Department: **CIVIL ENGINEERING** | Date: **17th September 2022**

An Expert Lecture on “Career Counselling for Civil Engineering Students” 17th September 2022

The Department of Civil Engineering, Sree Vidyanikethan Engineering College organized an Expert Lecture on “**Construction Management and its Career Opportunities**” on 17th September, 2022 from 03:30 PM to 05:00 PM in the Civil Engineering Seminar Hall for the benefit of IVB. Tech Civil Engineering Students.

The Resource Person was **Mr. Manoj K. V**, Project Manager and Business Developer, BAUER Group, North-East India and Bhutan. Mr. Manoj K. V is the Alumni of SVEC. He completed his UG from Civil Engineering Department, SVEC from the Batch 2012-2016. Dr. K. Narasimhulu, Professor & HoD, Department of Civil Engineering, SVEC was the Convener of the program and Mrs. G. Gnana Prasanna, Assistant Professor, Department of Civil Engineering, SVEC was the Coordinator of the program. Dr. O. Eswara Reddy, Professor and BoS Chairman, CE, SVEC graced the Occasion.

Mr. Manoj K.V. in his lecture, enlighten the importance and relevance of Construction Management in Civil Engineering. He elaborately explained about his experience in the construction field. He shared his work experiences as Planning Engineer in L&T and Project Manager and Business Developer in BAUER Group. He explained about the actual situations in the construction field and how to grab the opportunities. He mentioned that Higher Education in premier institutes, Employment in private and government sectors; and to become an entrepreneur are the different career opportunities. He reiterated that communication skills and the basic knowledge on subjects is important for recruiting into good reputed companies. He suggested that students should have their own goals and should strive to achieve those goals. He then interacted with the students and clarified their doubts related to the career options.

A total of 114 students from IV B.Tech Civil Engineering and 4 Faculty Members from the Department of Civil Engineering have participated in the event. On the whole, the event was proved successful. The students were enriched with the knowledge of construction management and its opportunities present in the field of Civil Engineering.
