates with a grant of Rs.4 Crores. As one of the best performing Institutions under TEQIP-II, an additional fund of Rs. 2 Crores was sonctioned. The college has MoUs with 30 Industries/Institutions that includes ITH Hyderabad, IITM Chennai, Cll Hyderabad, ISB Hyderabad etc.

#### Location:

The college is located 15 km from the temple town of Tirupati on Tirupati- Madanapalle National Highway 205. https://goo.gl/maps/SxeqCCprSUMpkTME7

### KINDLY SCAN OF CODE FOR LOCATION About the Department of EEE:

The Department of EEE was established in the year 1996 offering B.Tech. (EEE) with a modest intake of 60. The intake at present is 240 besides an additional 20% under lateral entry scheme. The Department is offering Two M.Tech.programs" Electrical Power Systems (EPS)" started in the year 2004 with an intake of 18 and is increased to 36 from the year 2014 and "Power Electronics and Drives (PED)" started in 2017 with an intake of 18. Both the B.Tech. (EEE) and M.Tech. (EPS) programs were accredited by NBA. The department also offers Ph.D. under its Research Center recognized by the affiliating University JNTUA, Anantapuramu. The Department has well gualified faculty which includes 13 Ph.D. degree holders.

The Department houses well equipped laboratories and a Research Center "Center for Energy".

#### Vision

To become the Nation's premiere Centre of excellence in electrical engineering through teaching, training, research and innovation to create competent engineering professionals with values and ethics.

### ission:

- Department of Electrical Engineering strives to create human resources in Electrical Engineering to contribute to the nation development and improve the quality of life.
- Imparting Knowledge through implementing modern curriculum, academic flexibility and learner centric teaching methods in Electrical Engineering.
- · Inspiring students for aptitude to research and innovation by exposing them to industry and societal needs to create solutions for contemporary problems.
- · Honing technical and soft skills for enhanced learning outcomes and employability of students with diverse background through comprehensive training methodologies.
- Inculcate values and ethics among students for a holistic engineering professional practice.

#### About the Conference:

This conference aims to provide an exceptional interdisciplinary platform for academicians, researchers, industry participants, practitioners and budding engineers to disseminate the most recent innovations, trends, concerns along with the present-day challenges and the solving approaches for implementation in the domain of Smart Computing and Control of Systems.

Original technical papers are invited in the areas, but not limited to:

- Power System Operation and Control
- Power System Deregulation
- HVDC & FACTS
- Smart Grid Technology
- Power Electronics and Industrial Drives
- Renewable Energy Sources
- Electric Vehicles
- Control System and Automation
- Instrumentation
- Signal and Image Processing Antennas and Communication Networks
- Embedded Systems
- VLSI Circuits and Systems
- Big Data Analytics
- · Cyber Security System
- Cloud & Mobile Computing
- Ubiquitous Computing
- Machine Learning
- Swarm and Evolutionary Algorithms
- · Internet of Everything
- Human Machine Interface Security

#### **Guidelines for Authors:**

· Authors are requested to submit their full paper in word document. • Manuscript should be submitted in the prescribed format only.

- Papers shall be submitted through easychair by using the link
- https://easychair.org/conferences/?conf=icsccs2019
- KINDLY SCAN OR CODE FOR LOG IN / SIGN UP
- · All contributions must be original, should not have been published elsewhere or accepted for publication or under review.
- · Submitted manuscripts will be peer reviewed by external experts based
- on originality and significance. Participants shall pay their registration fee well in advance and the
- information regarding account details can be seen in website. Registration Fee includes Conference kit, Proceedings, Lunch,
- Refreshments, Certificate and access to all technical sessions.

#### College Profile:

Sree Vidyanikethan Engineering College (Autonomous) was established in 1995 by Sree Vidvanikethan Educational Trust under the stewardship of Dr. M. Mohan Babu, renowned Film Artiste and Former Member of Parliament (Raiva Sabha). The College was established in the backward region of Rayalaseema to serve the cause of technical education with an initial intake of 190. The intake has been increased exponentially to 2112 in 2019-20. The College now offers 8 B.Tech programs; 8 M.Tech programs; MCA Program; and 3 Doctoral Programs. AICTE has also accorded permission for 2nd Shift Polytechnic from the academic year 2009-10 and presently 5 Diploma courses are being offered. Today, Sree Vidvanikethan Engineering College is one of the largest, most admired and sought after institutions in Andhra Pradesh. The College is approved by AICTE and affiliated to JNTUA, Ananthapuramu. The College has been accorded Autonomous Status by the UGC, New Delhi in 2010-11 which was extended for six years (from 2016-17 to 2021-22).

The College is known for its guality initiatives which are amply reflected in accreditations by National Board of Accreditation (NBA) for UG & PG programs, National Assessment and Accreditation Council (NAAC) with 'A' Grade as one of the best performing institutions in India. The College has successfully implemented TEQIP-II under Sub-component 1.1: Strengthening Institutions to improve Learning Outcomes and Employability of Graduates, funded by the Ministry of HRD, Govt. of India. The College has been accorded "UGC-Colleges with Potential for Excellence" status under CPE Scheme by UGC, New Delhi. It also has been accorded 'PLATINUM' category by CII-AICTE Survey; and was conferred with 'A' Grade by Department of Higher Education, Andhra Pradesh. The college participated in National Institution Ranking Frame Work (NIRF), 2019 and awarded the rank of 167. SIEMENS and APSSDC has established 6 State-of-the art laboratories.

Route: 15 km from the temple town of Tirupati on

Tirupati - Madanapalle National Highway No.205.

#### Courses offered:

The college offers B. Tech Programs in ECE, CSE, IT, EEE, EIE, CSSE, Civil, MECH. The college also offers M. Tech. in CSE (CSBS), VLSI, CSE (AI), CSE (DS), CNIS, SE, EPS, PED & MCA along with PhD programs in ECE, EEE & CS

#### About Department:

The Department was established in the year 1997 with a modest intake of 30. The intake was increased to 60 in the year 1998 and 120 in the year 2008. The Department got accredited by NBA in 2007 and reaccrediated in 2013. The Department has well qualified experienced faculty and equipped with excellent infrastructure and state-of-the-art equipment to explore the technological challenges in the areas of instrumentation, Control systems, PLC & SCADA and Sensor Design .

#### **Objectives:**

- To provide knowledge on Fundamentals of Design and Fabrication of MEMS & NEMS Sensors.
- 4 To provide Hands on training on MEMS Sensor Design.
- 4 To Provide awareness of the current status of the research and development of this state-ofart technology.

#### Outcomes:

- Demonstrate Knowledge on Fundamentals of MEMS & NEMS.
- Analyze different properties of MEMS & **NEMS** materials
- Design/Simulate 2D, 3D Sensors using Comsol.

#### Topics to be Covered:

- Session-I
  - Brief Overview Micro-fabrication of Processes
  - Silicon based MEMS/NEMS.

#### Session -II

- Polymer and Carbon based MEMS & NEMS
- Fundamentals of MEMS/NEMS: Design Perspectives
- Session -II 4
  - Design Accelerometers of using MEMS/NEMS
  - Hands on Section I

#### Section -IV

-

- Design of Biosensors and gas sensors using MEMO/NEMEC
- Hands on Section II

#### Session-IV -

- Ultraconice Transducers Micromachined Generating waves with low power
- Modeling and Analysis of MEMS/NEMS
- Opportunities and challenges

#### **Registration:**

Filled in Registration form is to be submitted to the coordinator on or before 07-02-2020.

#### General Information:

4 Certificates will be issued to all the participants only if they attend all the sessions

DEPARTMENT OF ELECTRONICS AND INSTRUMENTATION ENGINEERING

18.02.2020

SVEC/EIE/FDP/2019-20

#### REPORT

The Department of EIE organized Faculty development program on "MEMS & NEMS" from 10th to 14th February, 2020. This workshop was second in the series of workshops. The previous workshop was organized in 2016 from 24th to 28th October. The previous workshop has touched the theoretical details of design and fabrication of MEMS and MEMS based sensors.

The present workshop was aimed at giving a more practical study of MEMS and NEMS and their application. Apart from the theoretical concepts, this workshop also included the hands-on-sessions for simulating MEMS based accelerometers, Gas sensors and Biosensors and their characterization using Finite Element Modeling.

#### Day-1: 10/02/2020

The first resource person was Dr. V. R. Anitha, Professor, Department of ECE College, Sree Vidyanikethan Engineering College. She started the session with Introduction to MEMS and NEMS. She also briefed out the importance of Nanomaterials in the day to day life.

Dr. V. R. Anitha Delivering the talk

The Second resource person was Dr. Argha Sarkar, Asst. Professor, Department of ECE College, Sree Vidyanikethan Engineering College. He taught various concepts of Microfabrication along with the fundamentals of silicon based MEMS and NEMS. He taught various types of micromachining like surface micromaching and bulk micromaching. He also taught the concepts involved in the method of Deep Reactive Ion-based Etching (DRIE) and wet bulk micromaching. He used various physical 3-Dimensional models to Indian Institute of Technology, Hyderabad explain critical concepts like undercutting, trench formation, exposing of different planes etc. to make the participants understand the concept. He also talked about the various etchants used in micro-fabrication and the problems associated with each of them focusing on the critical aspects to be kept in mind while choosing an etchant. He talked about the fabrication process in details including all the steps of wafer cleaning, spin coating, pre-baking, photolithography, post baking, etching and other talking about the various intricacies to be kept in mind while doing the process. He also talked briefly about advanced topics like corner compensation techniques, the wagon wheel methods to determine the etch rate of many planes etc.

#### Day-2: 11/02/2020

In Session: **I Dr. V. R. Anitha** emphasized the need for polymer and carbon based MEMS & NEMS as next generation manufacturing. she also discussed the MEMS & NEMS materials and their Properties.

In Session: II **Dr. P. Geetha, Assoc. Professor**, Department of ECE, Sree Vidyanikethan Engineering, She discussed about the design perspectives of MEMS/NEMS. After emphasizing on various steps required for the commercialization of MEMS devices, she focused on the performance characteristics of a resonant MEMS devices which is captured by resonance frequency and quality factor. She mentioned during her talk that the sensitivity of these devices can be increased by increasing the resonance frequency and reducing the damping. Afterwards, she talked about frequency tuning by residual stress, geometric nonlinearity, electrostatic softening. He also mentioned about pull-in effect which occurs under the

application of large dc biased voltage. To show the influence of damping on MEMS devices, he also talked about intrinsic damping such as thermoelastic damping, etc., and extrinsic damping like support loss, squeeze film damping. He mentioned that most of MEMS devices, operating under the ambient condition, are influenced by squeeze film damping. After characterizing the flow based on Knudsen number, he mentioned about macroscopic as well as microscopic modeling. After discussing the fundamentals of electrostatic and mechanical phenomena, she discussed few test cases to showcase application of these theories in the design of MEMS/NEMS devices.

#### Day-3: 12/02/2020

In Session: I **Ms. N. Harathi** started the session with design concepts in Comsol 5.3a. She gave hands on training on construction of basic 2D and 3D models.

Ms. N. Harathi delivering the talk

In Session: II **Dr. Argha Sarkar** continued the session with design concepts of MEMS accelerometers, He made the participants to simulate their own models by varying different variables.

#### Day-4: 13/02/2020

In Session: I **Ms. N. Harathi** started the session with design of gas sensors. She elaborated the construction of geometry, boundary selection and Finite element modeling.

Participants at Faculty Development Programme In Session: II Dr. V. R. Anitha taught about Bio MEMS and Biosensors

#### Day-5: 14/02/2020

In Session: I **Dr. P. Geetha** discussed about the fabrication process in details including all the steps of wafer cleaning, spin coating, pre-baking, photolithography, post baking, etching and other talking about the various intricacies to be kept in mind while doing the process. He also talked briefly about advanced topics like corner compensation techniques, the wagon wheel methods to determine the etch rate of many planes etc.

Dr. Argha Sarkar continued the session with MEMS Packaging.

In Session: II **Dr. Argha Sarkar** continued the talk with research perspectives of MEMS and NEMS.

At the end we had a one to one discussion session where all the participants cleared their doubts. The FDP is concluded with the valedictory function and certificates distribution to the participants. Total of 30 Faculty attended the program. A good positive response has been received regarding the technical details presented and for the way of presentation.

## Workshop on "Teacher Development Program"

Sree Vidyanikethan Engineering College organized a workshop on "Teacher Development Program" during 16-17, September, 2019.

**Prof. Daniel McQuade**, Director of Columbia Business School, New York City U.S.A conducted sessions on **Teaching for Product Innovation**. About twenty one senior faculty members of Sree Vidyanikethan Engineering College, and sister institutions of SVET attended the Program. The sessions stared with an introduction to age of disruption, innovation and the customer. **Prof. Daniel McQuade** discussed about Start up culture in India, China and U.S.A, issues related to global impact and local focus and how startup skills and technology absorption will affect the Global Entrepreneurship Index.

The participants of the program gained knowledge on design thinking, idea conceptualization, Lean product development, and Product team management. The sessions are concluded with a statement "It's not the strongest species that survive, nor the most intelligent, but the ones most responsive to change".

## A One Week Faculty Development Programme on

"Design Thinking"

(Sponsored by JNTUA, Ananthapuramu under The Directorate of Faculty Development & IQAC)

The Department of Computer Science and Engineering, Sree Vidyanikethan Engineering College organized a One Week Faculty Development Programme (FDP) from 20<sup>th</sup> to 25<sup>th</sup> January 2020 sponsored by JNTUA, Ananthapuramu under The Directorate of Faculty Development and IQAC.

The core idea of the programme was to enhance knowledge and capabilities among the participants in design thinking and make use of design thinking process as a tool to create innovative products. The programme is aimed at faculty and research scholars of all engineering disciplines. A total of 42 members attended the programme. Dr. Balachandar Ramadurai, Professor NPTEL, Co-Founder TRIZ Innovation India, Adjunct Professor at Symbiosis Institute of Business Management, Pune was the chief guest and Dr. Shankar Venugopal, Vice President Mahindra & Mahindra, Head of Technology Innovation, Knowledge Management and Mahindra Technical Academy was the guest of honor for the inaugural function of the programme.

Dr. G. Sunitha, Professor & BoS Chairperson and Coordinator of the programme, Department of CSE, SVEC delivered welcome note and briefed about the sessions of the workshop. Dr. K. Delhi Babu, Professor & Dean (Placement and Training), Department of CSE, welcomed the participants and highlighted the importance of Design Thinking in product development.

**20.01.2020** – On Day One forenoon session, Dr. Balachandar Ramadurai introduced the design thinking process. During afternoon session, Dr. Shankar Venugopal discussed on the importance of Human centered design process continued with session by Dr. Balachandar Ramadurai focusing on the Empathize phase of Design Thinking with active exercise for Customer Journey Mapping (CJM) and How Might We (HMW) scenarios.

**21.01.2020** – On Day Two forenoon sessions, Dr. Shankar Venugopal focused on innovative design thinking through Combine, Rearrange, Enhance, Adapt, Turnaround, Eliminate (CREATE) tool. During afternoon sessions Dr. Balachandar Ramadurai discussed the importance of ideation phase in design thinking process.

**22.01.2020** – On Day Three, Dr. Srinivasan Narayanan, Assistant Professor (Senior Grade), Department of Manufacturing Engineering, School of Mechanical Engineering, VIT University, Vellore, discussed about the product specification development and quality function deployment with some case study samples during the forenoon sessions. Dr. S. Renold Elsen, Associate Professor, Department of Design and Automation, School of Mechanical Engineering, VIT University, University, Vellore, focused his discussion on prototyping during the afternoon sessions.

Sree Sainath Nagar, Tirupati - 517102

23.01.2020 - On Day Four, Dr. Srinivasan Narayanan focused his discussion on Product design with design thinking perspective in the forenoon sessions. During afternoon sessions, Dr. Renold Elsen conducted hands-on session for the participants on prototyping and digital design tools such as TinkerCad, Figma and Marvel App.

24.01.2020 - On Day Five, Mr. Vineesh U Sathianathan, Program Manager and Delivery Manager, Wipro Limited, Mysore, focused his discussion on Design for Services during the forenoon sessions. During the afternoon sessions, Dr. Noor Mahammad SK, Assistant Professor (Senior Grade), Indian Institute of Information Technology, Design and Manufacturing (IIITDM) Kancheepuram, Chennai discussed about Kitch, Pasthise and Retro Information Evolution.

25.01.2020 - Finally on Day Six, Mr. Vineesh U Sathianathan discussed about Design Innovation and Business with case studies in the first session followed with sessions by Dr. P. Chenna Reddy, Professor of CSE, JNTUA, Ananthapuramu discussed about the Design Thinking Curriculum Design. The faculty development programme concluded with the valedictory function in the honored  $igside{V}$ presence of Dr. P. Chenna Reddy and Dr. K. G. Suma proposed a vote of thanks.

## Outcomes of the Programme:

- The participants gained insights on user-centric approach through empathy, ideation, A prototyping and testing in order to understand people's unarticulated needs and identify
- The members of faculty acquired skills about the various aspects of design thinking process Þ such as user-centric design, collective idea generation methods and practice in modern

## <u>A Five Day Workshop on</u> "Effective Teaching (IIEECP Phase-I)"

The Department of Computer Science and Engineering, Sree Vidyanikethan Engineering College in association with IUCEE organized a five day workshop on "Effective Teaching (IIEECP-Phase-I)" from 9<sup>th</sup> to 13<sup>th</sup> December 2019.

The core idea of the programme was to promote learner centric, effective teachinglearning pedagogy among the participants. The programme aimed at faculty of all engineering disciplines. A total of 40 members attended the programme. Dr.Claire Komives, Fullbright Nehru Scholar, Professor, Chemical and Materials Engineering, San Jose State University, California, USA was the chief guest for the inaugural function. She spoke about the importance of using active learning methods in classroom.

Inaugural function was organized on 09.12.2019 and addressed by Principal, Director(Q&D), HoD, CSE along with Dr.Claire Komives, Fullbright Nehru Scholar, Professor, Chemical and Materials Engineering, San Jose State University, California, USA, she handled all the sessions for the upcoming days.

**09.12.2019 – Day-ONE** focused on methods to teach critical thinking skills with active exercise for cooperative note taking process.

**10.12.2019 – Day-TWO** discussed the importance of using concept map to organize the core concepts of learning, learning styles for 21<sup>st</sup> century learners with think pair share exercise.

**11.12.2019** – **Day-THREE** focused discussion on course planning using outcomes in instruction, design of rubrics, project based learning, designing activities for higher level outcomes and methods for effective lecture delivery such as flipped classroom, inductive teaching.

**12.12.2019 – Day-FOUR** About problem solving strategies using active learning, design thinking principles and assessment tools for evaluation.

**13.12.2019 – Day-FIVE** on incorporating professional skills in curriculum, design of experiments and revealed the importance of controlling plagiarism.

## Outcomes of the Programme:

- The participants gained knowledge about the different active teaching methods that can be used in their classroom teaching.
- The members of faculty acquired skills about the learner centric approaches of teaching through different activities.

#### Report on One Week Faculty Development Programme on Advanced Python Programming

05<sup>th</sup> – 09<sup>th</sup> August, 2019

A One week Faculty Development Programme (FDP) on Advanced Python Programming was organized by department of CSE in association with Bennett University, Greater Noida. The FDP addressed the advanced concepts of Python Programming and promoted student centric effective teaching-learning pedagogy among the participants. This programme aimed at faculty handling Python Programming for various disciplines of engineering. A total of 31 participants attended the programme. Dr. K Delhi Babu, Professor and Dean Placements, SVEC was the Chief Guest for the inaugural function. He spoke about the evolution of Python Programming from the industry perspective. Dr. C Madhusudhana Rao, Professor of CSE inaugurated the programme. During the inaugural address, he stressed upon the transformations happening in IT industry and the importance of learning Python Programming in current context. Dr. B Narendra Kumar Rao, Professor & Head, Dept. of CSE, SVEC welcomed the participants and briefed about the initiatives of the department in this regard and collaboration with different agencies for promoting python programming.

Resource Persons from reputed academic institutions like Bennett University, Greater Noida and Annamalai University, Tamil Nadu having expertise in the different relevant areas related to the programme delivered the lectures in this Faculty Development Programme.

In the first and second technical session of the first day of the programme, Dr Sridhar Swaminathan from Bennett University, Greater Noida spoke on Large Scale Text Analytics. This session focused on the basics of the neural architecture and deep neural models followed by Hands-on sessions.

The second day of the programme was focused on Image Classification and Segmentation using Convolutional Neural Network and its variants. The session was handled by Dr. V Ananatha Natarajan, Associate Professor Dept of CSE, SVEC. The participants were given hands on practice session on Azure Notebook (cloud environment). On the third day of the programme, Dr. S Jothilakshmi Professor, Dept. of IT, Annamalai University delivered a lecture on the Machine Learning algorithms and programming in Python language. The participants practiced to solve classification and regression problems using Machine Learning algorithms in Python language. The technical sessions of the fourth day was handled by Mr. I Reddy Sekhar Reddy and Mr. S Bavaji and on advanced Data Structure (TRIE Data structure) and algorithms. On the last day of the programme Dr. Asadi Srinivasulu Professor, Dept. of IT, SVEC gave lecture on Spark Programming with Python.

The import aspect of the event was that more than 50% of the total time spent during the programme was devoted to the hands on sessions and demonstration. Participant's feedback also revealed that the programme was perfect blend of technical knowledge on the advances in python programming and its allied technologies. This Faculty Development Programme (FDP) fulfils its prime objectives to bring the faculties of different engineering departments on a single platform to update with the latest advances in the Python Programming and its applications for conducting effective research and teaching learning practices.

### AICTE Sponsored One Week STTP on "Blockchain Technologies : Applications and Challenges"

The Blockchain is an encrypted, distributed database that records data, or In other words it is a digital ledger of any transactions, contracts - that needs to be independently recorded. One of the key features of Blockchain is that this digital ledger is accessible across several hundreds and thousands of computer and is not bound to be kept in a single place. Blockchain chain has already started disrupting the financial services sector, and it is this technology which underpins the digital currency- bitcoin transaction.

With Blockchain technology in financial sector, the participants can interact directly and can make transactions across the Internet without the interference of a third party. Such transactions through Blockchain will not share any personal information regarding the participants and it creates a transaction record by encrypting the identifying information. The most exciting feature of Blockchain is that it greatly reduces the possibilities of a data breach. In contrast with the traditional processes, in Blockchain there are multiple shared copies of the same data base which makes it challenging to wage a data breach attack or cyber-attack . With all the fraud resistant features, the block chain technology holds the potential to revolutionize various business sectors and make processes smarter, secure, transparent, and more efficient compared to the traditional business processes.

Dr. A.V.Sriharsha, Professor of Computer Science and Engineering, Department of CSE, Sree Vidyanikethan Engineering College, has been granted Rs. 3.81 lakhs by AJCTE, New Delhi, for the conduct of One Week Short Term Training Programme on "Blockchain Technologies : Applications and Challenges". Participants from prominent colleges of Andhra Pradesh and Tamilnadu have registered for the Short Term Training Programme. Dr. K. Chandrasekharan, Professor of Computer Science and Engineering in National Institute of Technology, Surathkal (Mangalore), have consented to preside over the Inaugural Function.

#### 01<sup>st</sup> to 13<sup>th</sup> June,2020

Two-Week Faculty Development Programme on **"Internet of Things"** was organized by department of Computer Science and Engineering of Sree Vidyanikethan Engineering College for the benefit of faculty members of CSE, IT, CSSE, ECE and EEE from 01<sup>st</sup> to 13<sup>th</sup> June 2020 in collaboration with APSSDC.

The objective of the FDP is to

- Provide introduction to Internet of Things (IoT)
- Exposure to various sub-fields and technology stacks of IoT
- Enable people to convert their IoT product idea into a working prototype
- Bring-up entrepreneurs and innovators by supporting them with investment and mentorship

Faculty members have learnt

- Basics of sensors, actuators, and transducers, microcontrollers and microprocessors.
- Arduino, Scratch programming, S4A tool, and Arduino IDE
- Thinkercad and some practical examples, Working with analog, digital inputs & outputs
- Interfacing Arduino with Embedded sensors and Actuators
- Arduino & LCD Based Projects
- Creating the app(app designing using MIT) and controlling your hardware with your app.
- Introduction to Cloud, some IoT Cloud Platforms publishing sensor data to a cloud
- Email notifications, app alerts using Blynk cloud
- Industry IoT (IIoT) and use case of IIoT

Program was organized with batch of 90 faculty members and it was coordinated by **Dr. M. Sakthivel**, Assoc. Professor, and **Mr. J. Udaykumar**, Asst. Professor, Department of Computer Science and Engineering.

The resource persons are experienced trainers from APSSDC, Govt. of Andhra Pradesh. They interactively demonstrated, taught and inculcated to the faculty the working with the application. The feedback from participants has been taken to understand and

analyze the resource persons' domain knowledge, content delivery, and interaction during the workshop, can enable the department to organize such workshops in future. Overall, the event was successful.

#### Outcomes:

- > Gained knowledge on Current scenario/job opportunities of IoT industries.
- > Create own Android App using MIT App Inventor and controlling hardware with App.
- > send data to the Internet and talk to the Cloud.
- > update sensor readings on Social Networking Sites.

A Three Day Student Development Programme on

#### "Cloud Services with AWS" 07-09 August, 2019

A Three Day Student Development programme on "Cloud Services with AWS" was inaugurated by Dr. B. Narendra Kumar Rao, Professor & HoD, Dept. of CSE with welcome speech on 07-08-2019 at 09.00 AM. The keynote address was delivered by Mr. Upendra Saniknati, Deloitte Ind, Bengaluru to a total of 75 registered participants.

On the first day (07-08-2019) of the program Mr. Upendra Saniknati, Deloitte Ind, Bengaluru briefed about "**Importance of AWS**" in all the cloud services and special features with introduction to cloud computing. Later he carried the discussion into a technical way by considering AWS console and Major services init.

In the second session after the tea break Mr. Upendra Saniknati, Deloitte Ind, Bengaluru continues his explanation with hands-on practice on **"Creating VPC and different EC2 Instances".** In this session students gained the practical knowledge with AWS services.

The post lunch (third) session of the day-1 started by **Mr. Upendra** with Hands-on all major services like **Load Balancing**, **Auto Scaling**, **RDS**, **SNS**, **Route 53 and Clod watch**. He continuously interacted with students and provided assistance.

Mr. Upendra explaining AWS console

Mr. Upendra Involved in doubts clarification

On the second day (08-08-2019) **Mr. Upendra** started his lecture by considering a small scenario to **"build and host a web application using S3 Bucket"** in AWS. After the discussion he started explaining REST APIs which are most important part to build an application in cloud platform.

The second session of day two handed over to **Mr. Mohammad Ghouse, Redef Consulting, Hyd** and he explained how to create a Lex based chatbot in AWS platform with real-time scenarios. And also he assisted students in building a chatbot for banking applications. The third session again engaged by **Mr. Upendra** to build and deploy an Alexa application with the previous example.

Final session of day two was organized up to 5.45 PM with active participation and interaction by student. In this session **Mr. Mohammad gouse**, Redef Consulting, Hyd explained about machine learning services and API usage to build any kind of application in AWS platform. In this session students gained knowledge on API integration and Machine learning services like Face Recognition, Celebraty Reorganization and video analytics.

Mr. Mohammad Gouse S explaining the architecture of S3 buckets

Mr. Mohammad Gouse S. demonstrating auto scaling

On the Third day (09-08-2019) of AWS programme **Mr. Mohammad gouse S** Redef Consulting, Hyd taken the cloud computing syllabus from **SVEC 16** regulation and explained **five** experiments in the **two consecutive** sessions including PaaS, IaaS and SaaS. The final session of the AWS programme was organized completely like project development an doubts clarification by the experts. In this session **Mr. Mohammad gouse S**, Redef Consulting, Hyd has given a case study to students on Weather forecasting and given suggestion in building and hosting process.

All the sessions of student development programme was organized in effective and interactive way. The programme was concluded with Oath of thanks by **Mr. E. Hari**, Assistant Professor of CSE, SVEC followed by a group Photo.

#### **Outcomes**

After successful completion of the programme students were able to

- Acquire practical exposure on AWS cloud Services
- Develop and host a sample web application using AWS Lambda and S3.
- Execute cloud computing lab experiments of SVEC 16 Syllabus.
- Get the internships offered by various companies who are using AWS services.

#### Three Day Skill Development Program on "Google Android Developer Fundamentals Phase-I" August 9<sup>th</sup>-11<sup>th</sup>, 2018

A Three Day SDP on **"Google Android Developer Fundamentals Phase-I"** was Organized by department of CSE during August 9<sup>th</sup> -11<sup>th</sup> ,2018. A total of 68 B.Tech (CSE) participants registered and attended for the program.

On the first day (09-08-2018) of the program Mr. T. Pavan Kumar Reddy, Android Trainer, APSSDC briefed about **"Installation of Android Studio and creating User Interface"**. The second session was delivered by Mr. Aman Sahai, Android Trainer, APSSDC discussed on **"How to create and use Layouts in Android Development"**. The Afternoon sessions were delivered by Ms.S. Mehrunnisha and Mr. T. Pavan Kumar Reddy, APSSDC, on **"Activity Life cycle and states"** and **"Using Support Libraries"**. The afternoon session was Hands-On Practice where the Students Practiced Programs on basics of Android Application Development.

On the second day (10-08-2018) Mr.Aman Sahai, Android Trainer, APSSDC discussed different issues on "Pickers, how to use Options menu and Creating Radio Buttons". In the Second session Ms.S. Mehrunnisha discussed on "Drawable Styles and Themes". The afternoon session was Hands-On Practice where the Students Simulated Programs on User interface, Layouts and Themes.

On the Third day (11-08-2018) Mr. T. Pavan Kumar Reddy, Android Trainer, APSSDC discussed on **"How to use Espresso to test your Design"**. In the Second session Mr.Aman Sahai, discussed on **"Async Task Loaders"**. The afternoon session was delivered by Ms.S. Mehrunnisha on **" Material Design: Lists, cards and colors "** The next session is Hands-On Practice on simulation of android programs in Google Play store

#### Outcomes:

- Students gained Knowledge in Advanced Concepts of Java and Android User interface
- Students Developed and simulated Programs in the Android Environment
- Students are able to Design Solutions for Real Time problems.

## A Two-Day Workshopon "ENTREPRENEURSHIP AND INNOVATION" Dr. B. Narendra Kumar Rao, Dr. C. Madhusudhana Rao&Dr. J. AvanjiMentors

23rd- 24th October,2019

The Department of Computer Scienceand Engineering of SreeVidyanikethan Engineering College has organized a Two-Day Workshop for Students of III B.TechCSE during 23<sup>rd</sup>–24<sup>th</sup>October, 2019. Sessions were delivered by Dr. B. Narendra Kumar Rao, Professor & Head of CSE, Dr. C. Madhusudhana Rao, Professor of CSSE,& Dr. J. Avanji, Associate Professor of CSE.

#### Entrepreneur:

An entrepreneur is a person who sets up a business, taking on financial risks in the hope of profit.

Entrepreneurs can be classified into two categories:

- 1. Service based entrepreneurs
- 2. Product based entrepreneurs.

The people who run and manage the organizations that provide services are called service based entrepreneurs. The people who run organizations that develop products are called product based entrepreneurs.Robustness,courage,decision making, forecasting and demand accurately are some of the characteristics of entrepreneurs.

With the increasing complexity of the systems, Object oriented designs are the needed nowadays. With the reusability of objects the simple design can be obtained.

Lecture onTechnology Entrepreneurship

#### Some rules of brainstorming:

- Encourage wild ideas.
- Build on the ideas of others.
- Stay focused.
- One conversation at a time.
- Be visual.

#### Thinking process to reframe the problem:

Rethink about the question. Brainstorm bad ideas and unpack your assumptions.

#### Systemic and engineering thinking:

System thinking is an essential skill for Systems Engineers and provides a solid foundation for Systems Engineering. Systems thinking provide a rigorous way of integrating: people, purpose, process and performance and relating systems to their environment.

#### **Thinking Fundamentals**

Lecture on ProductDevelopment

A total of 55 students from III B.TechComputer Science and Engineering have participated in the Workshop. Mr.N.Balakrishna, Assistant Professor, Department of Computer Science and Engineering organized this workshop.

The resource persons are experienced trainers from SVEC, Tirupathi. The feedback on participants are understanding and learning resource person's knowledge, teaching and organization of the workshop, encouraged to organize many workshops like this in future.

Overall, the event was successful.

#### **Outcomes:**

- 1. Students gained knowledge on ENTREPRENEURSHIP.
- 2. Students acquired Starting the VentureManaging the Venture
- 3. Students gained knowledge "positional leadership" "team leadership" Creating

#### A Three-Day APSSDC Workshop on

Mr. M. Naga Satyanarayana & Mr. Polineni Anil, Mentors, APSSDC, Govt.of Andhra Pradesh

29th - 31ST July, 2019

A Three Day Workshop on "**Python Basics**" was organized by department of CSE during July 29<sup>th</sup> – 31<sup>st</sup>, 2019. A total of 58 II-B.Tech CSE participants registered and attended for the program. Dr. M. Sakthivel, Associate Professor and Ms. K. Ghamya, Assistant Professor, Department of Computer Science and Engineering organized this workshop.

On the first day (29-07-2019) of the program Mr. M. Naga Sathyanarayana, APSSDC briefed about "Introduction about Python, Installing and Using of Python" in morning session. The Afternoon sessions were delivered by Mr. Polineni Anil, APSSDC on "fundamental concepts of python programming" in first session. The Second session was Hands-On Practice where the Students Practiced Programs on basics of Python.

On the second day (30-07-2019) Mr. Polineni Anil, APSSDC discussed on "How to add and remove elements from dictionary, getting values from dictionaries, Methods of dictionary" in morning session. The afternoon session was Hands-On Practice where the Students practiced Programs on using Tuples as Keys in Dictionaries.

On the third day (31-07-2019) Mr. M. Naga Sathyanarayana, APSSDC discussed on "Python File System Shell Methods" in morning session. The afternoon session was delivered by Mr. Polineni Anil, APSSDC on "Python - SQLite Database" and also Hands-On Practice on Tortoise program in Python.

#### Outcomes:

- Students gained Knowledge on basic concepts in Python.
- Students Developed and simulated Programs in Python environment.

# A Three-Day Workshopon "ADVANCED PYTHON" Mr. M. Naga Satyanarayana&Mr.Polineni Anil, APSSDC,Govt.ofAndhraPradesh

## 25<sup>th</sup>-27<sup>th</sup>July2019

The Department of Computer Scienceand Engineering of SreeVidyanikethan Engineering College organized a Three-Day Workshop for Students of III B.TechCSE during 25<sup>th</sup> – 27<sup>th</sup>July 2019 in collaboration with APSSDC.

The objective of the workshop is to demonstrate to the students on next level python features such asRegular Expressions, Sockets, XML,JSON useful for transmitting structured data between server and web application,Network connection and Python CGI, SQLite Database connections useful to create as many databases, andPython CGI Crud Operationswhich are helpful to learn how to interface the python program with an SQLite database.

Python is the great choice for building all kinds of applications. Students acquired skills to design and develop client server network applications using python, design GUI applications in python and evaluate different database operations.

A total of 60 students from III B.TechComputer Science and Engineering participated in the workshop. Dr. M. Sakthivel, Associate Professor and Ms.V. Bhargavi, Assistant Professor, Department of Computer Science and Engineering organized this workshop.

The resource persons are the experienced trainers from APSSDC, Govt. of Andhra Pradesh. The feedback on participants' understanding and learning, resource persons' knowledge and teaching, and organization of the workshop, was encouraging to organize many workshops like this in future.

Overall, the event was successful.

#### Outcomes:

F

- 1. Students gained knowledge on advanced concepts in python taught beyond their curriculum.
- 2. Students acquired skills to develop UI based applications using python.

Lecture by APSSDC mentors

Mentors clarifying doubts to students

Students listening to the lecture

#### One week FDP on "R Programming in association with Spoken tutorial project" IIT Bombay

Department of Computer Science and Systems Engineering organizedOne week FDP on **"R Programming in association with Spoken tutorial project" IIT Bombay"** for Computer Science facultyduring December 25.05.2020 To 29.05.2020 at SreeVidyanikethan Engineering College, A. Rangampet.

This FDP introducing R Programming fundamentals, Several excellent code editors are available that provide functionalities like R syntax highlighting, auto code indenting and utilities to send code/functions to the R console and highlighted the building and submission process of R packages, Sample Scripts and Sequence Analysis Utilities.

This FDP focused on R-Data types, R-Variables, Managing Latex BibTeX Databases, Loan Payments and Amortization Tables, Decision making structures require the programmer to specify one or more conditions to be evaluated or tested by the program, along with a statement or statements to be executed if the condition is determined to be true, and optionally, other statements to be executed if the condition is determined to be false and Functions In R, a function is an object so the R interpreter is able to pass control to the function, along with arguments that may be necessary for the function to accomplish the actions.

Faculty learned how to program in R and how to use R for effective data analysis. You will learn how to install and configure software necessary for a statistical programming environment and describe generic programming language concepts as they are implemented in a high-level statistical language. The course covers practical issues in statistical computing which includes programming in R, reading data into R, accessing R packages, writing R functions, debugging, profiling R code, and organizing and commenting R code. Topics in statistical data analysis will provide working examples.

### Two Week Online Workshop on"Android Application Development"

Department of Information Technology, SreeVidyanikethan Engineering College organizedan online Workshop on **"Android Application Development**" in association with APSSDC during 15-27 June, 2020 GoTo Meeting. About 180 students and Faculty members actively participated and acquired mobile application development skills from the FDP sessions.

**Dr. K. K. Baseer,** AssociateProfessor of IT, SVEC welcomed the resource person Mr. Pavan Kumar Reddy Tadi, Developer and Senior Trainerof APSSDC and also participants.

**Mr. G. Uma Mahesh**, AssistantProfessor of IT, SVEC welcomed the resource person Mr. Siva Krishna of APSSDC and elaborated the objectives of the program.

**Mr. Pavan Kumar Reddy Tadi** discussed various concepts from UI to Mobile Application Development through GoToMeeting with live demonstrations. He discussed each topic theoretically as well as made the participants to do practically. Along with him Mr. Krishna helped the participants to clarify doubts at the middle of the sessions.

Mr. Pavan discussed the concepts like installation, intents, life cycle, UI components, Buttons, Input controls, Menus, Pickers, Navigations, backend data, schedulers and saving user data.

The resource person demonstrated many live mobile applications, like Corona live app demonstrated by the resource person.

### Workshop on "Source Code Management & Technical Documentation"

Department of Information Technology organized a Three day online Workshop on **"Source Code Management & Technical Documentation**" in association with APSSDC during May 20-22, 2020 at Sree Vidyanikethan Engineering College, A. Rangampet. About 62 Faculty members are actively participated and gained useful information from all the sessions.

### Day 1:

**Dr. K. Khaja Baseer,** Associate Professor of IT, SVEC welcomed the resource persons Mr. Pavan Kumar Reddy Tadi and Mr. K. Harideep of APSSDC.

Mr.Pavan Kumar Reddy Tadi giving live demonstrations to the participants

**Mr. Pavan Kumar Reddy Tadi** discussed the process to keep track of the different versions of program code and configuration files using a popular version control system (VCS) called Git. He gave guidelines to participants regarding the installation and configuration of Git. He illustrated the Git project which is having three parts the working area, staging area and repository. He explained the usage of Git using CLI commands with live demonstration.

### Day 2:

**Mr. Pavan Kumar Reddy Tadi** explained the procedure for set up an account with a service called Github. Faculty did hands – on by following the live demonstration on speaker in setting account in GitHub and learned the core functionality of Git. Faculties build their resume and applications on GitHub which will help to showcase their abilities to outside industry communities.

### One Week Faculty Development Programme on

"RESEARCH AND INNOVATION"

A One Week AICTE (Under Margdarshan Scheme for Share & Mentor Institutions) Sponsored Faculty Development Programme on **"Research and Innovation**" was organized by the Department of Information Technology from 09<sup>th</sup> to 13<sup>th</sup> March, 2020. All the sessions were handled by eminent speakers from academia and industry. 60 participants from Mentee and Mentor Institutions participated in the FDP. The FDP aimed to provide opportunities to faculty members to enrich their Research and Innovation skills.

The Faculty Development Programme on **"Research and Innovation**" was inaugurated by the following eminent personalities on 09<sup>th</sup> March 2020.

- 1. Dr. P. C. Krishnamachary, Principal, Sree Vidyanikethan Engineering College.
- 2. Dr. V. V. Rama Prasad, Dean (Academics), Sree Vidyanikethan Engineering College.
- 3. Dr. Mohd Abdul Hameed, Assoc. Professor, Osmania University, Telangana

Dr. K. Ramani, Chief Coordinator of FDP welcomed all the dignitaries and participants. In the welcome speech, she highlighted the objectives of the faculty development programme. She said that, if members of faculty want to develop themselves and their students, then attending such faculty development programs would enhance their Research and Innovation skills will enhance quality of institution as whole. Dr. P. C. Krishnamachary, Principal of Sree Vidyanikethan Engineering College appreciated the department of IT for organizing such a programme and welcomed the enthusiastic participants. The chief guest of the inaugural program Dr. Mohd Abdul Hameed, Assoc. Professor, Osmania University, Telangana stressed the importance of Research and Innovation in technical institutions and need of adaptability with the changing global tends across the world.

# Feedback, Assessment Test and Valedictory Function

The Chief Coordinator of the FDP Dr. K. Ramani concluded the program with closing remarks and summarized the program. All the dignitaries present on the occasion appreciated the department for organizing the FDP. Certificates and course material were distributed to all participants. Finally the participants were asked to come on the Dias and share their experience of the whole program. The program was ended on a happy note.

Mr. Ramu, participant from Sri Rama Engineering College, Tirupati, appreciated the organizers for conducting such programs and he requested to mentor on R&D activities.

**Mr. Bhaskar,** participant from Adhitya Engineering College, Madanapalli, appreciated the organizers for conducting such programs and he requested conduct another program on IPR.

# The following feedback was received from the participants:

- 1. 95% of the participants felt that delivery and presentation of the resource persons were good.
- 2. 90% of the participants were of the opinion that the FDP brought practical knowledge of on research problem finding, article writing and Patent searching & filing.
- 3. 90% of the participants felt that the FDP was coordinated very well.
- 4. More than 75% participants rated the FDP Excellent and 25% rated it Very good.
- 5. Participants felt that the boarding and lodging facilities were highly satisfactory.

#### **Outcomes:**

All the sessions were very informative. This FDP helped in equipping the participants with knowledge in Research and Innovation. The role of faculty in research and innovation is demonstrated. The participants learned how to choose a research problem, research article writing, Patent filing, Patent search, Research proposal writing and funding opportunities. The participants also learned Creativity and Innovation through triz and Product development. Last but not the least when the house was open for questions the participants were keen to ask and with the same level of enthusiasm they were justifiably answered by the expert speakers. This FDP will not only helped the participants in their research work but also helped them to know patent filing procedures.

# Group Photo Participants of RI FDP

We are thankful to all participants, speakers, who have attended this FDP enthusiastically without them our FDP couldn't be successful. We are thankful to AICTE for sanctioning the amount to conduct such programme. We extend our thanks to SVEC Management, Dr. K. Khaja Baseer, Mr. P. Bhasha & Mr. G. Umamahesh, Co-Coordinators, Teaching and Non Teaching Staff who helped us to make this FDP a grand success.

### **"MACHINE LEARNING USING PYTHON PROGRAMMING"**

The Department of Information Technology, Sree Vidyanikethan Engineering College in association with Andhra Pradesh State Skill Development Corporation (APSSDC), organized a one week Faculty Development Programme (FDP) on "Machine Learning using Python Programming" from 11<sup>th</sup> to 16<sup>th</sup> November 2019.

The objective of the FDP is to explore different online platforms of Python, concepts of machine learning and to provide hands-on training on statistical & visual tools of Python A total of 45 faculty members from different institutions and members of faculty from different disciplines of Sree Vidyanikethan Engineering College participated in the FDP.

Faculty members gained skills on Python programming and applied skills on Machine Learning problems.

Dr. K. Khaja Baseer, Associate Professor of IT & Member, Data Analytics Research Center and Mr. Ch. Sreenu Babu, Assistant Professor of IT & Member, Data Analytics Research Center organized the FDP under the guidance of Dr. K. Ramani, Professor and HOD, Department of Information Technology and also Convener of the FDP.

### Day 1: 11-11-2019 (Monday)

On this Occasion, Dr. K. Ramani, HoD, Dept. of IT, SVEC highlighted the importance and objectives of organizing this faculty development programme.

### Session-1: (9.30 AM - 1.00 PM)

Ms. M. Sri Lalitha Devi, Trainer cum Developer, APSSDC handled the morning and afternoon sessions and in the morning session, she delivered a lecture on different online platforms of Python such as Jupyter and Azure notebooks and also on mark down Basics of Problem solving.

### Session-2: (2.00 PM - 4.30 PM)

In afternoon session, Ms. M. Sri Lalitha Devi focused on the concepts of Python Basics and Strings with hands-on. The participants were engaged in hands-on practice session on Python basics using Python IDE.

### Day 2: 12-11-2019 (Tuesday)

### Session-1: (9.30 AM - 1.00 PM)

Ms. G. Naga Mounika, Trainer cum Developer, APSSDC handled the morning and afternoon sessions and in the morning session, she delivered a lecture on different data types List, Tuples and Dictionaries concepts with real time examples.

### Session-2: (2.00 PM - 4.30 PM)

In afternoon session, Ms. G. Naga Mounika demonstrated lecture on User defined functions, List Comprehensions, Map, Filter and Lambda concepts with hands-on. The participants were engaged in hands-on practice session on List compression and Functions through Jupyter notebook.

G. Naga Mounika, Trainer cum Developer, APSSDC, clarifying the doubts to the participants at FDP

Sree Sainath Nagar, Tirupati - 517102

### Day 3: 13-11-2019 (Wednesday)

### Session-1: (9.30 AM - 1.00 PM)

Mr. B. Ayyappa, Junior Software Developer, APSSDC handled the morning and afternoon sessions and in the morning session, he covered a lecture on Introduction to Numpy, NumPy Packages, and mathematical operators on nd-arrays concepts with practical examples.

### Session-2: (2.00 PM - 4.30 PM)

In afternoon session, Mr. B. Ayyappa demonstrated lecture on Functions and subpackages in Numpy Vectorize functions and Introduction to Pandas concepts with handson. The participants interacted with resource person and clarified their doubts regarding Numpy module and also engaged in hands-on practice.

### Mr. B. Ayyappa, Junior Software Developer, APSSDC, delivering the

session at FDP

### Day 4-6: 14-11-2019 to 16-11-2019 (Thursday-Saturday)

### Day-4

### Session-1: (9.30 AM - 1.00 PM)

Ms. G. Sumathi, Electronic Engineer Trainee, APSSDC handled the rest of the programme for 3 days both morning and afternoon sessions. In the morning session, she covered a lecture on how to Read the data sets using Pandas (student data) and Data Pre-Processing concepts with real time scenarios.

### Session-2: (2.00 PM - 4.30 PM)

In afternoon session, Ms. G. Sumathi demonstrated lecture with hands-on by considered a Real Time Project (Finding Donars) with Census.csv dataset. The participants were engaged in implementation of real time project through hands-on.

Ms. G. Sumathi, Electronic Engineer Trainee, APSSDC, delivering the session at FDP

Sree Sainath Nagar, Tirupati - 517102

### Day-5

### Session-1: (9.30 AM - 1.00 PM)

Ms. G. Sumathi, continued the session and delivered a lecture on Matplotlib and Seaborn Packages for Visualization concepts with real time scenarios. The participants interacted with resource person and clarified their doubts regarding Numpy, Pandas and Matplotlib modules.

### Session-2: (2.00 PM - 4.30 PM)

In afternoon session, Ms. G. Sumathi demonstrated lecture on Machine Learning concepts such as ho to Applying KNN and Logistic Regression Classifiers on any application datasets with hands-on. The participants were engaged in hands-on practice session on the concepts of machine learning.

Participants are actively doing lab sessions on the concepts of Machine Learning using Python at FDP

Sree Sainath Nagar, Tirupati - 517102

### Day-6

### Session-1: (9.30 AM - 1.00 PM)

Ms. G. Sumathi, continued the session and delivered a lecture on Recency, Frequency and Monetory Analysis (RFM) with real time examples. The participants interacted with resource person and clarified their doubts regarding clustering, classification and regression concepts.

### Session-2: (2.00 PM - 4.30 PM)

In afternoon session, Ms. G. Sumathi demonstrated lecture on how to use the concept of Grouping Using Pandas module and how to apply K-means algorithm on different application datasets with hands-on. The participants were engaged in implementation of real time project through the concepts of RFM and K-means.

Participants are actively listening the sessions at FDP

At the end of the programme, **Mr. S. V. V. Ramana, Project Director, APSSDC-Siemens and Engineering**, taken the feedback and suggestions from the participants to enhance the programme in future and **Dr. K. Khaja Baseer**, Associate Professor and Member, Data Analytics Research Center, Dept. of IT, SVEC was concluded with a vote of thanks.

College was established in 1996 by Sice Vidyanikathan cational Trust under the stewardship of Dr. M. Mohan Babu, mo Shri Awardee, renowned film artiste and former member arkament (Rajya Sabha).

proved by AICTE, New Delhi and affiliated to Jawaharlal hre Technological University, Anontaperame.

e college conferred 'Autonomy' by UGC, New Delhi.

- UG and 4 PG Programs are accredited by National Board of NBA), New Dolini. :coedite worded College with potential for Excellence' by UGC, New
- Jelhi under XII Plan period UGC-CPE scheme.

The college is accredited with "A" grade by NAAC

Offers B.Tech Program in OS disciplines, M.Tech Program in OS specializations and MCA.

- Extensive Computing facilities with 2000+ computers. Centrolly Air-consistoned Auditorium, e-class Rooms and
- Seminar Halls. Completed TEQIP-II under Sub Component1.1: Strengthening Institution to improve learning outcomes and employability of graduates with a grant of Rs.4 Crores. An additional fund of Rs. 2 crores obtained as one of the best performing Institution MoUs with 20 Industries/Institutions including IIT-Hyd,
- IITM-QEEE, CII-Hyd & ISB-Hyd.

Vibrant placements for both UG & PG.

### IOUT THE DEPARTMENT

The Department of Information Technology was established in the year 1997 with an intake of 30 in B.Tech (IT) program. The intake has been increased to 60 during the year 1998-1999 and further increased to 120 during the year 2000-2001. The department offers M Tech Program in Software Engineering from the academic year 2009-10.

The Deportment is headed by Dr. K. Ramoni, who has 21 years of teaching experience and is supported by well qualified faculty.

### UNDER MARGDARSHAN SCHEME FOR SHARE AND MENTOR INSTITUTIONS) SPONSORED ONE-WEEK FACULTY DEVELOPMENT PROGRAMME ON "EFFECTIVE TEACHING AND OUTCOME BASED EDUCATION"

A one week AICTE (Under Margdarshan Scheme for Share and Mentor Institutions) sponsored Faculty Development Programme on **"Effective Teaching and Outcome Based Education**" was organized by the Department of Information Technology from 11<sup>th</sup> to 16<sup>th</sup> November 2019. All the sessions were handled by eminent speakers from academia. 40 participants from Mentee and Mentor Institutions participated in the programme. The programme aimed to provide opportunities to the members of faculty to enhance their teaching-learning skills using effective teaching methods through ICT platforms and implement outcome based education at their institutions.

The FDP on **"Effective Teaching and Outcome Based Education**" was inaugurated by the following eminent academicians on 11<sup>th</sup> November 2019.

1. Prof. I. Venugopal Reddy, Advisor cum Director, Sree Vidyanikethan Educational Trust.

2. Dr. P. C. Krishnamachary, Principal, Sree Vidyanikethan Engineering College.

3. Dr. Thamaraiselvan Natarajan, Associate Professor, NIT Tiruchirapalli

Dr. K. Ramani, Chief Coordinator of FDP welcomed all the dignitaries and participants. In the welcome speech, she highlighted the objectives of the faculty development program. She opined that, if the members of faculty wish to develop themselves and their students, attending faculty development programs enhances their skills of teaching concepts effectively through ICT and practicing outcome based education enhance quality of institution as whole.

Dr. P. C. Krishnamachary, Principal of Sree Vidyanikethan Engineering College appreciated the department of IT for organizing the programme and welcomed the enthusiastic participants.

The chief guest of the inaugural programme Dr. Thamaraiselvan Natarajan, Professor, NIT Tiruchiarapalli spoke about the importance of Outcome Based Education in technical institutions and need of adaptability with the changing global trends across the world.

**Ms. Ch. Manjusha,** a participant from Narayana Engineering College, Gudur, appreciating the organizers for conducting such programs and she requested to conduct another one week programme on NBA Accreditation.

### The feedback received from the participants:

- 1. 95% of the participants felt that delivery and presentation of the resource persons were good.
- 2. 90% of the participants were of the opinion that the FDP brought practical knowledge of on LMS platforms, Active Learning methods and OBE.
- 3. 90% of the participants felt that the FDP was done very well.
- 4. More than 75% participants rated the FDP excellent and 25% rated it very good.
- 5. Participants felt that the boarding and lodging facilities were highly satisfactory.
- 6. Some participants felt that more activity based sessions may be included.
- 7. One participant expressed that a few more case studies should have been included.

### **Outcomes:**

All the sessions were very informative. The FDP helped in equipping the participants with knowledge in Outcome Based Education and adopt ICT based teaching methods. The role of faculty in creativity based learning was demonstrated. Activity based learning methods demonstrated, so that participants can implement the same in their institutes. Active learning methods such as Flipped Classroom and Blended Learning, Think-Pair-Share, Lecture video creation tools enabled participants to practice the same in their teaching. Various LMS platforms such as Canvas and Moodle Cloud implementations are demonstrated, so that the participants can implement at their respective institutions. A detailed discussions and practical sessions held on Outcome Based Education, so that the participants can adopt the same for quality improvement of their respective institutions. Last but not the least when the house was open for discussion, the participants were keen to ask and with the same level of enthusiasm they were justifiably answered by the expert speakers. The FDP not only helped the participants in their curriculum development, teaching methodology but also helped them to know evaluation tools.

### About the Institute:

Sree Vidyanikethan Engineering College was established in the year 1996 by Dr. M. Mohan Babu has grown in its size and stature over the years. The College now offers 5 Diploma, 8 B.Tech. Programs, 8 M.Tech. Programs, MCA Program and 3 Doctoral Programs with an intake of 2112. The College is located in a sprawling campus amidst sylvan surrounding with aesthetically built infrastructure at Sree Sainath Nagar area in the temple town Tirupati. The College is known for its quality initiatives which are reflected in accreditations by NBA, NAAC and many Multinational organizations such as TCS and IBM. The College is accorded Autonomous Status by the UGC, New Delhi from the Academic Year 2010-2011. The College has been accorded "UGC-Colleges with Potential for Excellence" status under CPE Scheme by UGC, New Delhi, accorded 'PLATINUM' category by CII-AICTE Survey and Conferred with 'A' Grade by Department of Higher Education, Andhra Pradesh. SIEMENS has established 6 State-of-the art t-SDI laboratories.

### Location

The college is located 15 km from the temple town of Tirupati on Tirupati-Madanapalle National Highway No.205.

### **About Civil Engineering Department:**

The Department of Civil Engineering was established in the academic year 2009-2010 with an intake of 60 students. Further the intake of students has increased from 60 to 120 during the academic year 2011 -12. The Department has experienced and dedicated teaching faculty. The Department is endowed with well established laboratories with sophisticated instruments and the Department is surging ahead with research, consultancy and testing services as the prime development initiatives in domain of civil engineering. The Department has MoUs with various companies and many companies regularly visit the institute for campus recruitment.

### **Program Objective:**

Civil Engineering is one of the oldest engineering disciplines which has advanced according to the changing trends with time. The advancements in computing techniques has made the modeling and analysis much easier and this has given a scope for the development of models at micro level. With the improvement in the utilize total station and other modern survey instruments are incorporated and as a result an entirely new construction practices are being adopted. In this scenario, it is necessary for faculty, academicians and practicing engineers to equip themselves with the latest trends and developments that have been taking place.

This program aims in bringing together the researchers and practicing engineers to share their ideas and experiences with the faculty in the field of construction technology. This program will be helpful for the faculty to understand the technicalities of this field and making them aware of the advancements therein.

### **Program Outline:**

Leading experts from academics will present their theories, concepts and practical solutions for the problems encountered in varied fields of advanced surveying.

### **Program Schedule:**

- Astronomical Surveying
- Construction and Boundary Surveys
- Theory of Errors and Land Surveys
- Total Station & GPS Surveying

#### Faculty Development Program on "Advanced Surveying"

The Department of Civil Engineering of Sree Vidyanikethan Engineering College organized a Faculty Development Program on **"Advanced Surveying"** on **23<sup>rd</sup> November 2019** for the benefit of Civil Engineering faculty. The objective of the program is to share knowledge and experiences with the faculty in the field of civil engineering. This program is helpful for the faculty to understand concepts of Advanced Surveying and making them aware of the advancements therein.

**Dr. P. Ramesh** and **Dr. D. Sreenivasulu,** Associate Professor, Department of Civil Engineering, SVEC delivered a Faculty Development Program "Advanced Surveying" at Seminar Hall, Department of Civil Engineering, SVEC. He explained the ideas and knowledge on Advanced Surveying, Various practice and their importance etc., to all the faculty members. Further, he emphasized the joy and proud of civil engineering and its applications to society and industry.

A total of **20** faculty members from Civil Engineering from the host institution were participated in the Program. Dr. O. Eswara Reddy, HoD, Professor and BOS Chairman, Department of Civil Engineering, SVEC is convenor of event; Mrs. P. Lakshmi Teja, Assistant Professor, Department of Civil Engineering, SVEC is coordinator of event and all faculty members graced the occasion.

On the whole, the one-day national level FDP has proved successful. The purpose of the FDP is fulfilled and participants are beneficial. Participation certificates were distributed to all the participants.

#### Department: CIVIL ENGINEERING | Date: 4-6 June 2020

#### A Three Day National Level Online Faculty Development Program on "Rehabilitation and Retrofitting of Structures – R<sup>2</sup>S"

The Department of Civil Engineering of Sree Vidyanikethan Engineering College has organized A Three Day National Level Online Faculty Development Program on **"Rehabilitation and Retrofitting of Structures – R<sup>2</sup>S"** during **4-6 June 2020** for the benefit of Civil Engineering faculty and practicing engineers.

The resource persons were eminent personalities of top order from the Academia and Industry like **Dr. Manamohan R. Kalgal**, Technical Advisor, UltraTech Cements Ltd.; **Dr. H. Sudarsana Rao**, Director (ICS), JNTUA Anantapur; **Mr. M. N. Ramesh**, Managing Director, Talrak Construction Chemicals Pvt. Ltd., Bangalore; **Dr. K. Balasubramanian**, Managing Director, Hitech Concrete Solutions Pvt. Ltd., Chennai; **Er. P. Srinivasa Reddy**, Chairman, ICI – Hyderabad Centre, Hyderabad; **Dr. Romanbabu Oinam**, Assistant Professor, IIT Tirupati, Tirupati; **Mr. G. Hari Prasad Rao**, South Zonal Head/Technical Services, JSW Cements Ltd., Hyderabad.

The FDP program received an overwhelming response with **884 participants** from various engineering colleges across our country including IITs, NITs and also from top industries in our country. Participants include Professors, Research Scholars, Entrepreneurs, and Industry Personnel. Dr. O. Eswara Reddy, Professor, HoD and Chairman-BoS, Convener-R<sup>2</sup>S, Mr. M. S. Yuvaraj, Assistant Professor, Coordinator-R<sup>2</sup>S and other faculty members of Civil Engineering Department were the organizers of this program.

On the whole, the three day national level online FDP has proved successful. All the companies were positively responded to sign MoU with the Department of Civil Engineering, SVEC in the fields of research, consultancy, internships, projects, training and placement. The purpose of the FDP is fulfilled and all the delegates and participants are beneficial. Participation certificates were distributed to all the participants.

The photographs of the program are as follows.

### Staff Development Programme on "Civil Engineering Materials & Concrete Technology Lab"

The Department of Civil Engineering of Sree Vidyanikethan Engineering College organized a Staff Development Programme on **"Civil Engineering Materials & Concrete Technology Lab"** on **24<sup>th</sup> February 2020**. The objective of the program is to share knowledge and experiences with the staff in the field of civil engineering. This program is helpful for the staff to understand Civil Engineering Materials & Concrete Technology and making them aware of the advancements therein.

**Ms. M. S. Yuvaraj,** Assistant Professor, Department of Civil Engineering, SVEC delivered a Staff Development Programme on "Civil Engineering Materials & Concrete Technology Lab" at Concrete Lab, SVEC. He explained the ideas and knowledge on Civil Engineering Materials & Concrete Technology, Various experiments practice and their importance of Civil Engineering Materials & Concrete Technology etc. to the staff. Further, he emphasized the joy and proud of civil engineering and its applications to society and industry.

A total of **07** staff members from Civil Engineering from the host institution were participated in the training program. Dr. O. Eswara Reddy, HoD and Chairman - BOS, Department of Civil Engineering, SVEC is convenor of event; Mr. M. Gokulnath, Assistant Professor and Concrete lab-in-charge, Department of Civil Engineering, SVEC is coordinator of event graced the occasion.

### "HOW TO FILE A PATENT"

### 07<sup>th</sup> JULY 2020

The main purpose of patent system is to encourage innovation and eventually results in technological development. The present Patents Act, 1970 came into force in the year 1972, amending and incorporating the existing laws relating to Patents and Designs act 1911 in India.

A patent provides a right to an inventor(s) to exclude others from exploiting the patented invention. Therefore, other than the inventor cannot use, make or sell the patented invention without permission from the inventor. This is often referred to as the exclusive right of the invention With this objective, an online guest lecture on "How to file a patent" was organized in the department on 07<sup>th</sup> JULY 2020. Mr. Balaji Devarajan, IP Consultant at Kama Ayurveda Chennai, India was the resource person. The program started with the felicitation to the speaker Mr. Balaji Devarajan.

Mr. Balaji Devarajan presented a lecture on "How to file a patent" in which he explained the importance of patent filing, types of patent principles, one case study with example.

"How to Identify an Innovative Project"

### 06<sup>th</sup> JULY 2020

Innovation refers to creating more effective processes, products, and ideas. It can also increase the likelihood of our project succeeding and can create more efficient processes that can result in better productivity and performance.

Innovation is important to the advancement of society as it solves these kinds of social problems and enhances society's capacity to act. It's responsible for resolving collective problems in a sustainable and efficient way, usually with new technology and quickly responding to the external challenges by developing human as well as technological resources to do things differently.

Innovation in education encourages teachers and students to explore, research and use all the tools to uncover something new. It involves a different way of looking at problems and solving them. The thinking process that goes into it will help students develop their creativity and their problem solving skills.

With this objective, an online seminar on "How to Identify an Innovative Project" was organized in the department on 07<sup>th</sup> JULY 2020. Dr. T.Lakshmanan Professor, Department of Mechanical Engineering S.R.M University, Chennai, India was the resource person. The program started with the felicitation to the speaker Dr. T.Lakshmanan.

Dr. T.Lakshmanan presented a lecture on "How to Identify an Innovative Project" in which he explained the importance of innovation, How does innovation contribute to success, What is the importance of innovation in education.

The Department is conducting various knowledge development programs such as symposiums, workshops, technical paper contests at the National level for the benefit of the faculty and students.

### About the Programme:

Dynamics of fluid play an important role in nature. Almost all the objects that exist in nature either have fluid flowing inside or surrounding it. Hence the study of fluid dynamics has become an important aspect of understanding nature as such. In order to study the dynamics of the fluids, three primary approaches have been conceived, 1. analytical, 2. experimental, and 3. numerical. A certain class of fluid dynamics problems uses the numerical approach for getting the primary insights, as the first two approaches would not be feasible at all. In the third approach, numerical methods are applied to governing equations and are popularly known as Computational Fluid Dynamics (CFD). CFD is both an art and science of getting solutions that involve fluid flow, heat transfer and associated phenomena by means of numerical simulations on digital computers. OpenFOAM (Open source Field Operation and Manipulation) is a free and open source toolbox which is used in academia and industry to solve problems of Computational Fluid Dynamics (CFD).

### **Objectives:**

The objective of this course is to introduce the fundamentals of CFD and OpenFoam. In this program, OpenFOAM is used as tool for solving CFD problems.

### Course contents:

- Basics of Fluid Dynamics (Governing equations)
- Introduction to Numerical Methods
- OpenFOAM as alternate tool
- Case studies with OpenFoam

### **Eligibility:**

This program is open to the Faculty members of AICTE approved Engineering colleges.

### "COMPUTATIONAL FLUID DYNAMICS USING OPENFOAM" 20<sup>th</sup> to 21<sup>st</sup> December, 2019

The Department of Mechanical Engineering organized a Two-Day Faculty Development Programme (FDP) on "Computational Fluid Dynamics Using Openfoam" during **December 20-21, 2019.** 

### **DAY 1:**

**Key Note Address: Dr. V. Ganesan,** Research Advisor, Department of Mechanical Engineering, SVEC delivered a lecture on **"CFD AN OVER VIEW AND ITS APPLICATION TO ICE and GTC"**. He described the role of CFD in the case Internal Combustion Engines and Gas Turbine Engines. The participants interacted with the resource person and got their doubts clarified.

### DAY 2:

Morning Session & Afternoon Session: Dr. Ramesh Kolluru, Postdoctoral fellow, Department of Aerospace Engineering, IIS, Bangalore, delivered a lecture on CFD using OpenFoam. He trained the participants on downloading and installing the OpenFoam software. Later on, he solved CFD problem using OpenFoam. In the Afternoon Session, he discussed the topics "Laplacian Foam and Ico Foam" and "Scalar Transport Foam". The participants interacted with the resource person and gained knowledge on steady or transient transport equation for a passive scalar, Transient solver for Incompressible, Laminar flow of Newtonian Fluids and Lid driven cavity problems. Dr. Ramesh Kolluru also discussed "Rho Central Foam and Xiengine Foam" focusing on density based compressible flow solver Supersonic flow over Forward Facing Step and solver for internal combustion engines.

### **Courses offered**

The college offers B.Tech programs in CSE (240), IT (120), EEE (240), ECE (240), EIE (120), CSSE (120), Civil (120) and Mechanical (180). The college also offers M.Tech in Computer Science, Computer Networks & Information Security, Software Engineering, Electrical Power Systems, Digital Electronics & Communication Systems, Communication Systems, VLSI.

### About the Department

The Department of Mechanical Engineering in Sree Vidyanikethan Engineering College was established in 2011 with an intake of 60. In the year 2012-13 intake has been increased to 120 students besides starting a diploma course with an intake of 60 students. In the year 2013-2014 intake has been increased to 180 and diploma 120. At present, the Department has 6 Professors, 9 Associate Professors and 30 Assistant Professors. The Department is conducting various knowledge development programs such as symposiums, workshops, technical paper contests at the National level for the benefit of the faculty and students.

### About the Programme

Scilab is free, open source, cross platform software for numerical computation. It provides a powerful computing environment for engineering and scientific applications. Scilab provides functionalities comparable to existing state of the art commercial products. Scilab is one of the open source alternatives to MATLAB. Hence, almost anyone who has to carry out any computation will find this program extremely useful. It can be used for data analysis, signal processing, image enhancement, fluid dynamics simulations, numerical optimization. This program is to empower the participants with a working knowledge of Scilab. The emphasis will be on how Scilab fits in teaching theoretical and laboratory courses.

### **Objectives**

The participants will gain the following:

- Understanding the features and capabilities of Scilab
- Programming with Scilab
- Modeling advanced engineering problems with Scilab and its toolboxes

### **Eligibility**

This program is open to the technical staff (lab technicians) of AICTE approved Engineering colleges.

### **Registration fee**

- Registration fees : Rs. 100/-
- Participants can email the Scanned registration form to the convener of the programme and submit the original while attending the programme.
- Participants are limited to 40. Selection will be based on first come first serve basis
- No TA/DA is provided.

### "SCILAB for Engineering Computation"

Department of Mechanical Engineering organized an ICT based Two-Day Faculty Development Programme on "SCILAB for Engineering Computation" during 20<sup>th</sup> to 21<sup>st</sup> September, 2019. Dr. V. Ganesan, Professor (Superannuated), IIT Madras & Research Advisor, Dept of ME, SVEC and Dr. Vijayashree, IIT Madras were the resource persons of this program.

During inaugural session, Dr. K.C. Varaprasad, Professor & Head, Department of Mechanical Engineering accentuated on the need for oraganizing this program. This program was organized to empower the faculty members with a working knowledge on Scilab. The emphasis was given on how Scilab fits in teaching theoretical and laboratory courses.

The resource persons dealt the following concepts with hands-on training sessions:

- Features and capabilities of Scilab
- Programming with Scilab
- Modeling advanced engineering problems with Scilab and its toolboxes

Dr. V. Ganesan emphasized the prominence of Scilab to the participants. Scilab is a free, open source, cross platform software for numerical computation. It provides a powerful computing environment for engineering and scientific applications. Scilab provides functionalities comparable to existing state- of- the- art commercial products.

As mentioned by Dr, Vijayashree, Scilab is an open source alternative to MATLAB and is becoming an industry standard for scientific and technical computing. Hence, almost anyone who has to carry out any computation will find this program extremely useful. It can be used for data analysis, signal processing, image enhancement, fluid dynamics simulations, numerical optimization.

The theoretical concepts were dealt by the resource persons and hands-on training was provided through tutorials. Basic computations, Matrices, Plotting and advanced applications were discussed during the training. The resource person encouraged the participants to show interest on the Scilab programming by providing challenges and announced cash prizes to the participants.

### A ONE - DAY SOFT SKILL DEVELOPMENT PROGRAMME ON "TIME MANAGEMENT AND CORPORATE ETHICS"

Mr. P. Bhanu Prakash delivering the talk

During his session, Mr.Bhanu Prakash discussed "Time management and Corporate Ethics" delivered below points to the students of Mechanical Engineering on 12<sup>th</sup> July 2019.

- Time Management is one skill that every individual should possess for attaining their objectives
- He started the session with a quote "Time and Tide wait for none". An individual should understand the value of time for him to succeed in all aspects of life. People who waste time are the ones who fail to create an identity of their own.
- Time Management plays a very important role not only in organizations but also in our personal lives.

- Time Management includes: Effective Planning, Setting goals and objectives, Setting deadlines, Delegation of responsibilities, Prioritizing activities as per their importance, Spending the right time on the right activity.
- For Effective Time Management one needs to be: Organized their schedules, Identify and avoid waste of time, and be focused.
- Finally he also shared various strategies that improves time management by suggesting few points to the students.
- Finally he suggest students to Don't procrastinate, Schedule yourself, Prepare Must, Stay away from distractions, Prioritize your tasks, Delegate some tasks, Good housekeeping, Keep yourself stress free, Have courage to say NO, and Review daily progress.
- He shared worthy point on corporate ethics like, always help others, Be Honest- don't lie, follow the rules and policies, respect Others, Be loyal and Hardworking and Do Right and follow right.
- Finally he concluded, if one individual can adhere to the above ethics many other corporate evils such as gossiping, cheating, hiding, manipulating and complaining will be discarded.
- He also motivated students to look in to start-up that shine nations as well as individuals.
- Start-up's is the best option to start a job career after college.
- In Start-up every employee is a thinker and do-er, where as in MNC's only top management think and rest employees have to act.

SREE VIDYANIKETHAN ENGINEERING COLLEGE (AUTONOMOUS) Sree Sainath Nagar, Tirupati - 517102

Mr. P. Bhanu Prakash addressing the students on Time Management and Corporate Ethics

- Start-up's encourage risk taking abilities.
- Start-up's only look for young unlike MNC look for experienced.
- Startup India is a flagship initiative of the Government of India, intended to build a strong ecosystem for nurturing innovation and Start-ups in the country.
- Indian startups aim is to promote entrepreneurship, construct entrepreneurial competences at scale and strengthen early phase support for startups by gathering together key stakeholders of the network including startup incubators / accelerators, angel investors, venture capitalists, startup support groups, mentors and technology corporations.

- Incubation centers have emerged as a vital source of investment and support for new businesses and foster youthful firms, helping them to survive in their early phase. Incubators offer infrastructural support, stage to do networking, administrative assistance and other supportive activities to start new business.
- Strategies and change occurs from every employee/customer in Start-up's, where as in MNC it happens in board rooms only.

### Two-week Faculty Orientation Program on English Speaking & Writing Skills 13to 24 July 2020 & 3 to 14August 2020

Sree Vidyanikethan Engineering College organized a Two-week Faculty Orientation Program on **English Speaking & Writing Skills**exclusively for the faculty of Sree Vidyanikethan. The program was scheduled in two slots for 14 batches. The first slot was conducted from 13 to 24 July 2020 and the second slot was from 3 to 14 August 2020 online.

The twin objectives of the program were to train the faculty to use *English Language* effectively in day to day speaking and writing, and to make faculty utilize lockdown period productively.

The English Faculty of Sree Vidyanikethan were the resource persons. They made the sessions interactive and informative. Besides online sessions, a workbook on speaking and writing was prepared, and distributed to the participants to practice and enhance their learning. Around 450 members of faculty actively participated in the program and obtained the nuances of speaking and writing.

Ms. G.M. Madhavi, Assistant Professor of English, Department of Basic Sciences and Humanities was the Convenor of the program. E-certificates were generated and mailed to the participants.

#### A Refresher Program

on

#### "Cloud Infrastructure and Services"

A Refresher Programon "**Cloud Infrastructure and Services**" is organized by Department of MCA, SVEC from 20<sup>th</sup> to 22<sup>nd</sup> August 2019. The target group is faculty members from Computer Science departments.

The primary objective of theprogram is to introduce the concepts of cloud Infrastructure and cloud Services. More than 20 faculty members have attended the program. The outcomes of the refresher program are:

- Gained knowledge on phases of transition from classic data center to virtual data center.
- Participants are able to analyze the virtualization technology at compute, storage, network, desktop, and application layers of IT infrastructure
- Analyze cloud infrastructure components and service management process.

On Day1(20-08-2019), session 1 (2:30PM to 3:30PM),the resource person**Dr. M. Sunil Kumar**, Professor, Department of CSE, SVEC, explained the concepts of cloud and related topics that will help the faculty to enhance their skill-knowledge in the field of cloud computing and security. The resource persondiscussed about the key characteristics and services of cloud computing. Day 1 (20-08-2019) session 2 (3:30PM to 4:30PM) **Ms.M. SowmyaVani**, Assistant Professor, Department of MCA, SVEC, discussed the concepts of Virtualization and its working architectures at compute, storage, network, desktop and application layers of IT Infrastructure.

Day 2 (21-08-2019) session 1 (2:30 PM to 3:30PM) the resource person **Dr. M. Sunil Kumar,** discussed the phases of transition from classic data center to virtual data center in the cloud.

#### "Python Web Development using Django"

A Workshop on "Python Web Development using Django" is organized by the Department of Master of Computer Applications, SVEC during 7<sup>th</sup> January 2020 to 9<sup>th</sup> January 2020.

The main objective of the workshop is to provide insights and hands-on training for faculty on Python Programming, Python web application frameworks to deploy applications for processing the user requests and data management to develop robust and scalable web applications.

The outcomes of workshop are as follows:

- Gain knowledge on Python Programming and frameworks.
- Develop robust and scalable web applications using python frameworks.
- Train the participants by conducting hands-on sessions on web application development using python.

On the day1 the resource person**Mr.V.Lokanadham Naidu**Assistant Professor(SL),Department of IT, SVEC, deliveredthe fundamentals of python programming language, writing and running code in pycharm and data structures. He also explained the implementation of object oriented programming concepts using Python.

Resource person Mr. V. Lokanadham Naidu delivering on Modules and Packages of Python

On the second day of the program the other resource person Mr. V. Harshavardhan,

(AUTONOMOUS) SreeSainath Nagar, Tirupati - 517102

Assistant Professor, Department of MCA, SVEC, explained the creation and usage of modules and packages of python programming. He discussed the importance of Django and demonstrated the Django web framework for the development of web applications and ORM layer of Django for interaction with the database.

Resource person Mr.V.Harshavardhan delivering Django frame work

On the third day, they had given hands-on exposure on how to create Djangoand Forms for the development of web applications using python. At the end valedictory is organized for the participants and certificates are distributed.
