An Expert Lecture on
## "Career Opportunities in Full Stack Development"

The Department of Computer Science and Engineering, Sree Vidyanikethan Engineering College organized an Expert Lecture on "Career Opportunities in Full Stack Development" on 12ᵗʰ April 2022 for III B.Tech. CSE students.

As an IT job role that manifests versatility and superlative IT skills, full-stack development has gained worldwide popularity and demand. The core idea of the expert lecture was to educate III B.Tech. CSE students on the great demand for Full Stack Developers in the industry. Mr. Chiradeep Nanabala, Senior Full Stack Developer, Bank of New York Mellon, Chennai was the resource person for the session. A total of 92 III B.Tech. CSE students participated in the session and got benefited.

Dr. G. Sunitha, Professor and Board of Studies Chairperson convened the event. Dr. G. Sunitha introduced the resource person and presented a brief note on the current demands in the industry for Full Stack Developers, and how a Full Stack Developer must boast mastery on the interdisciplinary skill set. Mr. Chiradeep Nanabala started the session by sharing his work experiences and the projects he is involved at Bank of New York Mellon as senior Full Stack Developer. The expert provided participants with an awareness on the variety of skills and technologies they must learn to become a Full Stack Developer. The expert stressed on the requirement that a Full Stack Developer must also be proficient in user experience and business logic and shall envision how an application will look, feel, and function. He enumerated various e-resources that can be utilized to develop skills for Full Stack Development and also discussed on how Full Stack Developer Certifications will help to crack job interviews. Further, he discussed on the guaranteed career growth and a variety of compelling reasons to consider being a full stack developer.

Outcomes of the Programme:

- The participants gained knowledge on the skill set required to become a Full Stack Developer.
- The programme created awareness in participants on the current demand for Full Stack Developers in industry and various career opportunities in Full Stack Development.
- The participants accumulated e-resources for developing their skills in Full Stack Development and to achieve certifications as Full Stack Developer.
