A Report on talk "INSIGHTS OF CAREER SUCCESS"

Under

Department Activities for the month of November

Sub: A Report on talk "Insights of Career Success " under department activities
-Regd.

As part of department activities, a talk was conducted on "Insights of Career Success", by K. Harshavardhan Reddy for M.E IV year I Semester students on 08-11-2022 from 10.30 a. m to 11.30 a.m.

Mr. K Harshavardhan Reddy delivering his talk to the students.

The program is begun with What if there was a way for students to create a plan for their future that's both specific to who they are and flexible enough to adapt over time when they change their minds?

My Career Insights is designed to help students discover, develop and drive their career planning. It's a unique opportunity for them to learn more about their strengths and abilities while exploring potential career options – giving them the confident to start taking control of their future.

Year 9 is an ideal time for students to take a moment to reflect on who they are, and what they might want from a career. It's a time for self-discovery and an opportunity to think about their strengths and find new ones.

Step 1: **Discover** - Students begin with Morrisby, the online discovery tool designed to help them learn more about themselves – their values, preferences and skills – giving them a better understanding of where their strengths lie. These personal insights help open up a variety of possible career pathways, specifically tailored to who they are.

Step 2: **Develop** - It's now time for students to share what they have discovered. My Career Insights allows students to talk one-on-one with an independent career counsellor about any initial ideas and thoughts. This discussion will help them to set realistic goals, and start putting actions in place to continue their career journey.

Step 3: **Drive** - My Career Insights aims to give students the confidence to start making more informed choices and decisions around their future schooling and widen their perspective on potential career options. It puts them in the driver's seat of their career journey.
