MASK DESIGN EVENT
(November 27, 2021)

Improved face mask design helps fight Covid-19. Women Empowerment cell of Sree Vidyanikethan Engineering College has conducted Mask Design Event on 27.11.2021. Dr. M. S Sujatha convener of this programme addressed about the technology that could lead to improved usage of reusable fabric masks and help contain the spread of the pandemic. Dr. A. Yasmine begum coordinator addressed about the problem with current reusable cloth masks is that they leak air around the edges, thus bypassing the filtration mechanism. This means virus particles can enter the air breathed in by users, as well as allowing particles from infected persons to leave the mask. Hence in this urgent need of the epidemic, it also urged the creation of improved mask design.

Dr. N. Padmaja, Professor Of E.C.E and Dr. D. Leela Rani, Professor of E.C.E acted as judge for this event. Students from various branches registered and participated in this event. Prototypes of the face mask utilized Fabric, Paper, Tissue paper, Handkerchiefs, Masks with Zip, Masks with design in the fabric. Participants have demonstrated designs for face masks that improve the protection they offer and bring greater comfort for the wearer.
