Rd Number 10,
Kakateeya Hills, Jubilee Hills,
Hyderabad, Telangana 500033**

About Mr. Jignesh Talasila

Mastered the art of creating immersive assessments through contextual simulations & non-contextual games in VR. With a passionate team of Hackers & Psychologists, innovating the ways to effectively assess personality, behavior & cognitive abilities of a candidate to find his/her true potential & culture fit, at a modern workplace.

Being one of the pioneers in Indian VR scene, Jignesh has been advising innovation teams of MNCs and Govt. organizations, to find immediate ways for technology adoption.

He has also taken a long journey of creating awareness and evangelizing the technology by building a VR/AR community through BonfireVR. During his tenure with Conduira Online, India's leading e-training portal for competitive exams, he did spend time launching, leading & growing sales. His prior career included the startup he established with a group of enablers in developing parallel practical curriculum for K-12. Through Dirt9 Education his team could create a strong positive impact in learning methodologies for more than 2,000 students.

During his tenure at Accenture, he worked with a leading premium fashion retailer in risk mitigation & market trend analysis. His passion to foster innovation & entrepreneurship made him bring up a science & activity center at his alma mater GITAM University, which has brought more than 15,000 students to collaborate & develop through diverse projects driving social impact in 10+ verticals.

He has been one of the top contributors for the projects like Solar Car & Hydel Powered Water Pump for agriculture along with the robot that was presented at National Lunabotics competition at NASA. His background in core mechanical engineering got him hands-on experience in R&D through his work on coatings using nanomaterials for a project from VRDE (Vehicle Research & Development Establishment), a unit of DRDO.
