## REPORT

A 3-Day Online Guided free workshop on "**PRANAYAMA, MEDITATION & ASANA**" was organized under NSS, IEEE-WIE Affinity Group and Women Empowerment Cell by Department of Electrical and Electronics Engineering, Sree Vidyanikethan Engineering College, Tirupati in association with **Art of Living Organization** for the benefit of undergraduates students, postgraduates students and faculties of various department and various institutions.

The 200 participants who have enrolled for this workshop were divided into 5 batches and each batch was headed by well trained faculties from Art of Living organization. The speaker of the session was Dr. Harish Saranam, Dr. Sairam Kumar, Ms. Soumya Kotha, Dr. Sai Krishna Kumar and Ms. Kranthi Yerramsetty who have trained the students and faculties of the workshop on 28-05-2021 virtually through Zoom platform between 5.30 pm to 06.00 pm.

The session started with the welcome note by Dr.M.S.Sujatha and Mr.G.Kuladeep, Co-Ordinator of the workshop.

Art of living has recognized that the fear and anxiety of the pandemic, the stress from the lockdown and isolation; and the uncertainty about the economy, jobs and future were affecting people’s mental health and well-being. So they have immediately launched this Immunity Enhancement Program. The main thought of this program is to speak to different segments of society suggesting everyday solutions for lockdown; providing tips for health and immunity; guidance on leadership and working from home; strengthening relationships and taking care of children and teens.

**Picture 3 : trainer from art of living playing motivational video on Pranayama**

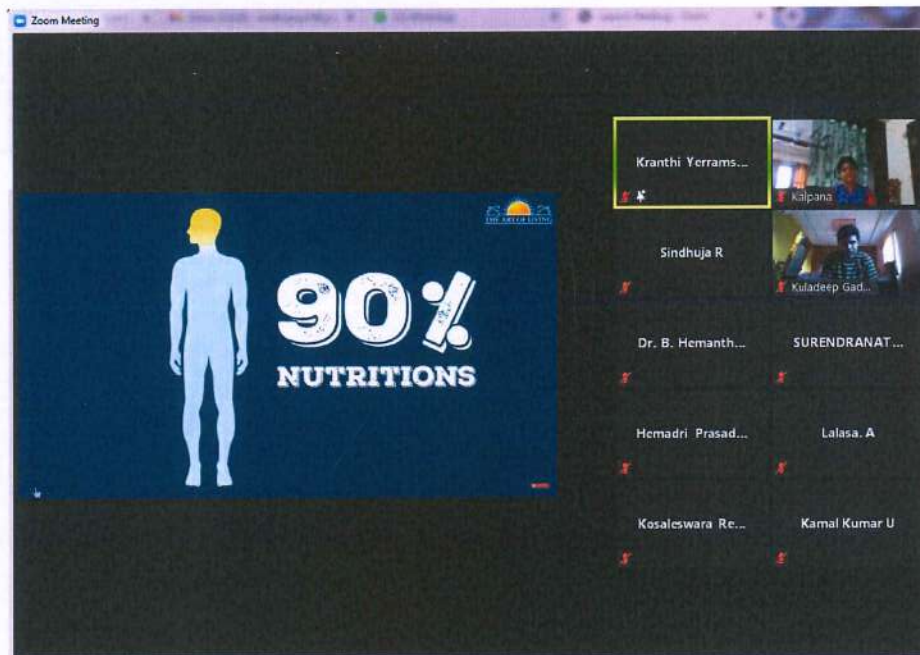

The session started with a short meditation for beginners followed by "Can yoga help me boost immunity? Can I practice yoga during the COVID-19" The answer is yes.

Regular practice of yoga has shown effective results. Different asanas boost immunity, build the body's strength, increase energy levels, bring down anxiety and stress, infuses positivity and freshness in the mind. Lack of sleep, poor nutrition, and life stress all lead to a weakened immune system and vulnerability to sickness. Stress, more than anything, leads to a breakdown in the body's ability to defend itself against bacteria and viruses. When stressed, the hormone cortisol stays in the blood for extended periods of time, which the body develops resistance to, leading to increased inflammation.

Picture 4: power point presentation on plasma prolactin and cortisol levels through SKY

**Picture 5: Trainer's power point presentation on food diet and nutrition**

When sick, antibiotics and other medicine can help the body recover from the disease. However, what medicine fails to do is improve the body's immune system. This is where yoga comes to the rescue! Yoga is one of the most effective and time-tested natural immunity boosters that can lead to a healthy, sickness-free body.

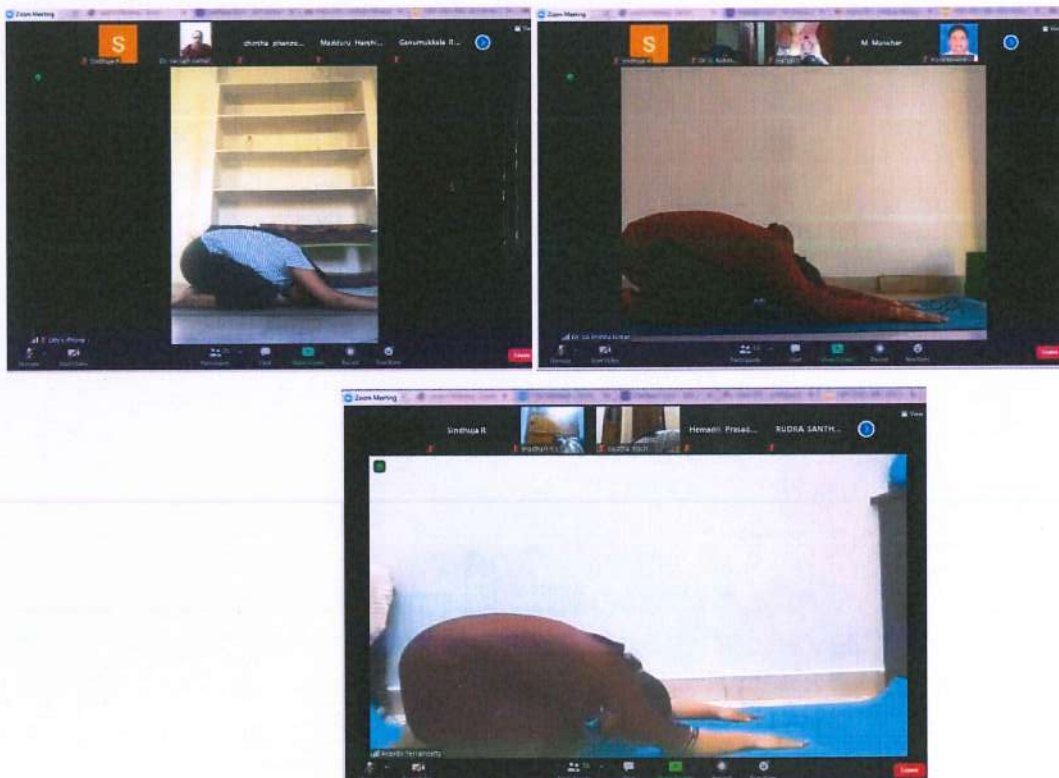

Ms. Kranthi Yerramsetty added fact that Yoga lowers stress hormones and strengthens the nervous system while also stimulating the lymphatic system, which removes toxins from the body. Yoga calms the mind and can contribute to deeper, regulated sleep, which is crucial for wellness; sleep is one of the most important factors in healing and maintaining a healthy immune system.

Picture 6: trainer's presentation on different moods of the man in different situations

The faculties added simple yoga poses that boost immunity during COVID-19 situation.

**Shishuasana** (Child pose) is an excellent pose to decongest the chest and relax the mind.

Picture 7: Volunteers along with trainers are practicing pranayama , asana and meditation

**Setu Bandhasana** (Bridge pose) opens the heart and improves blood circulation, increasing energy in the body.

**Picture 8: Volunteers practicing Setu Bandhasana (Bridge Pose) in Yoga**

**Bhujangasana** (Cobra pose) stimulates the thyroid gland, strengthening the nervous system.

**Picture 9: Volunteers practicing Bhujangasana (Cobra Pose) in Yoga during Session**

In order to maintain the oxygen levels speaker of the session added few more mudras. Mudras used in combination with yogic breathing exercises enliven the flow of prana in the body, thereby energizing the cells in the body. These mudras mentioned here could help those afflicted by COVID and are in their recovery phases.

### Prana Mudra:

**Picture 10 : Trainer and volunteers Practicing Prana Mudra in Pranayama**

Prana Mudra can greatly improve your body's immune system and it also stabilizes your mind. The relaxation effect of the mudra decreases nervousness and helps improve one's confidence. It also brings more balance and stability to the mind, thereby curing any sleeping or eating disorders you may have been afflicted with. Ms. Soumya added that practicing this mudra also reduces, and sometimes removes, any deficiencies caused by a lack of essential vitamins (A-K).

### Apana Mudra:

**Picture 11: Volunteer's Apana Mudra pose in workshop**

Apana Mudra relieves back pain, detoxifies body, good for those suffering from breathing disorder, strengthens immune system, control diabetes and enables easy childbirth.

### Pranayama:

Pranayama is not just breath control as commonly perceived but it is the control of prana through the breath. These techniques involve breathing through the nostrils in a specific pattern of inhalation, breath retention, exhalation. Some common yoga breathing

exercises include Bhramari pranayama, Kapalbhati Pranayama, Bhastrika pranayama, Ujjayi breathing and Nadi Shodhan pranayama.

It helps in promoting correct breathing. By breathing properly in a correct manner, the oxygen supply to the brain and blood vessels increases. It alleviates asthma symptoms, reduces stress, and increases mental strength. It gives you strong will power and helps in living a long and healthy life.

**Dr. M M KESAVULU READING OUT Dr. ANIL JOSEPH’S PROFILE**

The World Environment Day has been started celebrating as an annual event on 5th of June since 1973 at the Stockholm conference, Sweden and then started celebrating annually at global level. From school children to community groups, companies and governments, all come together to pledge towards building a greener planet.

**What is World Environment Day?**

- World Environment Day (WED) is the United Nations' principal vehicle for encouraging worldwide awareness and action for the environment.
- It also serves as the 'people's day' for doing something positive for the environment, galvanizing individual actions into a collective power that generates an exponential positive impact on the planet.

**Dr. ANIL JOSEPH PPT ON WORLD ENVIRONMENT DAY**

Keeping this aim in view, Dr. C. Velan, City Head – Chennai Operations & Pan India Head for Property Management at Ascendas India ( CapitaLand India). Former CEO of Tata Realty Infrastructure Limited (TRIL), Chennai, briefed about the importance of this day. Sree Vidyanikethan Engineering college students as well faculty was asked to plant a sapling in small pots and bring them to college to create a green corner in the COLLEGE corridors.

Sree Vidyanikethan Educational Trust considers environment as a matter of vital importance, endeavored to drive this point amongst our students, so that they can make this world greener, and can take earnest initiatives to heal environment. It started with the 'Green Pledge' taken by all the students of the college, wherein the students vowed to preserve their environment and make the earth a better place to live in. It was followed by "Speech" in the morning assembly.

It gave a window of opportunity to students to share their ideas and activities for making our world cleaner, greener, and brighter.

The presentation highlighted in an age appropriate way the ways in which energy is wasted throughout the day, how they overuse energy in the form of water, electricity, fuels, food etc and how they could reduce, reuse and recycle these at their level.

The event was conducted successfully with whole hearted participation and awareness for a greener World.

Dr. T. Nageswar Prasad, Vice-Principal opinion on international Yoga day

Art of living has recognized that the fear and anxiety of the pandemic, the stress from the lockdown and isolation; and the uncertainty about the economy, jobs and future were affecting people's mental health and well-being. The session started with a prayer to almighty by Sri. S.V. Suresh.

Speaker addressing young enthusiastic participants

The session started with a short prayer to almighty by Sri. S.V. Suresh followed by "how yoga helps in increasing life skills?" Can I practice yoga during the COVID-19" The answer is yes.

Regular practice of yoga has shown effective results. Different asanas boost immunity, build the body's strength, increase energy levels, bring down anxiety and stress, infuses positivity and freshness in the mind. Lack of sleep, poor nutrition, and life stress all lead to a weakened immune system and vulnerability to sickness. Stress, more than anything, leads to a breakdown in the body's ability to defend itself against bacteria and viruses.

The speaker also added that Asanas are part of yoga and Yoga is not just doing asanas but the integration of all body parts through breath control. Sri. S. V. Suresh garu also explained how to

handle emotions in life using Life Management Skills. In order to have a positive attitude, stress free mind, violent free society and healthy mind Yoga Pranayama and Aasanas is of prime importance.

He also agreed with the point made by vice-principal and added that during interview and examination we need to focus more with proper concentration and communication and good memory to retain all we read and ability to recollect and put in paper, millions of thoughts will be there but we need to focus to face the situation without stress. For which we need energy which can be gained by aasanas through rhythmic breathing he added.

Sri S. V. Suresh, added fact that Yoga lowers stress hormones and strengthens the nervous system while also stimulating the lymphatic system, which removes toxins from the body. Yoga calms the mind and can contribute to deeper, regulated sleep, which is crucial for wellness; sleep is one of the most important factors in healing and maintaining a healthy immune system.

Later the speaker started demonstrating various aasanas.

Lacking this skill is the biggest issue faced by society today, and this has to be developed. It is never perfect, some ups and downs do happen in this matter. Like, what we feel, we cannot express fully, and cannot understand correctly what others feel.

This keeps happening in life but when we become more calm and happy, we are able to understand others' minds more and more. That's why it is very necessary to do meditation, pranayama, etc. That gives more inner clarity, and then we feel that others can understand us better, and also we can express our views better.

Mr. G. Kuladeep, NSS PO, Welcomed the participants for Day 3

The speaker of session Sri.S.V Suresh's objective of day 3 was "How to overcome EXAM STRESS". It's Exam Time of the year again during this pandemic. Everyone gets stressed during this time with the pressure to do well. So is there a way to combat the anxiety? To increase your concentration? To increase interest in studies? To deal with the weight of expectations of your parents, teachers and yourself? Luckily, yes he stated. He gave some tips which helps participants to calm their nerves, increase concentration and will help to achieve their goal.

Sri. S.V. Suresh said that the most difficult thing to do is to express our feelings correctly and to understand other's feelings correctly. Lacking this skill is the biggest issue faced by society today, and this has to be developed. It is never perfect, some ups and downs do happen in this matter. Like, what we feel, we cannot express fully, and cannot understand correctly what others feel.

Sri.S.V.Suresh mentoring Students about How to face exams

The speaker addressed on the fact that *skills need to wake up within us* which we already acquired we need to wake it up and polish it by Yoga, Aasana and Meditation. He also stated that powers and skills are within you but in sleeping mode. It's very important to observe rhythm of breath for a happy life.

Sri S.V.Suresh added that the Art of Living says "Encourage children to be more energetic through proper food, physical exercise. Reduce the load on their heads. Parents and peers should not exert pressure on children. When children do yoga, meditation, play creative and co-operative games, not competitive games, their energy levels go up. This results in them paying more attention to their studies."

The Speaker also elucidated about various preparedness for the exams in order to succeed in life.

Pre-Examination Preparedness:

- Sleep well. Without physical and mental rest, memory and concentration are not strong. A tired mind will not focus or retain information well.
- Try and wake up at sunrise, and followed by simple breathing exercises like Nadishodhan Pranayama and Ujjai breathing. This way, stress is eliminated from your body and mind and energy levels rise.
- Use Meditation as a study tool. Practice any simple meditation for a few minutes just before you start your studies. It helps you relax, learn fast, and retain longer, without getting distracted.
- Once you are ready to start, sit down and start studying. No excuses, no postponement.
- Plan your time: Draw a revision timetable schedule and include some time for periodic relaxation breaks. This helps internalize what you have studied and also increases concentration.
- Eat right: fresh, light, homemade vegetarian food will help to increase your ability to concentrate and increase energy levels.

During exams:

- Before you enter the exam hall, relax. Don't stress yourself more by overloading your brain. You don't have to study any more at that time.
- If you feel tense during an exam, take deep long breaths. Observe your breath going in and out and feel your calmness and balance return.
- Don't under-estimate the power of prayer. Prayer also helps your mind to focus, concentrate and defuse anxiety.

*"Keep your goals clear in your mind and don't let others push your buttons. It is your life and your results"*

Later the forum was open for queries and feedback from the participants. Sri S.V.Suresh, the speaker of the webinar guided the participants and shown his gratitude by enlightening the participants queries.

**Report on Help the Homeless (Visit to Mathrusya)**

"If our hopes of building a better and safer world are to become more than wishful thinking, we will need the engagement of volunteers more than ever", A quote by KOFI ANNAN.

Main purpose of education is to educate individuals within a society, to prepare and qualify them for work in economy as well as to integrate people into society and teach those values and morals of society. Role of education is means of socializing individuals and making them realize their responsibilities towards society. In this process, "**Young Caliber**", an ACME club, a students' social service initiative of ECE of Sree Vidyanikethan Engineering College was started in December 2012. The objective of this club was to inculcate the attitude of serving the society.

**Picture 1&2: Volunteers visit to Mathrusya orphanage under Young Caliber(ACME Club)**

This year, as a part of Young Caliber, students of III and IV B.Tech. had visited to "**Mathrusya**", an orphanage, with the main intention of providing moral support to them. "Mathrusya"—School for Abandoned children and mentally challenged people is located near Bairagi patteda, Tirupati. It was an orphanage home stated with the motto of adopting the street children and joining them into a school. The founder of the orphanage is Mrs. Sreedevi and all the children call her as Amma. She has almost kept her money into the orphanage and now it being run by her son Surya. Almost 85 children are there aging from 2-15 years.

**Picture 3: Team ACME -young caliber event cake cutting ceremony in Mathrusya**

A total of 50 students of III and IV year of Department of ECE, have spent their quality time with the students there and played with them. They provided guidance to the students. They also donated money for special lunch for the children. They have also distributed chocolates and cake among the children. In the tough times of COVID-19 pandemic, they have provided the stationary kits, books, masks and other safety necessities to the children. The students were quite happy to have spent their quality time with the students of Department of ECE.

Harshitha Reddy MBBS, MD (General Medicine), AMARA HOSPITALS, Renigunta, Tirupati.

### Objective

- **Health Awareness** about the COVID-19 conditions and mental health continuum, reduce stigma associated with mental illness, promote help seeking behaviors and emotional well-being practices, and prevent suicide through individual education and outreach events.

### Focus

- The importance of 'Health'.

### The Initiatives and Programmes

- Bereavement, isolation, loss of income and fear are triggering mental health conditions or exacerbating existing ones. Many people may be facing increased levels of alcohol and drug use, insomnia, and anxiety.
- Meanwhile, COVID-19 itself can lead to neurological and mental complications, such as delirium, agitation, and stroke. People with pre-existing mental, neurological or substance use disorders are also more vulnerable to SARS-CoV-2 infection -they may stand a higher risk of severe outcomes and even death.
- Signs and symptoms include respiratory symptoms and include fever, cough and shortness of breath. In more severe cases, infection can cause pneumonia, severe acute respiratory syndrome and sometimes death.
- Standard recommendations to prevent the spread of COVID-19 include frequent cleaning of hands using alcohol-based hand rub or soap and water; covering the nose and mouth with a flexed elbow or disposable tissue when coughing and sneezing; and avoiding close contact with anyone that has a fever and cough.

***Dr.reshma reddy explaining about Uterine fabroids and its treatment***

In this program, Dr. Reshma Reddy has explained about Heavy Periods or Abnormal Bleeding. As a part of it, she told that, if period lasts for more than seven days, or if flow is so heavy that it is difficult to maintain normal lifestyle and activities during menstrual period, women should see their healthcare provider. Many of the causes of abnormal or heavy bleeding are minor issues that are easily treated, enabling women to resume their normal activities quickly; however, some causes of abnormal bleeding may be more serious and require immediate medical attention.

On the other hand, she has suggested about Pelvic pain. Pelvic pain is a

common symptom that can occur in a variety of different ways. It can come and go or it can be constant, it can be present in different parts of the pelvic area, and the pain may feel different at different times or with certain activities.

*Dr. Reshma Reddy explaining causes for different infections*

Sree Vidyanikethan Educational Trust has conducted an effective programme in association with Dr. Reddy's Foundation for Health Education especially for women faculty and this programme received an excellent feedback from them because it's very much useful and informative to women.

*Volunteers collecting plastic and non-degradable waste during Clean and Green program and dumping in truck to dispose.*

Dr.P.Giridhara Reddy Director (R&A) mentioned that Funds should be collected and allocated to provide proper sewage systems, public toilets and garbage disposals across the rural areas under Corporate social Responsibility . rural and semi urban areas are the most severely affected from improper wastage disposals, so a collective education to citizens can ensure that their cities are kept clean.

Dr. B.M.Satish Principal ,SVEC highlighted that the Swachh Bharat Mission is a huge movement that if taken forward can bring about a massive change in both the country's outlook as well the citizen's attitude. Reduction in waste, minimized littering and pollution will pave way for a healthier and productive state and mind.
