A Guest lecture on "Opportunities for Mechanical Engineers"

A guest lecture on "Opportunities for Mechanical Engineers " was organized by the Department of Mechanical Engineering, Sree Vidyanikethan Engineering College, Tirupati, on 02nd June 2022 in the Seminar Hall of Mechanical Engineering Department. The resource person Dr. V. Nagaprasad Naidu, Professor & Head of Department Mechanical Engineering, JNTUA College of Engineering, Kalikiri, Chittoor(Dt) explicated on opportunities for Mechanical engineers.

The program aims to familiarize the participants with the significance of polymath mind set for Mechanical engineers. The interactive session was ignited with probing question on causes behind the selection of Mechanical Engineering as a specific domain and students answered enthusiastically. Eventually, the resource person highlighted the significance of sound Mechanical Engineering education and its relevance in contemporary technologies.

Resource person addressing the participants

Students attending the lecture

Also, strategies for discerning the innate patterns in realm of cutting edge technologies and nurturing the skill set were discussed deliberately. The resource person emphasized data mining and artificial intelligence as game changers in this regard. Dr. V. Nagaprasad Naidu also spoke about data mining and how it can help you make sensible market judgments, run accurate advertising, make predictions, and much more.

Dr. T. Hariprasad, Professor, BOS chairman, and programme organiser, expressed gratitude for enlightening students on the opportunities for Mechanical Engineers and strategies for leveraging their skill set through polymath mindset . Few students interacted with the resource person and clarified their doubts.
